

**SUPPLEMENTARY INFORMATION:** The Environmental Assessment of this federally assisted action provides evidence that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, M. Denise Doetzer, State Conservationist, has issued a Finding of No Significant Impact and determined that the preparation and review of an Environmental Impact Statement are not needed for this project.

The project purposes are to improve water quality, improve fish and wildlife habitat, and reduce on-farm damages caused by excessive erosion and sedimentation. The planned works of improvement include the installation of 15,569 acres of conservation practices on pastureland, hayland, cropland, woodland and riparian zone land in the Little Reed Island Creek Watershed in Carroll, Pulaski, and Wythe Counties and the Town of Hillsville, Virginia. The watershed protection will be accomplished by the installation of soil and water conservation practices on private lands.

The Notice of Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single-copy requests at the above address. Basic data developed during the Environmental Assessment are on file and may be reviewed by contacting M. Denise Doetzer, State Conservationist.

No administrative action on implementation of the proposed will be taken until 30 days after the date of this publication in the **Federal Register**.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.901, Watershed and Flood Prevention, and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials.)
