

e. How long books and records would be maintained (and confirmation that, in any event, they would be maintained for at least five years).

*Core Principle L: Public Information—The applicant shall make information concerning the rules and operating procedures governing the clearing and settlement systems (including default procedures) available to market participants.*

In addressing Core Principle L, applicants and registered derivatives clearing organizations may describe or otherwise document:

Disclosure of information regarding rules and operating procedures governing clearing and settlement systems:

a. Which rules and operating procedures governing clearing and settlement systems should be disclosed to the public, to whom they would be disclosed, and how they would be disclosed;

b. What other information would be available regarding the operation, purpose and effect of the clearing organization's rules;

c. How members/participants may become familiar with such procedures before participating in operations; and

d. How members/participants will be informed of their specific rights and obligations preceding a default and upon a default, and of the specific rights, options and obligations of the clearing organization preceding and upon the member's/participant's default.

*Core Principle M: Information Sharing—The applicant shall (i) enter into and abide by the terms of all appropriate and applicable domestic and international information-sharing agreements; and (ii) use relevant information obtained from the agreements in carrying out the clearing organization's risk management program.*

In addressing Core Principle M, applicants and registered derivatives clearing organizations may describe or otherwise document:

1. Applicable appropriate domestic and international information-sharing agreements and arrangements including the different types of domestic and international information-sharing arrangements, both formal and informal, which the clearing organization views as appropriate and applicable to its operations.

2. How information obtained from information-sharing arrangements would be used to carry out risk management and surveillance programs:

a. How information obtained from any information-sharing arrangements would be used to further the objectives of the clearing organization's risk management program and any of its surveillance programs including financial surveillance and continuing eligibility of its members/participants;

b. How accurate information is expected to be obtained and the mechanisms or procedures which would make timely use and application of all information; and

c. The types of information expected to be shared and how that information would be shared.

*Core Principle N: Antitrust Considerations—Unless appropriate to achieve the purposes of this Act, the*

*derivatives clearing organization shall avoid (i) adopting any rule or taking any action that results in any unreasonable restraint of trade; or (ii) imposing any material anticompetitive burden on trading on the contract market.*

Pursuant to section 5b(c)(3) of the Act, a registered derivatives clearing organization or an entity seeking registration as a derivatives clearing organization may request that the Commission issue an order concerning whether a rule or practice of the organization is the least anticompetitive means of achieving the objectives, purposes, and policies of the Act. The Commission intends to apply section 15(b) of the Act to its consideration of issues under this core principle in a manner consistent with that previously applied to contract markets.

Dated: May 8, 2001.

By the Commission.

**Jean A. Webb,**  
Secretary.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 2

[FRL-6978-6]

#### Public Information and Confidentiality: Advance Notice of Proposed Rulemaking; Notice of Reopening of Comment Period

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Reopening of comment period.

**SUMMARY:** On December 21, 2000 (65 FR 80394), EPA published an advance notice of proposed rulemaking (ANPRM) regarding potential revision of the confidential business information (CBI). EPA is reopening the comment period in order to afford the public the opportunity to provide additional comments concerning the ANPRM. The comment period will close on June 13, 2001. We believe it is necessary to reopen the comment period as a courtesy to the public in response to public requests for additional time to consolidate comments on the proposal following the public meeting held on March 7, 2001.

**DATES:** EPA must receive comments on the ANPRM by June 13, 2001.

**ADDRESSES:** Written comments should be submitted (in duplicate if possible) to Docket Number EC-2000-004, Enforcement and Compliance Docket and Information Center (ECDIC), U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Room 4033, Mail Code 2201A, Washington, DC 20460; Phone, 202-564-2614 or 202-564-2119; Fax, 202-501-1011 E-Mail,

[docket.oeca@epa.gov](mailto:docket.oeca@epa.gov). Documents related to this advance notice of proposed rulemaking are available for public inspection and viewing by contacting the ECDIC at this same address. The ECDIC is open from 8 a.m. to 4 p.m., Monday through Friday, excluding Federal holidays.

#### FOR FURTHER INFORMATION CONTACT:

Alan Margolis, Office of Information Collection, Office of Environmental Information, U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW, Mail Code 2822, Washington, DC 20460; Phone, 202-260-9329; Fax, 202-401-4544; Email, [margolis.alan@epa.gov](mailto:margolis.alan@epa.gov).

Dated: May 7, 2001.

**Margaret N. Schneider,**  
Acting Assistant Administrator, Office of Environmental Information.

BILLING CODE 6560-50-P

## FEDERAL EMERGENCY MANAGEMENT AGENCY

### 44 CFR Part 67

[Docket No. FEMA-D-7508]

#### Proposed Flood Elevation Determinations

**AGENCY:** Federal Emergency Management Agency, FEMA.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

**ADDRESSES:** The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

**FOR FURTHER INFORMATION CONTACT:** Matthew B. Miller, P.E., Chief, Hazards Study Branch, Mitigation Directorate, Federal Emergency Management

Agency, 500 C Street SW., Washington, DC 20472, (202) 646-3461, or (email) [matt.miller@fema.gov](mailto:matt.miller@fema.gov).

**SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with Section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are

made final, and for the contents in these buildings.

#### National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

#### Regulatory Flexibility Act

The Acting Executive Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the NFIP. As a result, a regulatory flexibility analysis has not been prepared.

#### Regulatory Classification

This proposed rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

#### Executive Order 12612, Federalism

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

#### Executive Order 12778, Civil Justice Reform

This proposed rule meets the applicable standards of Section 2(b)(2) of Executive Order 12778.

#### List of Subjects in 44 CFR Part 67

Administrative practice and procedure, flood insurance, reporting and recordkeeping requirements.

Accordingly, 44 CFR Part 67 is proposed to be amended as follows:

#### PART 67—[AMENDED]

1. The authority citation for Part 67 continues to read as follows:

**Authority:** 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

#### § 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)	
				Existing	Modified
