Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; VOC and NO_x RACT Determinations for Eight Individual Sources Located in the Pittsburgh-Beaver Valley Area; Withdrawal of Direct Final Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of direct final rule.

SUMMARY: Due to receipt of a letter of adverse comment, EPA is withdrawing the direct final rule to approve revisions which establish reasonably available control technology (RACT) requirements for eight major sources of volatile organic compounds (VOC) and nitrogen oxides (NO_x) located in the Pittsburgh-Beaver Valley ozone nonattainment area. In the direct final rule published on August 21, 2001 (66 FR 43783), EPA stated that if it received adverse comment by September 20, 2001, the rule would be withdrawn and not take effect. EPA subsequently received adverse comments from the Citizens for Pennsylvania's Future (PennFuture). EPA will address the comments received in a subsequent final action based upon the proposed action also published on August 21, 2001 (66 FR 43822). EPA will not institute a second comment period on this action.

DATE: The Direct final rule is withdrawn as of September 27, 2001.

FOR FURTHER INFORMATION CONTACT: Harold A. Frankford at (215) 814-2108.

Approval and Promulgation of Implementation Plans: Texas State Implementation Plan—Transportation Control Measures Rule; Removal of Direct Final Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Removal of amendments in direct final rule.

SUMMARY: Due to an adverse comment, EPA is removing the direct final rule to approve Texas Transportation Control Measures rule. In the direct final rule published on July 16, 2001 (66 FR 36921), we stated that if we received adverse comment by August 15, 2001, the rule would be withdrawn and would not take effect. EPA subsequently received an adverse comment, but did not publish the withdrawal notice prior to the effective date of the rule. In this action, EPA is removing the amendments published on July 16. EPA will address the comments received in a subsequent final action based upon the proposed action also published on July 16, 2001 (66 FR 36963). EPA will not institute a second comment period on this action.

EFFECTIVE DATE: This rule is effective as of September 27, 2001.

FOR FURTHER INFORMATION CONTACT: Mr. J. Behnam, P. E.; Air Planning Section (6PDL), Multimedia Planning and Permitting Division, Environmental Protection Agency, Region 6, 1445 Ross Avenue, Dallas, Texas 75202, Telephone (214) 665-7247.

Environmental protection, Air pollution control, Air quality-transportation planning, Carbon monoxide, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Nitrogen oxides, Ozone, Particulate matter, Reporting and recordkeeping requirements, Transportation control measures, Volatile organic compounds.

Dated: September 6, 2001.

Lynda F. Carroll,

Acting Regional Administrator, Region 6.

Part 52, chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart SS—Texas

2. In § 52.2270 the table in paragraph (c) is amended under Chapter 114 as follows:

(a) by removing Section 114.5, Transportation Planning Definition, under Subchapter A; and

(b) by removing Section 114.270, Transportation Control Measures, under Subchapter G.

3. In § 52.2270 the table in paragraph (e) is amended by removing "Transportation Control Measures SIP Revision", in the table entitled "EPA Approved Nonregulatory Provisions and Quasi-Regulatory Measures in the Texas SIP."

Revisions to the Arizona State Implementation Plan, Pinal County Air Quality Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is finalizing approval of a revision to the Pinal County Air Quality Control District (PCAQCD) portion of the Arizona State Implementation Plan (SIP). This revision was proposed in the **Federal Register** on July 17, 2001 and concerns volatile organic compound (VOC) emissions from organic solvents, dry cleaners, coating operations, and degreasers. We are approving the removal of a local rule that regulates these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

EFFECTIVE DATE: This rule is effective on October 29, 2001.

ADDRESSES: You can inspect copies of the administrative record for this action

at EPA's Region IX office during normal business hours. You can inspect copies of the submitted SIP revision at the following locations:

4), U.S. Environmental Protection
Agency, Region IX, (415) 744-1199.

SUPPLEMENTARY INFORMATION:

Throughout this document, "we," "us" and "our" refer to EPA.

I. Proposed Action

On July 17, 2001 (66 FR 37204), EPA proposed to approve the removal of the following rule from the Arizona SIP.

