

(RAF) announces the availability of a final report, *Summary Report for the Workshop on Issues Associated with Dermal Exposure and Uptake* (EPA/630/R-00/003, December 2000). The EPA Risk Assessment Forum (Forum) held a workshop on December 10 and 11, 1998, to address generic technical issues related to dermal exposure and risk assessment that were raised during the February 1998 peer review of the Superfund Dermal Guidance (SDG). Eastern Research Group, Inc., an EPA contractor, organized and convened the workshop on behalf of the Forum. The issues were organized into four categories: (1) dermal exposure to contaminants in water, (2) dermal exposure to contaminants in soil, (3) adjustment of toxicity factors to reflect absorbed dose, and (4) risk characterization and uncertainty analysis for dermal assessments. Questions within each category were presented to help structure and guide the workshop discussion. In addressing these questions, workshop participants were asked to consider: what do we know today that can be applied to answering the question or providing additional guidance on the topic; what short-term studies could be conducted to answer the question or provide additional guidance; and what longer-term research may be needed to answer the question or provide additional guidance. This report summarizes the discussions at the workshop.

ADDRESSES: The document will be made available electronically through the Risk Assessment Forum's web site (www.epa.gov/ncea/raf/rafpub.htm). A limited number of paper copies will be available from the EPA's National Service Center for Environmental Publications (NSCEP), P.O. Box 42419, Cincinnati, OH 45242; telephone: 1-800-490-9198 or 513-489-8190; facsimile: 513-489-8695. Please provide your name and mailing address and the title and EPA number of the requested publication.

FOR FURTHER INFORMATION CONTACT: Steven Knott, Risk Assessment Forum (8601D), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington DC 20460; telephone: 202-564-3359; facsimile: 202-565-0062; email: knott.steven@epa.gov.

Dated: July 19, 2001.

Art Payne,

Acting Director, National Center for Environmental Assessment.

Summary Report of the Technical Workshop on Issues Associated With Considering Developmental Changes in Behavior and Anatomy When Assessing Exposure to Children

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of a final report.

SUMMARY: The Environmental Protection Agency's (EPA) Risk Assessment Forum (RAF) announces the availability of a final report, *Summary Report of the Technical Workshop on Issues Associated with Considering Developmental Changes in Behavior and Anatomy when Assessing Exposure to Children* (EPA/630/R-00/005, December 2000). The report presents information and materials from a peer involvement workshop held by the RAF. Eastern Research Group, Inc., an EPA contractor, organized and convened the meeting on behalf of the RAF in Washington, DC on July 26 and 27, 2000. The meeting discussions focused on how to consider age-related changes in behavior and physical development when assessing childhood exposures to environmental contaminants. These discussions are part of EPA's ongoing efforts to improve the assessment of risk to children.

ADDRESSES: The document will be made available electronically through the Risk Assessment Forum's web site (www.epa.gov/ncea/raf/rafpub.htm). A limited number of paper copies will be available from the EPA's National Service Center for Environmental Publications (NSCEP), P.O. Box 42419, Cincinnati, OH 45242; telephone: 1-800-490-9198 or 513-489-8190; facsimile: 513-489-8695. Please provide your name and mailing address and the title and EPA number of the requested publication.

FOR FURTHER INFORMATION CONTACT: Steven Knott, Risk Assessment Forum (8601D), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington DC 20460; telephone: 202-564-3359; facsimile: 202-565-0062; email: knott.steven@epa.gov.

SUPPLEMENTARY INFORMATION: An Agency workgroup convened under the auspices of the RAF has been exploring children's exposure assessment issues. This workgroup has concluded that a major issue facing Agency assessors is how to consider age-related changes in behavior and physiology when

preparing exposure assessments for children. Children's behavior changes over time in ways that can have an important impact on exposure. Further, children's physiology changes over time in ways that can impact both their exposures and their susceptibility to certain health effects. There are two aspects to these physiological changes. First, there are anatomical changes resulting from physical growth. Second, there are changes in pharmacokinetics and pharmacodynamics that affect the absorption, distribution, excretion and effects of environmental contaminants. The Agency is examining the pharmacokinetic/pharmacodynamic changes in children through other efforts and future meetings on this topic are anticipated. The July 2000 workshop focused on incorporating age-related changes in behavior and anatomy into Agency exposure assessments.

Dated: July 19, 2001.

Art Payne,

Acting Director, National Center for Environmental Assessment.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7025-5]

Proposed Past Cost Administrative Settlement Under Section 122(h)(1) of the Comprehensive Environmental Response Compensation and Liability Act; In the Matter of M Metal Site, Indianapolis, Indiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: In accordance with section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given of a proposed administrative settlement for recovery of past response costs concerning the M Metal site in Indianapolis, Indiana, with Indianapolis Power & Light Company "IPL"). The settlement requires IPL to pay \$73,412.80 to the Hazardous Substance Superfund.

