Section 6: Justification for Demolition and/or Disposition 24 CFR Parts 970.6 and 970.7

1. Check all that apply and provide an attachment and reference it as Section 6, line 1 to support all applicable conditions.

Demolition

- 970.6(a) In the case of demolition of all or a portion of project, the project, or portion of the project, is obsolete as to physical condition, location, or other factors, making it unusable for housing purposes and no reasonable program of modifications, is feasible to return the project or portion of the project to useful life. The Department generally shall not consider a program of modifications to be reasonable if the costs of such program exceed 90 percent of total development cost (TDC). Major problems indicative of obsolescence are:
- 970.6(a)(1) As to physical condition: Structural deficiencies (e.g., settlement of earth below the building caused by inadequate structural fills, faulty structural design, or settlement of floors), substantial deterioration (e.g., severe termite damage or damage caused by extreme weather conditions), or other design or site problems (e.g., severe erosion or flooding);
 - 970.6(a)(2) As to location: physical deterioration of the neighborhood; change from residential to industrial or commercial development; or environmental conditions as determined by HUD environmental review in accord with part 50 or part 58 of this title, which jeopardize the suitability of the site or a portion of the site and its housing structures for residential use;
 - 970.6(a)(3) Other factors which have seriously affected the marketability, usefulness, or management of the property.
 - 970.6(b) In the case of demolition of only a portion of a project, the demolition will help to assure the useful life of the remaining portion of the project (e.g., to reduce project density to permit better access by emergency, fire, or rescue services).

Disposition

- 970.7(a) Retention is not in the best interests of the tenants and the PHA because at least one to the following criteria is met:
- 970.7(a)(1) Developmental changes in the area surrounding the project (e.g., density, or industrial or commercial development) adversely affect the health or safety of the tenants or the feasible operation of the project by the PHA;
 - 970.7(a)(2) Disposition will allow the acquisition, development, or rehabilitation of other properties that will be more efficiently or effectively operated as lower income housing projects, and that will preserve the total amount of lower income housing stock available to the community. A PHA must be able to demonstrate to the satisfaction of HUD that the additional units are being provided in connection with the disposition of the property;
 - 970.7(a)(3) There are other factors justifying disposition that HUD determines are consistent with the best interests of the tenants and the PHA and that are not inconsistent with other provisions of the Act. As an example, if the property meets any of the criteria for demolition under 970.6, it may be disposed of under this criterion (970.7(a)(3)), subject to conditions that HUD may impose (e.g., demolition to follow disposition in order to ensure abatement of a threat to safety or health).
 - 970.7(b) In the case of disposition of property other than dwelling units (1) the property is determined by HUD to be excess to the needs of the project (after EIOP), or (2) the disposition of the property is incidental to, or does not interfere with, continued operation of the remaining portion of the project

Provide attachments as needed. All attachments must reference the Section and line number to which they apply.

Demolition/Disposition Application Instructions

Instructions for completing the HUD-52860, Application for Demolition/Disposition. Please fill out all of the information requested. Instructions and explanations are provided for those items which may not be self-explanatory. If you have questions about how to fill out this application, please contact the Special Applications Center (SAC).

Section 1: General Information

Item 1. Name of PHA - Please provide the full authority name, as well as the abbreviation that is preferred.

Item 2. Date of Application - The date the application was put in the mail.

Item 3. Address - Please provide a mailing address, other than a PO Box for express mail delivery.

Item 6. Primary contact - Identify the individual who was responsible for putting the application together, and is empowered to provide supplemental information, if needed.

Section 2: Long Term Possible Impact of Proposed Action

The actions covered by this application have many financial ramifications and the action proposed can only be reversed at the discretion of the Department. Prior to deciding to embark on a program of demolition or disposition, the HA staff should have determined: (1) that no other solution is feasible e.g., a new marketing strategy, or unit conversion, etc. (2) analyzed how much it costs to operate the unit or units proposed for demolition or disposition and (3) determined how much these units represent in Comprehensive Grant Program (CGP) and operating subsidy (Performance Funding System (PFS)) funds. The HA should acknowledge that as the HA's inventory is reduced because of demolition or disposition there will be a reduction in the PFS and the CGP, if there is no replacement housing. In some cases these reductions will be phased in over a period of time. For specific information on which units (e.g., units proposed for demolition or disposition, vacant units or occupied units, etc.) are subject to a phase down in funding, see 24 CFR Part 968 and 24 CFR Part 990. The HA should also understand that after a period in time, the reduction in Federal income will reach a steady state. The purpose of requiring an estimate in the reduction of Federal funding is to show that the HA has performed an analysis and is aware that a reduction may take place.

Section 3: Board Resolution and Environmental Review

Items 1 and 2.

