address. Projects must fall within one of the below environmental statutes:

a. Clean Water Act, Section 104(b)(3): conduct and promote research investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution.

b. Safe Drinking Water Act, Section 1442(b)(3): develop, expand, or carry out a program (that may combine training, education, and employment) for occupations relating to the public health aspects of providing safe

drinking water.

c. Solid Waste Disposal Act, Section 8001(a): conduct and promote the coordination of research, investigations, experiments, training, demonstrations, surveys, public education programs and studies relating to solid waste.

- d. Clean Air Act, Section 103(b)(3): conduct and promote the coordination and acceleration of research, investigations, experiments, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, and control of air pollution.
- e. Toxic Substances Control Act, Section 10(a): conduct research, development of monitoring activities on toxic substances.
- f. Comprehensive Environmental Response Compensation and Liability Act, Section 311(a): conduct basic research and training related to the detection, assessment, and evaluation of the risks and human effects of exposure to hazardous substances.

## **Applications**

The original and one (1) copy of the project proposal must be sent to the regional contact listed below for the state in which the project will take place. Proposals are limited to one (1) cover page and a five (5) page, double spaced narrative of the proposed project. Proposals must include the following:

(1) Cover Sheet (not to exceed one page) that must include:

(a) Project title;

- (b) Applicant's name, address, phone number and organization type (i.e., community college, nongovernment organization, tribe);
  - (c) A list identifying project staff;
- (d) A list of entities or organizations that will be providing matching funds to the project and their organization type; and
- (e) Environmental statute that the project will address (see Eligibility above).
- (2) Narrative (not to exceed five pages, double spaced) that must include:

- (a) Project goals;
- (b) Workplan;
- (c) Proposed schedule for the workplan;
- (d) Anticipated results, measures of success, and "where possible—anticipated environmental improvements as a direct result of project implementation;
- (e) Budget (i.e., salaries, supplies, travel, consultants, other direct costs, and overhead); and
  - (f) Plan for evaluating the success of

the project.

The proposal must also include letters of commitment from all contributing partners matching funds to the project. These letters must specify the nature of the match (whether it is in-kind services or cash) and the estimated dollar value of the match. These attachments will not be counted in the five (5) page narrative limit. Any other attachments or enclosures will not be considered as part of the proposal.

# **Final Report**

Upon completion of the project, one (1) final report will be required which includes the following information: (a) description of project results, including an evaluation of overall project performance and any environmental improvements directly resulting from project implementation, and (b) financial report. Grants are subject to audit.

# Criteria

EPA will use the following evaluation criteria in reviewing proposals:

- The application presents a clear description of a U.S.-Mexico border transboundary issue or concern (20 points):
- The application identifies realistic goals in addressing objectives and priorities as outlined in the U.S.-Mexico Border XXI Program Framework Document and/or annual Implementation Plans (20 points):
- The proposed project focuses on sustainable development, practices and improvements in the following areas: environmental health, risk reduction, hazardous and solid waste reduction, recycling, and water conservation at the local and/or regional level, defined above (20 points);
- The proposal outlines how the applicant will measure improvements in one or more of the above mentioned areas resulting from implementation of the project (15 points);
- The application involves a number and variety of bi-national and U.S.-Mexico border collaborators (i.e., community, nongovernment organizations, Indian tribes, local and

regional governments, schools, and universities) (15 points);

 Project funding will be utilized as seed money, supporting innovative projects that would empower communities to take an integral role in protecting their environment (10 points).

No awards will be granted for the purchase of equipment for projects or for maintaining existing equipment.

# **Diazinon; Products Cancellation Order**

**AGENCY:** Environmental Protection Agency (EPA). **ACTION:** Notice.

**SUMMARY:** This notice announces EPA's cancellation order for the product and use cancellations as requested by several companies (Prentiss Inc., Unicorn Laboratories, Micro Flo Company, Agriliance, Diall Chemical Company, Nu-Method Pest Control Products, Lilly Miller Brands and Virbac Corporation, hereafter collectively referred to as the "EUP Registrants") that hold the registrations of pesticide End-Use Products (EUPs) containing the active ingredient diazinon and accepted by EPA, pursuant to section 6(f) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This order follows up an August 1, 2001, notice of receipt from the companies listed above, of requests for cancellations and or amendments of their diazinon product registrations to terminate all indoor uses, certain agricultural uses and certain outdoor non-agricultural uses. In the August 1, 2001 notice, EPA indicated that it would issue an order granting the voluntary product and use registration cancellations unless the Agency received any substantive comment within the comment period that would merit its further review of these requests. The Agency did not receive any comments that affected the Agency's intention to grant the EUP registrants' request to cancel product and use registrations. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is only permitted in accordance with the terms

of the existing stocks provisions of this cancellation order.

