

mitigation, SHPO coordination, and hazardous waste site baseline data be incorporated in the FEIS to strengthen the document.

ERP No. D-FRC-E08021-00 Rating EC2, Florida Gas Transmission (FGT) Phase V Expansion Project, FGT Natural Gas Pipeline and Associated Above Ground Facilities, Construction and Operation, Approvals and Permit Issuance, several counties of FL, AL and MS.

Summary: EPA has environmental concerns about the proposed project. In particular, air quality, wetlands impact, water quality, noise, endangered species and Environmental Justice issues warrant further discussion as the project progresses.

ERP No. D-NOA-L91012-WA Rating EO2, Anadromous Fish Agreements and Habitat Conservation Plans for the Welss, Rocky Reach, and Rock Island Hydroelectric Projects, Implementation, Incidental Take Permits, Chelan and Douglas Counties, WA.

Summary: EPA objects to selection of Alternative 3 as the preferred alternative. The proposed framework for the HCPs fails to demonstrate that salmon and fish species of concern would be protected and restored during the next 50 years. Specific problems with the framework and accompanying analyses include Columbia River bull trout not being included in the HCP or extensively analyzed, development of biological information being deferred until the writing of the Biological Opinion, a lack of monitoring methodology, and inadequate water quality information. EPA recommends that NMFS invite USF&WS to become a cooperating agency to accommodate inclusion of Columbia River bull trout in the context of the HCP and that it address concerns about inadequate information and analyses described above.

ERP No. D-NRS-D28013-WV Rating EC2, Upper Tygart Valley River Watershed Plan, Water Supply Project, Approval and Funding, Randolph and Pocahontas Counties, WV.

Summary: EPA expressed environmental concerns regarding loss of native trout habitat and wetlands and suggested that more information be provided on stream and wetland mitigation.

ERP No. DA-FHW-F40347-IL Rating EO2, FAP Route 340 (I-355 South Extension), Interstate Route 55 to Interstate Route 80, Additional Information for the Tollroad/Freeway Alternative, Funding, US Coast Guard Permit and COE Section 404 Permit, Cook, DuPage and Will Counties, IL.

Summary: EPA raised objections to the selection of alternatives. EPA's objections would be resolved if an additional Supplemental EIS were to be issued with a full environmental impact assessment of the Lemont Bypass Alternative. Our Section 404 objections would be resolved if sufficient wetlands impacts information on the Lemont Bypass Alternative is submitted to permit a finding of compliance with the Section 404(b)(1) Guidelines.

Final EISs

ERP No. F-COE-K36107-CA Bolsa Chica Project, Construction/Road Construction, Restoration and Flood Control Improvement, Section 10/404 Permits and Land Use Plan, City of Huntington Beach, Orange County, CA.

Summary: No formal comment letter was sent to the preparing agency.

ERP No. F-FHW-E40739-NC US 17 New Bern Bypass Construction, Jones-Craven County Line to NC-1438 near Vanceboro, Funding, Section 404 and U.S. Coast Guard Bridge Permit, Craven County, NC.

Summary: EPA's review indicates that all earlier concerns have been addressed satisfactorily. Adverse community, cultural and natural environmental resource impacts have been minimized substantially. The 4-lane highway improvement project on new alignment includes commitments for good mitigation of identified wetlands losses, stormwater runoff control, and habitat impacts.

ERP No. F-IBR-K39049-CA Coachella Canal Lining Water Project, Revised and Updated Information, Approval of the Transfers and Exchanges of Conserved Coachella Canal Water, Construction, Operation and Funding, Riverside and Imperial Counties, CA.

Summary: EPA recognized the commitment to mitigation for biological resources, cumulative impacts, safety, and large mammals. We recommended the ROD include additional information on consultation with tribal governments on cultural resources and local socioeconomic effects from loss of canal seepage water.

ERP No. FS-COE-K36083-CA Guadalupe River Flood Control and Adjacent Streams Investigation, Proposed Modifications to the Guadalupe River Project, Downtown San Jose, Santa Clara County, CA.

Summary: EPA found the FGRER/FSEIS adequately addresses most of the issues raised in our comment letter on the DSEIS. We reiterated our support for additional measures to control mercury impacts through sediment control traps and mitigation measures which would remove "hard" engineered flood control

structures in other parts of the basin. EPA expressed continued concern with the use of invert stabilization mechanisms.

Dated: June 4, 2001.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6992-6]

Notice to Existing Assistance Agreement Recipients Funded With Fiscal Year (FY) 2000 or 2001 Appropriations: New Requirements Regarding Litigation and Lobbying Certification

ACTION: Notice.

AGENCY: Environmental Protection Agency.

SUMMARY: The Office of Management and Budget (OMB) Circulars A-21, A-87, and A-122, which establish the principles for determining allowable costs under Federal assistance agreements, prohibit the use of Federal assistance funds for certain lobbying and litigation costs.

In addition, Section 424 of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001, Public Law 106-277, requires that: "A chief executive officer of any entity receiving funds under this Act shall certify that none of the funds have been used to engage in the lobbying of the Federal Government or in litigation against the United States unless authorized under existing law." Section 426 of the Department of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2000,

Public Law 106-74, contains a similar provision. This requirement applies to not-for-profit institutions, educational institutions, state, local or tribal governments and other entities receiving assistance awards under EPA's FY 2000 and 2001 Appropriations Acts.

The Paperwork Reduction Act (PRA), 44 U.S.C.A. 3500 et seq., requires that a Federal agency intending to request information from ten or more persons must obtain OMB approval before requesting that information. The appropriations act provisions described above impose additional information collection requirements on EPA assistance agreements. Therefore, EPA is currently seeking OMB approval of an information collection request for a certification document to be distributed and signed by a chief executive officer representing each entity. The certification document will not be disseminated until it has been approved by OMB.

Even though OMB has not yet approved the information collection request for the certification document, the mandates in the appropriations acts remain in effect because they are imposed directly by statute. Thus, recipients with assistance agreements funded with FY 2000 or FY 2001 appropriations must comply with this certification requirement. However, a particular format is not required until that form is approved by OMB. Until that time, each entity may provide this certification in any reasonable manner of choice. The certification must be submitted to EPA after the funds received under those appropriations have been expended.
