SUPPLEMENTARY INFORMATION:

Background

Caroline H. and Thomas W. Paterson (Applicants) plan to implement conservation measures on Spur Ranch, a 309 acre parcel of land northeast of Luna, Catron County, New Mexico. The conservation measures will improve riverine, riparian, and upland habitat through improving water quality, reducing sedimentation, and establishment of native riparian vegetation. The SHA as currently written is expected to provide a net conservation benefit to the five species for which it is written. The SHA will provide protection to the Applicants against further regulation under the Endangered Species Act in the event that any of the covered species should occupy the Patersons' land as a result of implementation of the proposed conservation measures.

Section 9 of the Act prohibits the "taking" of threatened or endangered species. However, the Service, under

limited circumstances, may issue permits to take threatened and endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22 and 50 CFR 17.22 for threatened species.

Thomas L. Bauer,

*Acting Regional Director, Region 2,
Albuquerque, New Mexico.*