**DATES:** The cancellations are effective September 20, 2001.

### SUPPLEMENTARY INFORMATION:

### I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. You may be potentially affected by this action if you manufacture, sell, distribute, or use diazinon products. The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, does not apply because this action is not a rule, for purposes of 5 U.S.C. 804(3). Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under FOR FURTHER INFORMATION CONTACT.

- B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?
- 1. *Electronically*. You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet homepage at http:// www.epa.gov/. To access this document, on the homepage select "Laws and Regulations," "Regulations and Proposed Rules," and then look up the entry for this document under the "Federal Register — Environmental Documents." You can also go directly to the **Federal Register** listings at http:// www.epa.gov/fedrgstr/. To access information about the risk assessment for diazinon, go to the homepage for the Office of Pesticide Programs or go directly to http://www.epa.gov/ pesticides/op/diazinon.htm.

2. In person. The Agency has established an official record for this action under docket control number OPP 34225H. The official record consists of the documents specifically referenced in this action, any public comments received during an applicable comment period, and other information related to this action, including any information claimed as Confidential Business Information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period, is available for inspection in the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. # II. Receipt of Requests to Cancel and Amend Registrations to Delete Uses

# A. Background

In letters dated April 25 and May 29, 2001, from Prentiss Inc.; May 29, 2001, from Unicorn Laboratories; May 30, 2001, from Micro Flo Company; May 31, 2001, from Agriliance; June 1, 2001, from Micro Flo Company; and June 1, 2001, from Diall Chemical Company, Inc., these registrants of pesticide products containing diazinon requested that the registrations of their diazinon products be amended to terminate all indoor uses, certain agricultural uses, and any other uses that the registrants do not wish to maintain. The requests also included deletions of outdoor nonagricultural uses from the labeling of certain end-use products so that such products would be labeled for agricultural uses only. Similarly, in letters dated May 21, 2001 from Nu-Method Pest Control Products; May 22, 2001 from Lilly Miller Brands; and May 23, 2001 from Virbac Corporation, these three registrants requested voluntary cancellation of the registrations for their diazinon end-use products that bear directions for indoor use and/or certain outdoor non-agricultural uses, and any other uses that the registrants do not

wish to maintain. EPA announced its receipt of these above-mentioned cancellation requests in a **Federal Register** notice dated August 1, 2001.

These requested cancellations and amendments are consistent with the requests in December 2000 by the manufacturers of diazinon technical products, and EPA's approval of such requests, to terminate all indoor uses and certain agricultural uses from their diazinon product registrations, because of EPA's concern with the potential exposure risk, especially to children, associated with diazinon containing products. The indoor uses and agricultural uses subject to cancellation are identified in the following List.

List — Uses Requested for Termination

- 1. Indoor uses: Pet collars, or inside any structure or vehicle, vessel, or aircraft or any enclosed area, and/or on any contents therein (except mushroom houses), including food/feed handling establishments, greenhouses, schools, residences, museums, sports facilities, stores, warehouses and hospitals.
- 2. Agricultural uses: Alfalfa, bananas, Bermuda grass, dried beans, dried peas, celery, red chicory (radicchio), citrus, clover, coffee, cotton, cowpeas, cucumbers, dandelions, forestry (ground squirrel/rodent burrow dust stations for public health use), kiwi, lespedeza, parsley, parsnips, pastures, peppers, potatoes (Irish and sweet), sheep, sorghum, squash (winter and summer), rangeland, Swiss chard, tobacco, and turnips.

In today's Cancellation Order, EPA is approving the registrants' requested cancellations and amendments of the their diazinon end-use products registrations to terminate all uses identified in the List.

B. Requests for Voluntary Cancellation of End-Use Products

Nu-Method Pest Control Products, Lilly Miller Brands and Virbac Corporation, have submitted requests for voluntary cancellation of some of its registrations for end-use pesticide products containing diazinon. The enduse product registrations for which cancellation was requested are identified in the following Table 1. None of the products listed in Table 1 are registered for use on agricultural crops.

Company	Reg. No.	Product

TABLE 1. — END-USE PRODUCT REGISTRATION CANCELLATION REQUESTS

EPA did not receive any comments expressing a need of diazinon products for indoor use nor any comments relative to the proposed cancellation of the products listed in Table 1. Accordingly, the Agency is issuing an order in this notice canceling the registrations identified in Table 1, as requested by Lilly Miller Brands, Virbac

Corporation, and Nu-Method Pest Control Products, Inc.

