DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[DEA #223P]

Controlled Substances: Proposed Aggregate Production Quotas for 2002

AGENCY: Drug Enforcement Administration (DEA), Justice.

ACTION: Notice of proposed year 2002 aggregate production quotas.

SUMMARY: This notice proposes initial year 2002 aggregate production quotas for controlled substances in Schedules I

and II of the Controlled Substances Act (CSA).

DATES: Comments or objections must be received on or before December 4, 2001.

ADDRESSES: Send comments or objections to the Administrator, Drug Enforcement Administration, Washington, DC 20537, Attn.: DEA Federal Register Representative (CCR).

FOR FURTHER INFORMATION CONTACT: Frank L. Sapienza, Chief, Drug and Chemical Evaluation Section, Drug Enforcement Administration, Washington, DC 20537, Telephone: (202) 307-7183

SUPPLEMENTARY INFORMATION: Section 306 of the CSA (21 U.S.C. 826) requires that the Attorney General establish aggregate production quotas for each basic class of controlled substance listed in Schedules I and II. This responsibility has been delegated to the Administrator of the DEA by section 0.100 of Title 28 of the Code of Federal Regulations.

The proposed year 2002 aggregate production quotas represent those quantities of controlled substances that may be produced in the United States in 2002 to provide adequate supplies of each substance for: the estimated medical, scientific, research, and industrial needs of the United States; lawful export requirements; and the establishment and maintenance of reserve stocks. These quotas do not include imports of controlled substances for use in industrial processes.

In determining the proposed year 2002 aggregate production quotas, the Administrator considered the following factors: total actual 2000 and estimated 2001 and 2002 net disposals of each substance by all manufacturers; estimates of 2001 year-end inventories of each substance and of any substance manufactured from it and trends in accumulation of such inventories; product development requirements of both bulk and finished dosage form manufacturers; projected demand as indicated by procurement quota applications filed pursuant to section 1303.12 of Title 21 of the Code of Federal Regulations; and other pertinent information.

Pursuant to section 1303 of Title 21 of the Code of Federal Regulations, the Administrator of the DEA will, in early 2002, adjust aggregate production quotas and individual manufacturing quotas allocated for the year based upon 2001 year-end inventory and actual 2001 disposition data supplied by quota recipients for each basic class of Schedule I or II controlled substance.
