

certain non-recurring subsidies which have not been previously allocated.

Final Results of Review

In accordance with section 351.221(b)(4)(i) of the Department's regulations, we calculated an individual subsidy rate for ALZ, the only producer/exporter subject to this administrative review. For the period September 4, 1998 through December 31, 1998, we determine the net subsidy rate for ALZ to be 3.25 percent; for January 1, 1999 and for the period May 11, 1999 through December 31, 1999, we determine the net subsidy rate for ALZ to be 1.78 percent. (In accordance with section 703(d) of the Act, countervailing duties will not be assessed on entries made during the period January 2, 1999 through May 10, 1999.)

We will instruct the Customs to assess countervailing duties as indicated above. The Department will also instruct Customs to collect cash deposits of estimated countervailing duties at the 1999 rate on the f.o.b. value of all shipments of the subject merchandise from ALZ entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review.

Because the URAA replaced the general rule in favor of a country-wide rate with a general rule in favor of individual rates for investigated and reviewed companies, the procedures for establishing countervailing duty rates, including those for non-reviewed companies, are now essentially the same as those in antidumping cases, except as provided for in section 777A(e)(2)(B) of the Act. The requested review will normally cover only those companies specifically named. See section 351.213(b) of the Department's regulations. Pursuant to the Department's regulations at section 351.212(c), for all companies for which a review was not requested, duties must be assessed at the cash deposit rate, and cash deposits must continue to be collected, at the rate previously ordered. As such, the countervailing duty cash deposit rate applicable to a company can no longer change, except pursuant to a request for a review of that company. See *Federal-Mogul Corporation v. United States*, 822 F.Supp. 782 (CIT 1993), and *Floral Trade Council v. United States*, 822 F.Supp. 766 (CIT 1993). Therefore, the cash deposit rates for all companies, except those covered by this review, are not changed by the results of this review.

Therefore, we will instruct Customs to continue to collect cash deposits for

non-reviewed companies at the most recent company-specific or country-wide rate applicable to that company. Accordingly, the cash deposit rates that will be applied to non-reviewed companies covered by this order are those established in the most recently completed administrative proceeding conducted under the URAA. If such a review has not been conducted, the rate established in the most recently completed administrative proceeding pursuant to the statutory provisions that were in effect prior to the URAA amendments is applicable. See *Certain Cut-to-Length Carbon Steel Plate from Mexico: Final Results of Countervailing Duty Administrative Review*, 65 FR 13368, 13369 (March 13, 2000). These rates shall apply to all non-reviewed companies until a review of a company assigned these rates is requested. In addition, for the periods September 4, 1998 through January 1, 1999 and May 11, 2000 through December 31, 1999, the assessment rates applicable to all non-reviewed companies covered by this order are the cash deposit rates in effect at the time of entry.

This notice serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with the Department's regulations at section 351.305(a). Timely written notification of return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with sections 751(a)(1) and 777(i)(1) of the Act (19 U.S.C. 1675(a)(1) and 19 U.S.C. 1677f(i)(1)).

SUPPLEMENTARY INFORMATION:

I. Abstract

Executive Order 13158 directs the Department of Commerce and the Department of the Interior to work with partners to strengthen the protection of U.S. ocean and coastal resources by developing a national system of marine protected areas. The Departments of Commerce and the Interior plan to work closely with state, territorial, local, and tribal governments, as well as other stakeholders, to identify and inventory the Nation's existing marine protected areas. Toward this end, the National Oceanic and Atmospheric Administration (NOAA) and the Department of the Interior (DOI) have created a dataform to be used as a survey tool to collect and analyze information on these existing sites. This survey will allow NOAA and DOI to better understand the existing protections for marine resources within marine protected areas in the United States. This information would also support activities on marine protected areas by state and local governments, tribes, and other interested parties.

II. Method of Collection

NOAA and DOI propose to use a dataform as a survey tool to collect comprehensive information about state, local, and tribal marine managed areas. The survey tool is already being used to collect information about existing Federal sites. The collected information will be used to inventory the existing marine protected areas in the United States and its territories and to support the development of a nationwide network that will aid in the management and conservation of our Nation's marine resources.

The survey contains directed questions regarding the location, management and enforcement authorities, types of protections and restrictions, and the length of time those protections or restrictions are in place for each marine protected area. Basic information about the resources and activities at the sites will also be collected. It is expected that site managers from each marine protected area will fill out the survey. The collected information will be housed in a searchable database that will be made available to the public via the marine protected area website at mpa.gov.

The survey tool will be available in several formats to accommodate user needs. The primary collection tool will
