Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Comments, recommendations, terms and conditions, protests and interventions may be filed electronically via the internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at: http://www.ferc.fed.us/efi/doorbell.htm.

k. Deschutes Valley Water District (DVWD) filed an application, with the concurrence of the Oregon Department's of Fish and Wildlife and Environmental Quality, to reduce flows in the bypass reach from 50 cfs to a 10 cfs leakage flow, between June 15, 2001 and September 30, 2001. In addition, DVWD proposes to add spawning gravel to the river in the vicinity of the powerhouse. DVWD states that this modification to project operations will increase generation by approximately 120 kilowatts (kW).

l. A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room at 888 First Street NE., Room 2A, Washington, DC 20426, or by calling (202) 208–1371. The application may be viewed on the web at http://www.ferc.fed.us/online/rims.htm. Call (202) 208–2222 for assistance. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

Any filings must bear in all capital letters the title "COMMENTS," "RECOMMENDATIONS FOR TERMS AND CONDITIONS," "PROTEST," or "MOTION TO INTERVENE," as applicable, and the Project Number of the particular application to which the filing refers. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

David P. Boergers,

Secretary.

[Docket No. RP00-409-000]

Natural Gas Pipeline Company of America; Notice of Technical Conference

June 7, 2001.

On July 17, 2000, Natural Gas Pipeline Company of America (Natural) submitted its filing to comply with Order No. 637. Several parties have protested various aspects of Natural's filing.

Take notice that a technical conference to discuss the various issues raised by Natural's filing will commence on Tuesday, July 10, 2001, at 10:00 a.m.

The technical conference will be held in a room to be designated at the offices of the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Parties protesting aspects of Natural's filing should be prepared to discuss alternatives.

All interested parties and Staff are permitted to attend.

David P. Boergers,

Secretary.

Sunshine Act Meeting

June 6, 2001.

The following notice of meeting is published pursuant to section 3(a) of the Government in the Sunshine Act (Pub. L. 94–409), 5 U.S.C 552b:

AGENCY HOLDING MEETING: Federal Energy Regulatory Commission. **DATE AND TIME:** June 13, 2001., 10:00

A.M. 10:00

PLACE: Room 2C, 888 First Street, N.E., Washington, D.C. 20426.

STATUS: Open.

MATTERS TO BE CONSIDERED: Agenda.

Note: Items listed on the agenda may be deleted without further notice.

CONTACT PERSON FOR MORE INFORMATION:

David P. Boergers, Secretary, Telephone (202) 208–0400. For a recording listing items stricken from or added to the meeting, call (202) 208–1627.

This is a list of matters to be considered by the Commission. It does not include a listing of all papers relevant to the items on the agenda; however, all public documents may be examined in the Reference and Information Center.

DEPARTMENT OF ENERGY

Western Area Power Administration

Intent To Relieve Path 15 Transmission Constraints

AGENCY: Western Area Power Administration, DOE.

ACTION: Request for Statements of Interest.

SUMMARY: The National Energy Policy Report announced on May 17, 2001, recommended that the President direct the Secretary of Energy (Secretary) to authorize the Western Area Power Administration (Western) to explore relieving the "Path 15" bottleneck through transmission expansion. The Path 15 bottleneck refers to transmission system constraints which severely limit the flow of electric power over the existing north-south transmission lines located in central California. These existing lines are owned and operated by Pacific Gas and Electric Company (PG&E).

On May 28, 2001, the Secretary directed the Administrator of Western to complete its planning to relieve Path 15 constraints, and determine whether outside parties are interested in helping finance and co-own the necessary system additions, including transmission lines. The level of interest will be a factor in the decision by the Secretary whether or not to build the system additions necessary to relieve the constraints. If the system additions are built under this process, Western will be a project manager for the construction efforts.

In this notice, Western is requesting Statements of Interest from parties interested in helping finance and coown the system additions.

DATES: To be assured of consideration, all Statements of Interest should be received at Western's Sierra Nevada Regional Office by July 13, 2001.

ADDRESSES: The Statements of Interest should be mailed to: Mr. Howard Hirahara, Acting Regional Manager, Sierra Nevada Region, Western Area Power Administration, 114 Parkshore Drive, Folsom, CA 95630–4710. Statements of Interest may also be faxed to (916) 985–1934 or e-mailed to path15@wapa.gov.

FOR FURTHER INFORMATION CONTACT: For further information concerning the Statements of Interest, contact: Mr. Howard Hirahara, Acting Regional Manager, Sierra Nevada Region, Western Area Power Administration, 114 Parkshore Drive, Folsom, CA 95630–4710, telephone (916) 353–4416.

SUPPLEMENTARY INFORMATION: It was recognized in the 1980s that, under certain power system conditions, the flow of electric power over Path 15 could be severely limited. Western, the Transmission Agency of Northern California (TANC), and PG&E studied the possibility of constructing system additions to relieve Path 15 constraints as part of the planning effort for the California-Oregon Transmission Project (COTP.) The COTP was authorized by the Energy and Water Development Appropriation Act, 1985, Public Law 98–360, 98 Stat. 403, 416, (1984). In 1988, Western released a final Federal environmental impact statement (EIS), and TANC released a final environmental impact review under California law, on the transmission facilities needed for the COTP. The plan included system additions, known as the Los Baños-Gates Transmission Project, to relieve the Path 15 bottleneck. At that time, the Los Baños—Gates Transmission Project would have consisted of 84 miles of new 500-kilovolt (kV) AC transmission line, realignment of the existing Los Baños-Midway No. 2 500-kV transmission line into Gates Substation, modification of the Los Baños and Gates Substations to accommodate new equipment at several existing substations, and reconductoring of portions of the Gates-Arco-Midway 230kV Transmission Line. It was subsequently determined in the Final EIS that the timing and need for the project were uncertain and if its construction was deferred it would be necessary to make minor modifications to the transmission system south of Tesla Substation to accommodate the increased power transfer demands that would be placed on the system. The COTP was built and placed in service in March 1993. For a variety of reasons, the Los Baños-Gates Transmission Project was not built.

Given the current energy problems in California, including the bankruptcy of the PG&E, the Secretary has now directed Western to complete its planning for the transmission project and to determine whether outside parties are interested in helping to finance and co-own the system additions. Western has general authority under the Department of Energy
