The Honorable J. Dennis Hastert
Speaker of the House of
Representatives
Washington, D.C. 20515-6501

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, we are forwarding herewith Transmittal No. 02-02, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance (LOA) to the United Kingdom for defense articles and services estimated to cost \$235 million. Soon after this letter is delivered to your office, we plan to notify the news media.

Sincerely,

A handwritten signature in black ink, appearing to read "Tome Walters", is located below the word "Sincerely,".

TOME H. WALTERS, JR.
LIEUTENANT GENERAL, USAF

- (viii) **Date Report Delivered to Congress:** 0 4 OCT 2001

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION**United Kingdom - JAVELIN Command Launch Units**

The Government of United Kingdom has requested a possible sale of 550 JAVELIN anti-tank missile command launch units, simulators, support equipment, spare and repair parts, publications and technical data, personnel training and equipment, U.S. Government and contractor engineering and logistics personnel services, a Quality Assurance Team, and other related elements of logistics support. The estimated cost is \$235 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of the United Kingdom while enhancing weapon system standardization and interoperability with U.S. forces.

This notification is transmitted in conjunction with Section 36(c) AECA notification of a commercial sale for JAVELIN anti-tank missile systems. The United Kingdom will use these JAVELIN anti-tank missile systems to enhance their medium anti-tank capability for the infantry, scouts, and combat engineers. This system will provide the United Kingdom a strong anti-landing capability and will increase interoperability with U.S. forces. The United Kingdom will have no difficulty absorbing these systems into its armed forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be JAVELIN Joint Venture (Raytheon and Lockheed Martin) of Orlando, Florida. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of two U.S. Government and one contractor representatives to the United Kingdom for one week to assist in the delivery and deployment of the missiles.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 02-02**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vi****(vi) Sensitivity of Technology:**

1. The JAVELIN anti-tank missile system provides a man-portable, medium anti-tank capability to infantry, scouts, and combat engineers. JAVELIN is comprised of two major tactical components; a reusable Command Launch Unit (CLU) and a missile sealed in a disposable launch tube assembly. The CLU incorporates an integrated day/night sight and provides target engagement capability in adverse weather and countermeasure environments. The CLU may also be used in the stand-alone mode for battlefield surveillance and target detection. JAVELIN's key technical feature is the use of fire-and-forget technology which allows the gunner to fire and immediately take cover. Additional special features are the top attack and/or direct fire modes (for targets under cover), integrated day/night sight, advanced tandem warhead, imaging infrared seeker, target lock-on before launch, and soft launch from enclosures or covered fighting positions. Reverse engineering of the software would require a substantial effort. The JAVELIN weapon system is unclassified. Specific data related to operation, performance, and system vulnerabilities are classified up to the Secret level.

2. A determination has been made that the Government of United Kingdom can provide substantially the same degree of protection for the technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the policy justification portion of the notification. Further, the sale strengthens collective security and contributes to the standardization and interoperability in the case of coalition warfare. The benefits to be derived from the sale outweigh the potential damage that could result if the sensitive technology were revealed to unauthorized persons.
