Title: WIC Financial Management and Participation Report with Addendum.

OMB Number: 0584-0045.

Expiration Date: 05-31-2003.

Type of Request: Revision of a Currently Approved Collection.

Abstract: FNS proposes to add one data element, migrant participation, to Form FNS-798. WIC State agencies will report the number of migrants served during the previous 12 months on their July FNS-798 report submitted at the end of August. Through August 2000, State agencies reported migrant participation along with participation by nutritional risk priority on Form FNS-654, WIC Annual Participation Report. Form FNS-654 has since been allowed to expire, as the WIC funding formulas no longer utilize priority data. This allows WIC State agencies to report participation by priority data to FNS less frequently. WIC State agencies will continue to report participant priority data to FNS on the biennial WIC Participant Characteristics (PC) Report. Expiration of the Form FNS-654 reduces the reporting burden with respect to participant priority data.

FNS must continue to collect migrant data annually to comply with section 17(g)(4) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(g)(4)), which provides that "[o]f the sums appropriated for any fiscal year for programs authorized under this section, not less than nine-tenths of 1 percent shall be available first for services to eligible members of migrant populations." The addition of migrant participation as a data element on Form FNS-798, if approved, will result in no change in the reporting burden from that of previous years. Migrant data collection, formerly obtained on the Form FNS-654, will simply be consolidated with other current reporting requirements for ease of reporting.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3.115 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The total annual burden on respondents was previously estimated at 4637.6 hours. The revision adds one data element which increases the total annual burden by 22.44 hours.

Respondents: Directors or Administrators of WIC State agencies.

Estimated Number of Respondents: 88 respondents.

Estimated Number of Responses per Respondent: Seventeen.

Estimated Total Annual Burden on Respondents: 4660.04 hours.

Dated: May 23, 2001.

ADDITIONAL INFORMATION OR COMMENTS:

Contact Rich Allen, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, Room 4117 South Building, 1400 Independence Avenue SW., Washington, DC 20250-2001, (202) 720-4333.

SUPPLEMENTARY INFORMATION: *Title:* Cold Storage Survey.

OMB Control Number: 0535-0001.

Expiration Date of Approval: 09/30/01.

Type of Request: To extend a currently approved information collection.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue state and national estimates of crop and livestock production. The monthly Cold Storage Survey provides information on national supplies of food commodities in refrigerated storage facilities. Information on stocks of food commodities facilitates proper price discovery and orderly marketing, processing, and distribution of agricultural products.

The Cold Storage Survey was previously approved by OMB in 1998 for a 3-year period. NASS intends to request that the survey be approved for another 3 years.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 24 minutes per response.

Respondents: Refrigerated storage facilities.

Estimated Number of Respondents: 11,250.

Estimated Total Annual Burden on Respondents: 5,000 hours.
