**ACTION:** Scheduling of the final phase of countervailing duty and antidumping investigations.

**SUMMARY:** The Commission hereby gives notice of the scheduling of the final phase of countervailing duty investigations Nos. 701–TA–409–412 (Final) under section 705(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b)) (the Act) and the final phase of antidumping investigations Nos. 731–TA–909–912 (Final) under section 735(b) of the Act (19 U.S.C. 1673d(b)) to determine whether an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of subsidized and less-than-fairvalue imports from France, Germany, the Netherlands, and the United Kingdom of low enriched uranium.<sup>1</sup>

Certain merchandise is outside the scope of these investigations. Specifically, these investigations do not cover enriched uranium hexafluoride with a U<sup>235</sup> assay of 20 percent or greater, also known as highly enriched uranium. In addition, fabricated LEU is not covered by the scope of these investigations. For purposes of these investigations, fabricated uranium is defined as enriched uranium dioxide (UO<sub>2</sub>), whether or not contained in nuclear fuel rods or assemblies. Natural uranium concentrates  $(U_3O_8)$  with a  $U^{235}$  concentration of no greater than 0.711 percent and natural uranium concentrates converted into uranium hexafluoride with a  $U^{235}$  concentration of no greater than 0.711 percent are not covered by the scope of these investigations.

The merchandise subject to these investigations is reported under Harmonized Tariff Schedule of the United States (HTSUS) statistical reporting For further information concerning the conduct of this phase of the investigations, hearing procedures, and rules of general application, consult the Commission's rules of practice and procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

## SUPPLEMENTARY INFORMATION:

Background.—Following receipt of a request from the United States Trade Representative on June 22, 2001, the Commission instituted investigation No. TA-201-73 to determine whether certain steel products <sup>1</sup> are being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing an article like or directly competitive with the imported article.<sup>2</sup>

*Hearings.*—As noted in its notice of institution (July 3, 2001, 66 FR 35, 267), the Commission will hold hearings in connection with this investigation beginning the week of September 17, 2001, at the U.S. International Trade Commission Building. The Commission intends to publish a notice by September 5, 2001, announcing the schedule of the Washington, DC hearings. In addition, the Commission has determined that it will hold an additional hearing on October 5, 2001, at the Radisson Hotel at Star Plaza (800 East 81st Avenue, Merrillville, Indiana 46410), beginning at 9:00 a.m. Requests to appear at this additional hearing and the names of witnesses should be filed in writing with the Secretary to the Commission, 500 E Street, SW., Washington, DC 20436, no later than 5:15 p.m., September 21, 2001. If statements are submitted at the hearing, please provide at least 50 copies.

The purpose of the October 5th hearing is to receive testimony directly from persons who did not participate in the Washington, DC hearings and who have first-hand knowledge of certain issues as set forth below. The Commission requests that witnesses direct their presentations to the following issues: (1) The state of the domestic steel industry or industries (e.g., employment levels, including unemployment or underemployment; worker training; level of commercial activity at productive facilities); (2) the influence of imports or other factors on the state of the domestic steel industry or industries; (3) the conditions of competition (e.g., the business cycle, domestic demand); and (4) the similarities and differences between and among specific steel products with regard to physical characteristics, uses, manufacturing process, channels of distribution, and substitutability. Requests to appear at the hearing should identify the above-listed categories and the products to be addressed and the amount of time requested. After