A Board Resolution is required in support of the proposed activity. The Board Resolution should be dated after the last resident meeting to show the Board is aware of all resident comments concerning the application. Provide the date of the resolution and the resolution number, if the HA numbers its resolutions.

Items 3 - 6.

Please fill out the information on your actions in arranging for the review and identify who is performing the review. **Please note that where the demolition is to be funded with HOPE VI funds for either revitalization or demolition only, the HA is prohibited from using the Part 58 and therefore, the Field Office must conduct the environmental review under Part 50.**

Table I: Summary of Units to be Demolished/Disposed Where More Than One Development is Included in the Application.

Complete this table where the HA's application contains more than one development, as identified by its unique public housing development number, in the application. For example, if the HA is proposing to demolish or dispose of four developments, then all four developments must be identified on this table with appropriate bedroom distribution, number of buildings and acres.

Sections 4 - 9 must be completed for each development in the application.**Section 4: Description of Property**

The HA should be sure to describe the number of buildings, units, and total acres for the entire development as it currently exists. This is essential baseline information for the SAC.

Please note that although an application may contain multiple projects, under the current regulations, compliance with the regulations is determined on a project-by-project basis. Subsequent HUD approval and tracking is also performed at the project level.

Item 2. Development Number - Please use the HUD development number. All development numbers are at least 11 characters long. A few are up to 14 characters long for older developments. (Do not use the Major Reconstruction of Obsolete Projects number.)

Item 3. Date of Full Availability (DOFA)

Item 6. Date of Construction - applies to those developments that were acquired as part of the development process and reconstructed at the time of development. Therefore, for these acquired developments, the DOFA date is not a true indicator of the age of the developments.

Item 11. Total Acres of the Development. Give the total number of acres that currently exist in the development. The system recognizes up to two decimal places (1234.56).

Section 5: Description of Proposed Action by Project

Item 1. Type of Action Proposed. It is possible for a HA to request approval for a demolition and disposition in one application. However, the applicant must meet the regulatory requirements for both actions. See the summary of application requirements in 24 CFR Part 970.8. For example, an appraisal is required for a disposition or a demolition/disposition application but not a demolition application. Furthermore, the HA must justify to the satisfaction of HUD its rationale for spending Federal funds, usually Comprehensive Improvement Assistance Program (CIAP) funds or CGP Funds, for the demolition of units when the property will be leaving (e.g., disposition action) the public housing inventory.

Item 3. The HA will use this item to identify residential and non-residential buildings proposed for demolition and/or disposition.

Item 4. Acres Included in Proposed Disposition. The HUD data systems track this in acres. The system recognizes up to two decimal places (1234.56).

Item 5. A site map is critical in examining partial demolition/disposition requests. Please mark clearly the units and buildings proposed for demolition or disposition on the site map. (A copy of a site map for each development must be attached to the application form.)

Item 6. Estimate of Project Debt. For a disposition application only, provide the estimate of debt for each development in the application. The SAC or the HUD Field Office has access to this information through the Chief Financial Officer (CFO), if the HA does not have the information in a letter from HUD.

Item 7. In the attachment, the HA should explain why it selected the particular units and buildings to be demolished in the case of partial demolition. For example, in the case of demolition of a section of the development, clearly explain why the HA is proposing to demolish this section rather than another. Also, note that once the partial demolition application is approved by the SAC, the HA cannot change units in the approval without HUD's approval.

Item 9. The estimated sale price must be based on an appraisal. A copy of the appraisal must be included in the application. This requirement is only for a Disposition or a Demolition/Disposition application.

Item 10. If a HA elects (B) Negotiated Sale as the method of disposition, it must specify the disposition cost as either fair market value (FMV) or (C) less than FMV. See 24 CFR Part 970.9(a) of the regulations for guidance on the justification for a negotiated sale or sale at less than fair market value. An attachment describing a sale identified as (B) or (C) is required.

Item 11. Calculation of Net Proceeds. If the HA does not know if there is still outstanding debt, contact your local HUD servicing office. The Center will update the debt amount at the time of application review.

Item 12. Use of Net Proceeds. The HA's first priority is to retire outstanding debt with the proceeds of sale. If an HA has bonded debt that cannot be forgiven, proceeds must be used to make payment on the remaining debt. Second, where the HA has proceeds after payment of debt, those proceeds must be used for the provision of housing assistance to low-income families, e.g., the modernization of another development or building low-income housing. The activities proposed should generally relate to housing services and should be approvable under the CIAP and the CGP. (See 24 CFR Part 970.9(b). Determination of net proceeds for scattered sites are calculated differently, see 24 CFR Part 970.9 (c).

The HA should provide an estimate of gross and net proceeds of sale. Specify in the attachment how the proceeds will be used if the HA anticipates remaining funds after paying the debt and/or related expenses (e.g., relocation, sales costs, etc.). Use of proceeds must be approved by the Department.

