

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration (FAA)****Notice of Availability of Final Supplemental Environmental Impact Statement (SEIS), and Notice of Public Comment Period for Master Plan Development [Midfield Terminal Complex] at Indianapolis International Airport Located in Indianapolis, IN**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of availability, notice of comment period.

SUMMARY: The Federal Aviation Administration (FAA) is issuing this notice to advise the public that a Final Supplement to the 1992 Final Environmental Impact Statement (SEIS)—Master Plan Development, Indianapolis International Airport, has been prepared and is available for public review and comment. Written requests for the Final SEIS and written comments on the Final SEIS can be submitted to the individual listed in the section **FOR FURTHER INFORMATION, CONTACT**. The public comment period will commence on June 22, 2001 and will close on July 30, 2001.

Public Comment: The start of the public comment period on the Final SEIS will be June 22, 2001 and will end on July 30, 2001 (which includes the Council on Environmental Quality's required 30 day holding period from June 29, 2001 to July 30, 2001 before a decision can be made).

Copies of the Final SEIS may be viewed during regular business hours at the following locations:

1. Indianapolis Airport Authority, South High School Road, Indianapolis International Airport, Indianapolis, Indiana 46241.

2. Chicago Airports District Office, Room 312, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

3. Marion County Public Library, 40 East St. Clair, Indianapolis, Indiana 46204.

4. Wayne Township Branch Library, 198 South Girls School Road, Indianapolis, Indiana 46214.

5. Decatur Township Branch Library, 5301 Kentucky Avenue, Indianapolis, Indiana 46241.

6. Plainfield Public Library, 1120 Stafford Road, Plainfield, Indiana 46208.

7. Mooresville Public Library, 220 W. Harrison Street, Mooresville, Indiana 46158.

FOR FURTHER INFORMATION CONTACT: Prescott C. Snyder, Airports

Environmental Program Manager, Federal Aviation Administration, Chicago Airports District Office, Room 312, 2300 East Devon Avenue, Des Plaines, Illinois 60018. Mr. Snyder can be contacted at (847) 294-7538 (voice), (847) 294-7046 (facsimile) or by E-Mail at prescott.snyder@faa.gov.

SUPPLEMENTARY INFORMATION: In November 2000, the Indianapolis Airport Authority (IAA) announced its intention to construct a midfield terminal complex and associated development at Indianapolis International Airport. This was previously evaluated in a 1992 Final Environmental Impact Statement (FEIS) for Master Plan Development. While the majority of the development elements assessed in the 1992 FEIS have been completed, the midfield terminal complex and associated developments have been constructed. However, there have been a number of steps taken towards the development of the midfield terminal complex and associated developments. FAA determined that it was appropriate for FAA to prepare a Supplemental to the 1992 Final Environmental Impact Statement (FEIS) because the IAA's proposed development contains some modifications from the same development elements proposed and assessed in the 1992 FEIS. This SEIS is being prepared in accordance with requirements of the National Environmental Policy Act of 1969 (NEPA), as amended, 42 U.S.C. 4332(2)(C).

The Proposed Project consists of a new midfield terminal complex and associated development (relocation of Airport Traffic Control Tower, development of midfield terminal interchange, and construction of cross-field taxiways). It is anticipated that the existing terminal will be closed and demolished. The design for the midfield interchange has been finalized and disclosed as part of the 1995 Federal Highway Administration Draft Environmental Assessment (EA) for Six Points Road Interchange. The SEIS assess the environmental impacts associated with the construction of the midfield interchange at the location provided in the 1995 FHWA EA. Service roads and interior circulation roadways were not specifically defined in the 1992 FEIS as well. This SEIS provides the environmental evaluation of the location of the airfield service and interior circulation roadways.

Comments from interested parties on the Final SEIS are encouraged and may be submitted in writing to the FAA at the address listed in section entitled **FOR**

FURTHER INFORMATION CONTACT. The comment period will close on July 30, 2001. Late comments will be accommodated to the extent possible, depending on the time received during the environmental review process.

Issued in Des Plaines, Illinois on June 21, 2001.

Philip M. Smithmeyer,

Manager, Chicago Airports District Office, FAA, Great Lakes Region.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Notice of Intent To Prepare an Environmental Impact Statement (EIS) for a Proposed New Runway at Norfolk International Airport, VA**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of intent to prepare and consider an environmental impact statement and to conduct agency and public scoping meetings.

SUMMARY: The Federal Aviation Administration (FAA) is issuing this notice to advise the public that an Environmental Impact Statement (EIS) will be prepared and considered for a proposed new runway at Norfolk International Airport, Virginia. In addition, to ensure that all major project-related issues are identified, agency scoping and public scoping meetings will be held. The Bureau of Utilities for the City of Norfolk, the Norfolk District of the U.S. Army Corps of Engineers, and the U.S. Environmental Protection Agency Region III will be cooperating agencies on the EIS. Scoping meetings will be held to determine the scope of the EIS and to identify the major project-related issues to be addressed and emphasized in the EIS. The FAA hereby invites the participation of Federal, State and local agencies, any affected Indian tribe, the proponent of the action, and any other interested parties. Two scoping meetings are planned—the first is an agency scoping meeting intended for organizations having jurisdiction by law or specific expertise with respect to any environmental impacts associated with the action; the second is a public meeting intended for other interested parties, including those who may not be in accord with the action on environmental grounds. However, both meetings are open to the public.

The FAA further invites agencies, organizations, and the general public to

provide written comments relative to the action and the issues to be addressed in the EIS. Scoping comments should clearly describe specific issues or topics that the commentator believes the EIS should address.