Under the terms of the settlement, IPL agrees to pay the settlement amount. In exchange for its payment, the United States covenants not to sue or take administrative action pursuant to section 107(a) of CERCLA, 42 U.S.C. 9607(a), to recovery costs that the

United States paid in connection with the Site through April 20, 2001. In addition, IPL is entitled to protection from contribution actions or claims as provided by sections 113(f) and 122(h)(4) of CERCLA, 42 U.S.C. 9613(f) and 9622(h)(4), for response costs incurred by any person in the Site through April 20, 2001.

For thirty (30) days after the date of publication of this notice, the Agency will receive written comments relating to the settlement. The Agency will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. The Agency's response to any comments received will be available for public inspection at EPA's Region 5 Office at 77 West Jackson Boulevard, Chicago, Illinois 60604, and at the Indianapolis Public Library in Indianapolis, Indiana.

DATES: Comments must be submitted on or before September 14, 2001.

ADDRESSES: The proposed settlement is available for public inspection at EPA's Record Center, 7th floor, 77 W. Jackson Blvd., Chicago, Illinois 60604. A copy of the proposed settlement may be obtained from Mark Geall, Associate Regional Counsel, U.S. EPA, Mail Code C-14J, 77 W. Jackson Blvd., Chicago, Illinois 60604, telephone (312) 353-9538. Comments should reference the Metal site, Indianapolis, Indiana, and EPA Docket No. V-W-01-C-649, and should be addressed to Mark Geall, Associate Regional Counsel, U.S. EPA, Mail code C-14J, 77 W. Jackson Blvd., Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Mark Geall, Associate Regional Counsel, U.S. EPA, Mail Code C-14J, 77 W. Jackson Blvd., Chicago, Illinois 60604, telephone (312) 353-9538.

Authority: The Comprehensive environmental Response, Compensation, and Liability Act of 1980, as amended, 42 U.S.C. 9601, *et seq.*

Dated: July 19, 2001.

Douglas E. Ballotti,

Acting Director, Superfund Division.

FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 98-67; DA 01-1706]

Common Carrier Bureau Seeks Comment on Requests for Waiver of Video Relay Service Requirements

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: On July 16, 2001 the Commission released a document seeking comment on waiver requests filed by Hamilton Telephone Company (Hamilton) and Sprint Communications (Sprint). Both Hamilton and Sprint requested temporary waiver of certain mandatory minimum requirements for providing Video Relay Services (VRS).

DATES: Comments due September 14, 2001. Reply comments due October 1, 2001.

ADDRESSES: Federal Communications Commission, The Portals II, 445 12th Street, SW., Suite 6A207, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Pam Slipakoff of the Common Carrier Bureau, Network Services Division: by phone at (202) 418-7705; by fax at (202) 418-2345; by TTY at (202) 418-0484 or; by email at pslipako@fcc.gov.

SUPPLEMENTARY INFORMATION: In the March 6, 2000 *Improved TRS Order*, 65 FR 38432 (June 21, 2000), the Federal Communications Commission (Commission) amended the TRS rules to expand the kinds of relay services available to consumers and to improve the quality of TRS. The order changed many of the definitions and standards for traditional TRS and added speech-to-speech (STS) and Spanish relay requirements. It also permitted recovery of the costs of both intrastate and interstate VRS through the interstate TRS fund but did not require the provision of VRS. In addition, the *Improved TRS Order* required that all relay service, whether mandatory or voluntary, funded by intrastate and interstate TRS funds must comply with the minimum service quality standards; it also modified the rules to accommodate STS and VRS services.

Hamilton's filing includes a request for clarification of the scope of the VRS rules and for a two year waiver of certain provisions contained in the *Improved TRS Order*. Specifically, Hamilton seeks clarification that VRS need not include STS or Spanish relay service under our current rules. This request will be addressed in a separate Commission level proceeding.

Hamilton's request for a temporary waiver seeks exemption of portions of section 64.604 of the Commission's rules as they apply to VRS providers. Specifically, Hamilton seeks temporary waiver of the following requirements: (1) The types of calls that must be handled; (2) emergency call handling; (3) speed of answer; (4) equal access to interexchange carriers; and (5) pay-per-call services. On June 4, 2001, Sprint filed a similar request for waiver. Sprint seeks a temporary two year waiver of the same sections identified in Hamilton's waiver request, except for section 64.604(a)(3) which pertains to the types of calls that must be handled. Sprint also seeks waiver of any Commission rules that "may require providers of VRS to ensure that users are able to utilize American Sign Language to communicate with Spanish speaking individuals."

Hamilton and Sprint's waiver requests will be available for review and copying during regular business hours at the FCC Reference Center, Portals II, 445 12th Street, SW, Room CY-A257, Washington, DC 20554, (202) 418-0270. They may also be viewed at https://hai foss.fcc.gov/cgi-bin/ws.exe/prod/ecfs/comsrch_v2.htm, by typing 98-67 in the proceeding box and 4/06/2001 and 6/04/2001, respectively in the date box. Copies of these documents may also be purchased from the Commission's copy contractor, International Transcription Service, Inc. (ITS), 1231 20th Street, NW., Washington, DC 20036, telephone 202-857-3800, facsimile 202-857-3805, TTY 202-293-8810.

Federal Communications Commission.

Dorothy Attwood,

Chief, Common Carrier Bureau.
