Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a list of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Survey of Organized Consumer Self-Help Entities—(OMB No. 0930-0214, extension)—The mutual support and self-help movement in the United States has mushroomed, and significant numbers of mental health consumer-operated businesses and services are emerging. Increasingly, these groups, organizations, and business are providing support and services to mental health consumers and family members as a complement to, or substitution for, traditional mental health services. The purposes of this project of SAMHSA's Center for Mental Health Services are to estimate the number of these mental health groups, organizations, and businesses nationwide and to describe their characteristics—structure, types of activities engaged in, approaches to well-being and recovery, resources, and linkages to other community groups, organizations, and businesses and services, such as the mental health service delivery system. The survey will gather information from a sample of approximately 3,900 mutual support groups and self-help organizations run by and for recipients of mental health services and/or their family members and consumer-operated businesses and services. Computer Assisted Telephone Interviewing (CATI) will be used to

conduct interviews with in-scope groups, organizations and businesses.

This extension will allow for completion of the survey. The total

response burden estimate is shown below.

Instrument	Number of respondents	Responses/respondent	Average burden/response (hrs.)	Total burden (hrs.)
Universe Development Contacts	2,736	1	.17	465
Screeners	3,933	1	.17	668
Questionnaire	3,933	1	.42	1,652
Total	2,785

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: Lauren Wittenberg, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.

Dated: July 2, 2001.

The Treatment Improvement Protocol (TIP) #35 Prospective Study—New—Since 1993, SAMHSA's Center for Substance Abuse Treatment has published 37 Treatment Improvement Protocols, which provide administrative and clinical practice guidance to the substance abuse treatment field. This is the third of three studies and is designed to assess readers' use of TIPs and the impact of TIPs on changing substance abuse treatment practices.

The TIP #35 Prospective Study seeks to determine the most cost effective level of support needed by substance abuse treatment providers to implement in practice the information contained in TIPs. Specifically, this study will examine the use of TIP #35, "Enhancing Motivation for Change in Substance Abuse Treatment," by treatment

professionals in four different areas of the country. The study will use a pretest/post-test experimental design in which treatment facilities will be randomly assigned to one of four conditions: (1) The control group (which will receive the TIP and no additional support); (2) a TIP-plus curriculum group; (3) a TIP-plus curriculum and training group; and (4) a TIP-plus curriculum, training, and ongoing support group.

Data will be collected at baseline and follow-up. Measures will include providers' awareness of TIP #35, their knowledge of the content contained in this TIP, their attitudes toward the TIP and its content, and their use of this TIP and its impact on practices within their facilities. Burden for State substance abuse (SSA) agency directors in the four areas of the country chosen will consist of information gathering by telephone. Burden for other respondents will consist of completing the pretest and post-test questionnaires. The total estimated burden for this project is summarized below.

Respondent	Number of respondents	Responses/respondent	Average hours/response	Total burden (hrs.)
SSA Directors	6	1	1.0	6
Pretest	577	1	.14	81
Facility Directors	577	1	.14	81
Clinical Supervisors	577	1	.14	81