Item 14. Indicate source of funds. Identify the source(s) of funding for the demolition or disposition (e.g., modernization, vacancy reduction, etc.) and estimated amount of funds needed.

Section 6: Justification of Demolition or Disposition

Item 1. The applicable criteria for demolition are found in 24 CFR Parts 970.6 and 970.7 for disposition. It is possible to use the demolition justification of obsolescence to support a disposition action.

The justifications that have been the most difficult for HAs to document are 24 CFR Parts 970.6 and 970.7(a)(2).

24 CFR Part 970.6 - Obsolescence. HAs that use Section 970.6(a), "... the project, or portion other project, is obsolete as to physical condition, location, or other factors, making it unusable for housing purposes and no reasonable program of modifications, is feasible to return the project or portion of the project to useful life.", must provide documentation for meeting both parts of the test, obsolescence and rehabilitation is not reasonable.

The HA must provide evidence of obsolescence. For example, a structural problem with the building (as substantiated by an engineering report), an environmental issue related to hazardous substances at the site, or since the project was built has the highway surrounded the area removing access to public transportation, or schools, or has the neighborhood changed with more commercial activity.

Items 2 & 3. In addition, to documentation of some type of obsolescence, the HA must demonstrate that rehabilitation is not reasonable. The applicant must demonstrate to HUD that the cost of rehabilitation compared with the cost guidelines for that development (i.e., 90 percent of TDC) is excessive or that it is unreasonable. Completing items 2 and 3 of this section will provide the HA with the TDC and the estimated cost of rehabilitation. The SAC will make the necessary cost comparison.

24 CFR Part 970.7 - More Efficient, More Effective Lower Income Housing

An HA using Section Part 970.7(a)(2): "... disposition will allow the acquisition, development or rehabilitation of other properties that will be more efficiently or effectively operated as lower income housing projects, and that will preserve the total amount of lower income housing stock available to the community . . .", is expected to provide replacement housing for each unit that will be lost to the public housing inventory. This replacement housing may come from either the proceeds of the sale, another source or any combination of those resources. These units do not have to be public housing units but they must serve low income families in the community. This particular justification is not tied to the suspension of the one-for-one replacement requirement.

Section 7: Relocation

Item 1. Identify total number of individual residents including children. Do not provide number of households.

If units proposed for demolition are vacant, the HA should clearly explain in the application the circumstances that led to the units being vacant, when the residents were relocated (e.g., beginning in May 1997 until July 14, 1997), the resources used, and where the residents were relocated to.

Section 8: Resident Consultation - 24 CFR Part 970.8(e)

The regulation requires general resident consultation, however, it does not specify how the consultation should be done. The method of consultation is, therefore, at the HA's discretion. However, any consultation must be documented. This is one of two resident requirements in the regulation.

The application should document that the HA contacted the residents of the affected development and both the resident organization at the affected development (i.e., the development where the demolition or disposition is proposed), as well as the HA-wide resident organization(s). Many HAs mistakenly think that since the 24 CFR Part 970.13, the requirement for the offer of sale to the resident organization of any property proposed for demolition or disposition, is limited to the resident organization at the development, general resident consultation is likewise limited. Not true.

If prior to submission of the application the residents at the development were temporarily moved for modernization and the HA later decided to demolish or sell the property, the HA must go back to the residents and conduct consultation over the proposed action.

Section 9: Section 412 Offer of Sale (Note 1)

This is the second resident requirement in the regulation. HAs are required to offer the property (i.e., land, units and nondwelling space) proposed for demolition or disposition to resident organization at the affected development. However, the regulation does allow for exceptions to this opportunity to offer.

Item 3. The HA should review the list of six exceptions, identified in 24 CFR Part 970.13(a)(2), to determine if the requirement to make an offer to the resident organization is applicable. HAs are required to provide documentation e.g., if the property has been condemned by the city, a copy of the condemnation order, etc.), in order to claim any of the exceptions.

An application submitted to the Department should include one of the following:

- (a) where there is a resident organization, a copy of the letter to the resident organization and the resident organization's letter of negative response.
- (b) where there is no resident organization at the development, a certification from the Executive Director or Board that there is no resident organization, including evidence that the residents were given an opportunity to form (45 days) an organization for the expressed purpose of purchasing the property and expressed no interest.
- (c) an explanation of why the proposed demolition or disposition action should be exempt from the Section 412 requirements (see Section 24 CFR Part 970.13(a)(2), including evidence to justify the use of the exemption, as required in the regulation.
- (d) a certification from the Executive Director or Board stating that the resident organization at the development was contacted and the 30-day time frame expired without response from the organization.

Note 1: This requirement is often referred to as the 412 requirement, because it was established by Section 412 of the Cranston-Gonzalez National Affordable Housing Act of 1990.
