Reporting of Natural Gas Sales to the California Market

[Docket No. RM01-9-000]

**Order Proposing Reporting Requirement on Natural Gas Sales to California Market and Requesting Comments**

Issued May 18, 2001.

In the past year there has been a sharp increase in the price of natural gas sold in the California market, which has exceeded the increase in other markets. While natural gas prices have recently fallen, prices remain higher in California than in any other market in the United States, including those markets that are supplied by the same producing areas. The Commission is therefore proposing to issue an order imposing certain reporting requirements on natural gas sellers and transporters serving the California market. This reporting requirement is intended to
