Background

The Las Cienegas National Conservation Area (NCA) and the Sonoita Valley Acquisition Planning District were created by act of Congress (HR 2941) on December 6, 2000. The NCA consists of 42,000 acres of federal land located in southern Pima and northeastern Santa Cruz counties, Arizona. The Sonoita Valley Acquisition Planning District includes another 7,000 acres of scattered federal lands surrounding the NCA. These federal lands are managed by the Bureau of Land Management's Tucson Field Office. The Act establishing the Las Cienegas National Conservation Area requires BLM to prepare a management plan for the NCA within 2 years of the area's designation.

The Las Cienegas NCA and Sonoita Valley Acquisition Planning District encompass much of the upper Cienega Creek watershed, which is important to Tucson for flood control and aquifer

recharge. The area also has the following attributes: five of the rarest plant communities in the American Southwest; habitat for several endangered, proposed, and candidate species; significant cultural sites including a site on the National Register of Historic Places; two proposed wild and scenic river segments; and scenic open space.