ADDRESSES: Written comments and requests to be included on a mailing list of persons interested in the EIS should be sent to Daisy Mather, Environmental Team Leader, Federal Aviation Administration Eastern Region, Airports Division AEA-610, 1 Aviation Plaza, Jamaica, New York 11434.

DATES: The scoping meetings are scheduled for August 2, 2001. The agency scoping meeting is scheduled to begin at 9 a.m. in the Norfolk Airport Authority Conference Room at the Airport, while the public scoping meeting is scheduled to begin at 3 p.m. at the Norfolk Airport Hilton Hotel at 1500 North Military Highway, Norfolk, Virginia. Attendees may submit comments at the meetings, and written comments received by and postmarked by August 17, 2001 will be accepted for further consideration in the EIS process. Written comments should be sent to the address specified above.

FOR FURTHER INFORMATION CONTACT: Daisy Mather, Environmental Team Leader, Airports Division AEA-610, Federal Aviation Administration Eastern Region, 1 Aviation Plaza, Jamaica, New York 11434; Telephone (718) 553-2511; email: daisy.mather@faa.gov.

SUPPLEMENTARY INFORMATION: The Norfolk Airport Authority has completed a master plan update for future development projects at Norfolk International Airport, including construction of a new Runway 5R-23L. The proposed new runway project involves numerous airside improvements, including, but not limited to the following: runway and taxiway construction, taxiway relocation, runway safety area construction, new airfield lighting, improvements to existing lighting, relocation of the Very High Frequency Omni-directional Range/Tactical Air Navigation (VORTAC) facility, installation of a Medium Intensity Approach Lighting System with Runway Alignment Indicator Lights (MALSR) for Runway 23L and a Category II Instrument Landing MALSR (CAT II ILS/MALSR) for Runway 5R. Because the potential exists for this proposed new runway and other projects project to create significant environmental impacts, the FAA determined that preparation of an EIS was necessary.

The Airport is located in the City of Norfolk, adjacent to the City of Virginia Beach municipal boundary and the U.S. Navy Little Creek Amphibious Base. The environmental issues of concern for evaluation in the EIS are anticipated to be noise, environmental justice, water quality, public parks and recreation areas, threatened and endangered species, biotic communities, wetlands, air quality, secondary impacts, and cumulative impacts. Other issues that will be addressed in the EIS include potential impacts to floodplains, cultural resources, utilities, and hazardous materials.

With regard to project alternatives, the EIS will include an analysis of a variety of alternatives considered during the project planning phase of the process. In addition to the proposed action and the No Action alternatives, the analysis will include individual project site locations, mitigation alternatives, and other alternatives that may arise from the scoping process.

Issued on June 22, 2001 in Jamaica, New York.

Thomas Felix,

Manager, Planning and Programming Branch, Airports Division, Eastern Region.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Summary Notice No. PE-2001-47]

Petitions for Exemption; Summary of Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption part 11 of Title 14, Code of Federal Regulations (14 CFR), this notice contains a summary of dispositions of certain petitions previously received. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

FOR FURTHER INFORMATION CONTACT: Forest Rawls (202) 267-8033, Sandy Buchanan-Sumter (202) 267-7271, or Vanessa Wilkins (202) 267-8029, Office

of Rulemaking (ARM-1), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591.

This notice is published pursuant to 14 CFR 11.85 and 11.91.

Issued in Washington, DC, on June 25, 2001.

Donald P. Bryne,

Assistant Chief Counsel for Regulations.

Dispositions of Petitions

Docket No.: FAA-2001-9463.

Petitioner: Fare Share, Ltd.

Section of 14 CFR Affected: 14 CFR 135.143(c)(2).

Description of Relief Sought/

Disposition: To permit FSL to operate certain aircraft under part 135 without a TSO-C112 (Mode S) transponder installed in the aircraft. *Grant, 06/12/2001, Exemption No. 7542.*

Docket No.: FAA-2001-9442.

Petitioner: Schroeder Sales, Inc., dba Greenwood Aviation.

Section of 14 CFR Affected: 14 CFR 135.143(c)(2).

Description of Relief Sought/

Disposition: To permit Greenwood Aviation to operate certain aircraft under part 135 without a TSO-C112 (Mode S) transponder installed in the aircraft. *Grant, 06/12/2001, Exemption No. 7541.*

Docket No.: FAA-2001-9547.

Petitioner: Century Aviation.

Section of 14 CFR Affected: 14 CFR 135.143(c)(2).

Description of Relief Sought/

Disposition: To permit Century Aviation to operate certain aircraft under part 135 without a TSO-C112 (Mode S) transponder installed in the aircraft. *Grant, 06/12/2001, Exemption No. 7543.*

Docket No.: FAA-2001-9772.

Petitioner: Leading Edge Aviation Services, Inc.

Section of 14 CFR Affected: 14 CFR 135.143(c)(2).

Description of Relief Sought/

Disposition: To permit LEASI to operate certain aircraft under part 135 without a TSO-C112 (Mode S) transponder installed in the aircraft. *Grant, 06/12/2001, Exemption No. 7545.*

Docket No.: FAA-2201-9445.

Petitioner: Aurora Aviation.

Section of 14 CFR Affected: 14 CFR 135.143(c)(2).

Description of Relief Sought/

Disposition: To permit Aurora Aviation to operate certain aircraft under part 135 without a TSO-C112 (Mode S) transponder installed in the aircraft. *Grant, 06/12/2001, Exemption No. 7544.*

Docket No.: FAA-2001-9687 (previously Docket No. 30098).
