NUCLEAR REGULATORY COMMISSION

Completion of Terminated License Review Project

AGENCY: Nuclear Regulatory Commission.

ACTION: Completion of terminated license review project.

In 1989 the General Accounting Office issued a report which raised concerns about the U.S. Nuclear Regulatory Commission's (NRC's) criteria and procedures used for the decommissioning of formerly licensed sites. As a result, in 1990, the NRC decided to undertake a review of terminated materials licenses to assure that previously licensed facilities were properly decontaminated and posed no threat to public health and safety. Oak Ridge National Laboratory (ORNL) was contracted to review all materials licenses terminated by the NRC or its predecessor agencies, from inception of material regulation, to: (1) Identify sites with potential for meaningful residual contamination, based on information in the license documentation; and (2) to identify sealed sources with incomplete or no accounting that could represent a public hazard.

ORNL examined in excess of 37,000 terminated license files. From its evaluation of these license files, ORNL identified approximately 675 loose material licenses and 565 sealed source licenses that required further review. NRC Regional offices either performed a follow-up review, or transferred responsibility for the follow-up review to the appropriate Agreement State.

As a result of the Regional reviews, 40 sites were found to have residual contamination in excess of the NRC's criteria for unrestricted release. Of these sites, 18 have been closed, 11 have been transferred to Agreement States or the U.S. Department of Air Force, 8 are in the process of decommissioning, and 3 are under further NRC review.

ORNL has developed a web-based database for the NRC to document the evaluation and closure process for all

terminated license files. This database will also be used to track the 300-400 licenses terminated each year by NRC. The database will be completed in September 2002.

For further details with respect to this action, see the Final Report on Results of Terminated License Reviews, dated September 26, 2001. This report is available online through NRC's Agencywide Documents Access and Management Systems (Accession No. ML012710539).

Dated at Rockville, Maryland, this 4th day of October 2001.

For the Nuclear Regulatory Commission.

Larry W. Camper,

Chief, Decommissioning Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-44903; File No. 4-208]

Intermarket Trading System; Order Granting Approval of the Seventeenth Amendment to the ITS Plan Relating to Regional Computer Interface, 30-Second Commitment Expiration, and the Principal Place of Business of the Boston Stock Exchange, Inc.

October 3, 2001.

On July 16, 2001, the Intermarket Trading System Operating Committee ("ITSOC") submitted to the Securities and Exchange Commission ("Commission"), pursuant to Section 11A of the Securities Exchange Act of 1934 ("ACT"),¹ and Rule 11A3a3-2 thereunder,² a proposed amendment ("Seventeenth Amendment") to the restated ITS Plan.³ The proposed

amendment recognized the National Association of Securities Dealers, Inc.'s ("NASD") use of the Regional Computer Interface ("RCI"),⁴ and provided for a six-month pilot program for the use of a 30-second commitment expiration. In addition, the proposed amendment reflected the BSE's new principal place of business. Notice of the proposed amendment appeared in the **Federal Register** on August 15, 2001.⁵ The Commission received no comments on the proposed amendment. This order approves the proposed amendment.

The Commission finds that the proposed amendment is consistent with the Act and the rules and regulations thereunder applicable to the ITS and, in particular, sections 11A(a)(1)(C)(ii) and (D) of the Act,⁶ and Rule 11A3-2(c)(2) thereunder,⁷ which requires among other things, that such plan amendment is necessary or appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, and removes impediments to, and perfects the mechanisms of, a national market system. Specifically, the Commission believes that the plan amendment should help to enable the NASD to use the communications network that links all the Participant markets. In addition, the Commission believes that by providing a shorter commitment expiration option of 30-seconds as a six-month pilot program, the proposed amendment should foster efficiency and enhance competition among Participant markets.

It Is Therefore Ordered, pursuant to section 11A(a)(3)(B) of the Act,⁸ that the proposed Seventeenth Amendment be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.⁹

Margaret H. McFarland,
Deputy Secretary.