Local agency	Rule #	Rule title	Adopted	Submitted
PCAQCD	7-3-3.4	Organic Solvents (rescission)	10/12/95	11/27/95

We proposed to approve the rescission of this rule because we determined that it was consistent with the relevant policy and guidance regarding enforceability, RACT, and SIP relaxations. Our proposed action contains more information on the rule and our evaluation.

II. Public Comments and EPA Responses

EPA's proposed action provided a 30-day public comment period. During this period, we did not receive any comments.

III. EPA Action

Our assessment that the submitted rule rescission complies with the relevant CAA requirements has not changed. Therefore, as authorized in section 110(k)(3) of the Act, EPA is fully approving the removal of this rule from the Arizona SIP.

IV. Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 32111, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001). This action merely approves state law as meeting federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the

Unfunded Mandates Reform Act of 1995 (Public Law 104-4). This rule also does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely approves a state rule implementing a federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. This rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied

with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. section 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. section 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 26, 2001. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

[CA242–0294; FRL–7066–8]

Revisions to the California State Implementation Plan, Imperial County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is finalizing a disapproval of revisions to the Imperial County Air Pollution Control District's (ICAPCD) portion of the California State Implementation Plan (SIP). These revisions concern visible emissions (VE) from different sources of air pollution. We are taking final action on Rule 401—Opacity of Emissions, a local rule regulating these different emission sources. Under authority of the Clean Air Act as amended in 1990 (CAA or the

Act) Act, our action maintains the existing version of this rule within the SIP.

EFFECTIVE DATE: This rule is effective on October 29, 2001.

ADDRESSES: You can inspect copies of the administrative record for this action at EPA's Region IX office during normal business hours. You can inspect copies of the submitted SIP revisions at the following locations:

California Air Resources Board (CARB), Stationary Source Division, Rule Evaluation Section, 1001 "I" Street, Sacramento, CA 95814; and

Imperial County Air Pollution Control District, 150 South 9th Street, El Centro, CA 92243.

FOR FURTHER INFORMATION CONTACT: Jerald S. Wamsley, Rulemaking Office (AIR–4), U.S. Environmental Protection Agency, Region IX, (415) 744–1226.

SUPPLEMENTARY INFORMATION: Throughout this document, "we," "us" and "our" refer to EPA.

I. Proposed Action

On June 26, 2001 (6 FR 33930), EPA proposed a disapproval of the following rule submitted by CARB for incorporation into the SIP.

TABLE 1.—SUBMITTED RULES

Local agency	Rule #	Rule title	Adopted	Submitted
ICAPCD	401	Opacity of Emissions	09/14/99	05/26/00

We proposed a disapproval of Rule 401 because provisions of Rule 401 conflict with section 110 and part D of the Act and prevent full approval of this SIP revision. First, given the section 189 RACM requirement, Rule 401 should not grandfather existing sources as it does at section B.3. Second, California has not submitted the sections of the Health and Safety Code (HSC) cited in section C for SIP inclusion. Consequently, EPA can neither review, nor act on these incorporations by reference. While one remedy would be to include the full text of the desired exemptions within the rule, they would be subject to EPA review and approval. Finally, section 42350 of the HSC allows for variances to a district's opacity limits. We object to these variance provisions because they provide broad discretion to modify the SIP in violation of CAA sections 110(i), 110(l), and 193.

II. Public Comments and EPA Responses

EPA's proposed action provided a 30-day public comment period. During this period, we received no comments concerning our proposed disapproval of Rule 401.

III. EPA Action

No comments were submitted in response to our proposed action on Rule 401 and our assessment of the rule remains unchanged. Therefore, as authorized in sections 110(k)(3) and 301(a) of the Act, EPA is finalizing this disapproval of Rule 401. Our action preserves the versions of Rule 401 & 402 approved in 1989 within the federally approved SIP. These rules remain federally enforceable. As a result, this disapproval action does not trigger sanctions or Federal Implementation Plan time clocks under section 179 of the CAA.

IV. Administrative Requirements**A. Executive Order 12866**

The Office of Management and Budget has exempted this regulatory action from Executive Order 12866, entitled "Regulatory Planning and Review."

B. Executive Order 13211

This rule is not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355 (May 22, 2001)) because it is not a significant regulatory action under Executive Order 12866.

C. Executive Order 13045

Executive Order 13045, entitled "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), applies to any rule that: (1) Is determined to be "economically significant" as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that
