SUPPLEMENTARY INFORMATION:

History

In 1999, the FAA established an Aviation Weather Technology Transfer (AWTT) Board to manage the orderly transfer of weather capabilities and products from research and development into operations. The Director of the Aerospace Weather Policy and Standards Staff, ARS-20, chairs the AWTT Board. The Board is composed of stakeholders in Air Traffic Services, ATS; Regulation and Certification, AVR; and Research and Acquisitions, ARA in the Federal Aviation Administration and the Office of Meteorology in the National Weather Service.

The AWTT Board will meet semi-annually or as needed, to determine the readiness of weather research and development (R&D) products for experimental use, full operational use for meteorologists or full operational use for end users. The Board's determinations will be based upon criteria in the following areas: users needs; benefits; costs; risks; technical readiness; operational readiness and budget requirements.

The user interface process is designed to allow FAA to both report progress and receive feedback from industry users. Each AWTT Board meeting will be preceded by a half-day industry review session approximately one month prior to each Board meeting. These industry review sessions will be announced in the **Federal Register** and open to all interested parties.

This meeting is the second industry review session and is intended to receive feedback on weather R&D products that will be presented for consideration at the November 2001 AWTT Board meeting. The products to be considered are the Integrated Icing Diagnosis Algorithm (IIDA) and the Integrated Icing Forecast Algorithm k(IIFA).

Meeting Procedures

(a) The meeting will be informal in nature and will be conducted by representatives of the FAA Headquarters.

Background

In the ADRA of 1996, Congress authorizes federal agencies to utilize binding arbitration to resolve administrative disputes, provided that conditions specified in the ADRA are satisfied. Among other things, the ADRA requires that interested agencies develop and issue guidance on the appropriate use of arbitration. In accordance with Section 575 of the ADRA, the FAA Guidance for use of binding arbitration to resolve government contract disputes was developed in consultation with the Attorney General. The FAA has been informed by the Department of Justice that the Attorney General concurs in the Guidance.

The Guidance satisfies the requirements regarding binding arbitration specified by the ADRA of 1996; and addresses use of binding arbitration in a manner consistent with the FAA dispute resolution process and the ODRA's procedural rules, 14 CFR 17.

Issued in Washington, DC, on August 22, 2001.

David G. Leitch,
Chief Counsel.
