JUL 24 2001

Dear Mr. Speaker:

Pursuant to Section 36(c) and (d) of the Arms Export Control Act, I am transmitting herewith certification of a proposed manufacturing license agreement for the export of defense articles or defense services sold commercially under a contract in the amount \$50,000,000 or more.

The transaction contained in the attached certification involves logistical support for S-61 helicopters for use by the Japanese Defense Agency for maritime patrol and antisubmarine warfare.

The United States Government is prepared to license the export of these items having taken into account political, military, economic, human rights, and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

A handwritten signature in dark ink, appearing to read "Paul V. Kelly", with a horizontal line underneath.

Paul V. Kelly  
Assistant Secretary  
Legislative Affairs

The transaction described in the attached certification involves the transfer of technical data and assistance in the manufacture of the AN/ARN-118 TACAN and related equipment for end use by the Government of Japan.

The United States Government is prepared to license the export of these items having taken into account political, military, economic, human rights, and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

Paul V. Kelly  
Assistant Secretary  
Legislative Affairs

Enclosure:

Transmittal No. 100-01

The Honorable

J. Dennis Hastert,

Speaker of the House of Representatives.

United States Department of State

Washington, D.C. 20520

AUG -2

Dear Mr. Speaker:

Pursuant to Section 36(c) of the Arms Export Control Act, I am transmitting herewith certification of a proposed license for the export of defense articles or defense services sold commercially under a contract in the amount of \$50,000,000 or more.

The transaction contained in the attached certification involves the export of technical data, defense services and defense articles for the Paveway II Airfoil Groups, associated components, and containers for end-use by the United Kingdom Ministry of Defence and Saudi Arabian Ministry of Defense and Aviation.

The United States Government is prepared to license the export of these items having taken into account political, military, economic, human rights, and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

Paul V. Kelly  
Assistant Secretary  
Legislative Affairs

Enclosure:

Transmittal No. DTC 101-01

The Honorable

J. Dennis Hastert,

Speaker of the House of Representatives.

BILLING CODE 4710-25-C

**DEPARTMENT OF STATE****[Public Notice 3757]****Bureau of Educational and Cultural Affairs Request for Grant Proposals: Language and Cultural Enhancement Program****NOTICE:** Request for Grant Proposals.

**SUMMARY:** The Office of Citizen Exchanges, Youth Programs Division of the Bureau of Educational and Cultural Affairs announces an open competition for a Language and Cultural Enhancement Program (LCE). Public and private non-profit organizations meeting the provisions described in IRS regulation 26 CFR 1.501(c) may submit proposals to conduct a four-week homestay-based, English Language and Cultural Enhancement program from mid-July to mid-August, 2002 for 50 students from the New Independent States (NIS) of the former Soviet Union selected for the Freedom Support Act (FSA) Future Leaders Exchange (FLEX) program. Approximately 15 of the participants will be students with physical disabilities who were specially recruited and selected. The remaining 35 students will be from more isolated regions of the NIS, where there is less opportunity for quality English instruction. The purpose of the program is to raise the English capability of these students to the level where they are able to attend regular classes when their academic program starts in fall. Additionally, this program will ease the acculturation process when students transit to their permanent host families and communities. Only one grant will be awarded. Funds requested for this project may not exceed \$105,000.

**Program Information Objectives**

To prepare a select group of students with special needs to attend school in the fall and perform at a level closer to that of those FSA/FLEX students who make up the majority of the program finalists. To provide students with cultural tools and strategies that will foster a successful exchange experience.

**Background**

Academic year 2002/2003 will be the tenth year of the FSA/FLEX program, which now includes over 10,000 alumni. This component of the NIS Secondary School Initiative was originally authorized under the FREEDOM Support Act of 1992 and is funded by annual allocations from the

Foreign Operations and Department of State appropriations. The goals of the program are to promote mutual understanding and foster a relationship between the people of the NIS and the U.S.; assist the successor generation of the NIS to develop the qualities it will need to lead in the transformation of those countries in the 21st century; and to promote democratic values and civic responsibility by giving NIS youth the opportunity to live in American society for an academic year.

During the program's early years, there was concern that students from the more remote regions of the NIS might be underrepresented because the lack of English competence in those regions could prevent applicants from meeting the rigorous English language requirements of the FLEX recruitment process, including attaining a reasonable score on the Pre-TOEFL proficiency examination. To address this concern, a pre-academic year English language Enhancement program was developed so that some students from the remote areas could be selected whose Pre-TOEFL scores were slightly lower than the standard required by the program. In 1996, the FLEX program added a component incorporating students with disabilities, who do have a need for some special language and cultural training before initiating their academic year program. The enhancement program for which proposals are being solicited here is in support of both groups of students.

The essential components of the enhancement program are:

- A four-week course of study in English, approximately 5.5 hours a day, to build on the language skills that the students already have and focusing primarily on conversation and comprehension.
- Programming that builds on cultural issues that will have been introduced at the pre-departure orientation for all FSA FLEX students.
- Orientation programming that addresses the special needs of the students with disabilities and their unique adjustment issues.
- Developing independence skills for disabled students, specifically blind students who may need English Braille training as well as assistance in specific techniques, e.g., using a cane.
- Accommodation with volunteer host families for the period of the workshop.
- Preparing the students for the transition to their permanent host families and communities.

**Other Components**

Two organizations have already been awarded grants to perform the following functions: recruitment and selection of all FLEX students; preparation of cross-cultural materials; pre-departure orientation; international travel from home to host community and return; facilitation of ongoing communication between the natural parents and placement organizations, as needed; maintenance of a student database and provision of data to Department of State; and ongoing follow-up with alumni upon their return to the NIS.

Additionally, "placement organizations" will, through a grants competition, place the 2002-2003 FSA FLEX students in schools and homestays for the academic year, to monitor their progress, and to conduct program-related cultural enrichment activities. The organization selected for the Language and Cultural Enhancement Program will be asked to interact with the placement organizations to ensure the students' smooth transition from this pre-academic training to their permanent placements.

**Guidelines**

Applicants should consult the Project Objectives Goals and Implementation (POGI) guidelines for a detailed statement of work. Ideally, the program should take place from mid-July to mid-August, 2002. The venue for the program should be one with minor distractions to enable students to focus on the coursework and experience life in a typical American family and community. It should be conducive to a smooth transition to the students' permanent placements. Whenever possible, the coursework should provide opportunities for students to view situations in the context of the host family and community to which they'll be going, rather than the LCE host family with whom they are staying only for the duration of this special program. The region in which the LCE program is taking place should also have resources that can be drawn upon for cultural enrichment. Students with disabilities will need to be carefully assessed by someone with expertise in working with persons with disabilities. This individual(s) should also provide support and serve as a resource on disabilities for the LCE teachers, as well as the students, during the duration of the program. At all times, reasonable accommodations must be provided, as needed, for all participants with disabilities. FLEX participants travel on J-1 visas issued by the Department of State using a government program