C. Requests for Voluntary Amendments of End-Use Product Registrations to Terminate Certain Uses

Pursuant to section 6(f)(1)(A) of FIFRA, the EUP Registrants submitted requests to amend a number of their diazinon end-use product registrations to terminate the uses identified in the List, or any other uses as specified for each product in the August 1, 2001 Diazinon 6(f) notice and reiterated in Table 2 below. The registrations for which amendments to terminate specific uses were requested are identified in the following Table 2:

TABLE 2. — END-USE PRODUCT REGISTRATIONS REQUESTS FOR AMENDMENTS TO TERMINATE USES—Continued

### III. Cancellation Order

Pursuant to section 6(f) of FIFRA, EPA hereby approves the requested diazinon product registration cancellations and amendments to terminate all indoor uses and certain agricultural uses, as identified in the List, and all other uses (including specific outdoor nonagricultural uses) identified for deletion in the August 1 Diazinon 6(f) notice. Accordingly, the Agency orders that the diazinon end-use product registrations identified in Table 1 are hereby canceled. The Agency also orders that all of the uses identified in the List, and all other uses (including specific outdoor non-agricultural uses) identified for deletion in Table 2 are hereby canceled from the end-use product registrations identified in Table 2. Any distribution, sale, or use of existing stocks of the products identified in Tables 1 and 2 in a manner inconsistent with the terms of this Order or the Existing Stock Provisions in Unit IV of this notice will be considered a violation of section 12(a)(2)(K) of FIFRA and/or section 12(a)(1)(A) of FIFRA.

# IV. Existing Stocks Provisions

For purposes of this Order, the term "existing stocks" is defined, pursuant to EPA's existing stocks policy (56 FR 29362, June 26, 1991), as those stocks of a registered pesticide product which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the amendment or cancellation. The existing stocks provisions of this Cancellation Order are as follows:

1. Distribution or sale of products bearing instructions for use on agricultural crops. The distribution or sale of existing stocks by the registrant of any product listed in Table 2 that bears instructions for use on the agricultural crops identified in the List will not be lawful under FIFRA 1 year

after the effective date of the cancellation order, except for the purposes of shipping such stocks for export consistent with section 17 of FIFRA or for proper disposal. Persons other than the registrant may continue to sell or distribute the existing stocks of any product listed in Table 2 that bears instructions for any of the agricultural uses identified in the List after the effective date of the cancellation order.

2. Distribution or sale of products bearing instructions for use on outdoor non-agricultural sites. The distribution or sale of existing stocks by the registrant of any product listed in Table 1 or 2 that bears instructions for use on outdoor non-agricultural sites will not be lawful under FIFRA 1 year after the effective date of the cancellation order, except for the purposes of shipping such stocks for export consistent with section 17 of FIFRA or for proper disposal. Persons other than the registrant may continue to sell or distribute the existing stocks of any product listed in Table 1 or 2 that bears instructions for use on outdoor non-agricultural sites after the effective date of the cancellation order.

3. Distribution or sale of products bearing instructions for use on indoor sites. The distribution or sale of existing stocks by the registrant of any product listed in Table 1 or 2 that bears instructions for use at or on any indoor sites (except mushroom houses), shall not be lawful under FIFRA as of the effective date of the cancellation order, except for the purposes of shipping such stocks for export consistent with section 17 of FIFRA or for proper disposal.

4. Retail and other distribution or sale of existing stock of products for indoor use. The retail sale of existing stocks by any person other than the registrants of products listed in Table 1 or 2 bearing instructions for any indoor uses except mushroom houses will not be lawful under FIFRA after December 31, 2002,

except for the purposes of shipping such stocks for export consistent with section 17 of FIFRA or for proper disposal.

5. Use of existing stocks. EPA intends to permit the use of existing stocks of products listed in Table 1 or 2 until such stocks are exhausted, provided such use is in accordance with the existing labeling of that product.

Fenamiphos and Metolachlor, Receipt of Requests for Voluntary Cancellation of Uses

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests from the registrants Bayer Corporation and Syngenta Crop Protection, Inc. to amend their registrations to delete some uses for the products containing fenamiphos, ethyl 3-methyl-4-(methylthio)phenyl (1-methylethyl) phosphoramidate) and metolachlor, (2-chloro-*N*-(2-ethyl-6-methylphenyl)-*N*-(2-methoxy-1-methylethyl) acetamide), respectively.
