ADMINISTRATION****41 CFR Parts 102–117 and 102–118****[FMR Amendment D–1]****RIN 3090–AH43****Transportation Management and
Transportation Payment and Audit****AGENCY:** Office of Governmentwide Policy, GSA.**ACTION:** Final rule.

SUMMARY: The General Services Administration (GSA) is extending the retirement date of Optional Forms 1103, U.S. Government Bill of Lading (GBL), and 1203, U.S. Government Bill of Lading—Privately Owned Personal Property (PPGBL), until March 31, 2002. A GSA review indicated that instead of transitioning to standard business practices, agencies were creating a new form to replace the GBL. Extending the retirement date for six months will give agencies more time to enhance electronic transportation systems currently in place and transition to the use commercial practices.

DATES: Effective September 21, 2001.

SUPPLEMENTARY INFORMATION:**A. Background**

GSA published Federal Management Regulation (FMR) part 102–117 (41 CFR part 102–117), Transportation Management in the **Federal Register** on October 6, 2000 (65 FR 60059), and FMR part 102–118 (41 CFR part 102–118), Transportation Payment and Audit, in the **Federal Register** on April 26, 2000 (65 FR 24568). These final rules provided for the retirement of Optional Forms 1103 and 1203, the BGL and PPGBL, respectfully for domestic use.

B. Substantive Changes

This rule extends the retirement date for Optional Forms 1103 and 1203, to March 31, 2002. Although both the GBL and the PPGBL are being retired for domestic shipments, both forms will remain available for international and domestic overseas shipments.

The government will need to transmit some type of shipping order to the transportation service provider (TSP), but not a bill of lading. The transmittal (preferably electronic) must include all

information necessary for booking a shipment. In practicality these actions eliminate two government forms and transition agencies to the use of standard industry practice and electronic commerce.

C. Executive Order 12866

GSA has determined that this rule is not a significant regulatory action for the purposes of Executive Order 12866 of September 30, 1993.

D. Regulatory Flexibility Act

This rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule only applies to internal agency management and will not have a significant effect on the public.

E. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because this rule does not impose recordkeeping or information collection requirements, or the collection of information from contractors, or members of the public which require the approval of the Office of Management and Budget (OMB) under 44 U.S.C. 501–517.

**F. Small Business Regulatory
Enforcement Fairness Act**

This rule is exempt from Congressional review under 5 U.S.C. 901 since it relates solely to agency management and personnel.

**Atlantic Highly Migratory Species;
Longline Fisheries**

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Revision to an emergency rule; request for comments.

SUMMARY: NMFS revises the emergency regulations governing the Atlantic highly migratory species (HMS) fisheries that require all vessels issued an Atlantic HMS permit to post in their wheelhouses NMFS-supplied sea turtle handling and release guidelines for pelagic longline gear to require that only such vessels fishing for Atlantic HMS that have pelagic or bottom longline gear on board post the guidelines. This revision is needed to make the regulations consistent with an August 31, 2001 revision to a term and condition of the reasonable and prudent measure identified in the incidental take statement accompanying the June 14, 2001 Biological Opinion on the Atlantic HMS Fishery Management Plan and its associated fisheries. The intent of this revision is to remove the requirement that non-longline vessels post sea turtle handling and release guidelines that are specific to longline gear.

DATES: Effective September 15, 2001, through January 9, 2002. Comments must be received by November 8, 2001.

ADDRESSES: Written comments may be sent to Christopher Rogers, Acting Chief, NMFS Highly Migratory Species Management Division, 1315 East-West Highway, Silver Spring, MD 20910; or faxed to 301-713-1917. Comments will not be accepted if submitted via e-mail or the Internet. Copies of the Biological Opinion that requires this action may also be obtained from this address.

FOR FURTHER INFORMATION CONTACT: Tyson Kade or Karyl Brewster-Geisz at 301-713-2347 or via fax at 301-713-1917.

SUPPLEMENTARY INFORMATION: On June 8, 2001, (revised June 14, 2001) NMFS published a Biological Opinion (BiOp) that found that the Atlantic pelagic longline fishery is jeopardizing the continued existence of loggerhead and leatherback sea turtles. The BiOp estimated that a 55-percent reduction in bycatch mortality from the pelagic longline fishery is necessary to allow for the recovery of these two species. To achieve the necessary reduction, the BiOp required the implementation of a reasonable and prudent alternative that was composed of several elements. On July 13, 2001, NMFS issued an emergency rule (66 FR 36711) that closed the northeast distant statistical reporting area, required specific gear deployment modifications, and required that the safe handling and release guidelines for sea turtles caught in pelagic longline gear be posted aboard all vessels permitted for HMS fisheries. The emergency rule is effective until January 9, 2002.

On August 31, 2001, the June 14, 2001 BiOp was further revised with respect to a term and condition of the reasonable and prudent measure identified in the accompanying incidental take statement to limit the requirement to post the sea turtle handling and release guidelines to vessels using longline gear. The safe handling guidelines are specific to longline interactions and would not be applicable to vessels using other gear such as seines or gillnets. The costs to the government of printing and distributing guidelines to non-longline HMS vessels, and the burden on such vessels of posting those guidelines is not justified. Accordingly, NMFS is revising the regulation to apply only to permitted vessels having pelagic and bottom longline on board.

Classification

The Assistant Administrator for Fisheries (AA), under 5 U.S.C. 553(b)(3), finds that providing prior notice and opportunity for public comment on this revision would be contrary to the public interest. Without this revision, HMS

vessels that do not display the sea turtle safe handling and release guidelines would be in violation of the regulations. While NMFS has supplied sea turtle safe handling and release guidelines to all longline vessels, NMFS has not supplied, and does not intend to supply, the guidelines to non-longline vessels. In order that non-longline vessels not be in technical violation, it is necessary to make this revision without prior notice and an opportunity for public comment. Because this rule relieves a restriction, under 5 U.S.C. 553(d)(1) it is not subject to a 30-day delay in effective date. The requirement for longline vessels to post the guidelines remains effective from September 15, 2001 through January 9, 2002.

Because prior notice and opportunity for public comment are not required for this final rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., are inapplicable.

This action is not significant under the meaning of Executive Order 12866.
