SUPPLEMENTARY INFORMATION

Title: State Small Business Stationary Source Technical and Environmental Compliance Assistance Program Annual Reporting Form, OMB Control Number 2060-0337, EPA ICR Number 1748.03, expiration date September 30, 2001. This is an extension of a currently approved collection.

Abstract: As part of the Clean Air Act Amendments of 1990, the U.S. Congress included, as part of Section 507, the requirement that each state establish a Small Business Stationary Source Technical and Environmental Compliance Assistance Program (SBTCAP) to assist small businesses in complying with the Act. EPA must provide the Congress with periodic reports from the EPA Small Business Ombudsman (SBO) on these programs, including their effectiveness, difficulties encountered, and other relevant information. Each state assistance program will submit requested information to EPA for compilation and summarization.

This collection of information is mandatory under Section 507(a), (d), and (e) of the Clean Air Act as amended in 1990, Public Law 101-549, November 15, 1990. This Act directs EPA to monitor the SBTCAPs and to provide a report to Congress. This responsibility has been delegated to the EPA SBO. Response to the collection is not required to obtain or retain a benefit. Information in the annual Report to Congress is aggregated and is not of a confidential nature. None of the information collected by this action results in or requests sensitive information of any nature from the states.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on March 27, 2001, (66 FR16671); no comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 80 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources;

complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: state, local, or tribal government.

Estimated Number of Respondents: 53.

Frequency of Response: Annual.

Estimated Total Annual Hour Burden: 2120 hours.

Estimated Total Annualized Capital, O&M Cost Burden: 0

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No 1748.03 and OMB Control No. 2060-0337 in any correspondence.

Dated: June 25, 2001.

SUPPLEMENTARY INFORMATION

Title: New Source Performance Standards (NSPS) for Sewage Treatment Plants, Subpart O (OMB Control No. 2060-0035; EPA ICR No. 1063.08) expiring June 30, 2001. This is a request for extension of a currently approved collection.

Abstract: This ICR contains recordkeeping and reporting requirements that are mandatory for compliance with 40 CFR part 60.150, *et seq.*, Subpart O, New Source Performance Standards for sewage sludge treatment plant incinerators.

The control of emissions of particulate matter from sewage treatment plant incinerators requires not only the installation of properly designed equipment, but also the operation and maintenance of that equipment. Particulate matter emissions from sewage treatment plant incinerators are the result of the physical and chemical characteristics of the sludge feed and fuel use, the excess air rate, the temperature profile within the incinerator, the pressure drop across the control device, and operating procedures. These standards rely on the reduction of particulate matter emissions by wet scrubbers.

In order to ensure compliance with these standards, adequate recordkeeping is necessary. In the absence of such information, enforcement personnel would be unable to determine whether the standards, that are protective of public health, are being met on a continuous basis, as required by the Clean Air Act.

These standards require initial notification reports with respect to construction, modification, reconstruction, startups, shutdowns, and malfunctions. The standards also require reports on initial performance tests and semiannual reports of noncompliance.

Under the standard, the data collected by the affected industry is retained at the facility for a minimum of two (2)

years and made available for inspection by the Administrator.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on September 15, 2000 (65 FR 55955); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 31 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/Operators Sewage Sludge Treatment Plants.

Estimated Number of Respondents: 154.

Frequency of Response: semi-annually.

Estimated Total Annual Hour Burden: 9,089.

Estimated Total Annualized Capital, O & M Cost Burden: \$5,845,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses.
