

Service (Customs) to continue suspending liquidation on all imports of the subject merchandise from the People's Republic of China. Customs shall require a cash deposit or the posting of a bond equal to the weighted-average amount by which normal value exceeds the export price as indicated in the chart above. These suspension-of-liquidation instructions will remain in effect until further notice.

International Trade Commission Notification

In accordance with section 735(d) of the Tariff Act, we have notified the International Trade Commission of our amended final determination.

This determination is issued and published in accordance with section 735(d) and 777(i)(1) of the Tariff Act of 1930, as amended.

Dated: November 29, 2001.

Richard W. Moreland,

Acting Assistant Secretary for Import Administration.

[A-489-807]

Certain Steel Concrete Reinforcing Bars from Turkey; Notice of Extension of Time Limit for Preliminary Results in Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: December 5, 2001.

SUMMARY: The Department of Commerce is extending the time limit for completion of the preliminary results of the administrative review of the antidumping duty order on certain steel concrete reinforcing bars from Turkey. The period of review is April 1, 2000, through March 31, 2001.

FOR FURTHER INFORMATION CONTACT: Irina Itkin or Elizabeth Eastwood at (202) 482-0656 or (202) 482-3874, respectively, Office of AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the

effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce's (the Department's) regulations are to 19 CFR part 351 (2001).

SUPPLEMENTARY INFORMATION: On May 23, 2001, the Department published a notice of initiation of administrative review of the antidumping duty order on certain steel concrete reinforcing bars from Turkey. The period of review is April 1, 2000, through March 31, 2001. The review covers three producers/exporters of the subject merchandise to the United States.

Pursuant to section 751(a)(3)(A) of the Act, the Department shall make a preliminary determination in an administrative review of an antidumping order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act further provides, however, that the Department may extend the 245-day period to 365 days if it determines it is not practicable to complete the review within the foregoing time period. Because it is not practicable to complete this administrative review within the time limit mandated by section 751(a)(3)(A) of the Act, the Department is extending the time limit for completion of the preliminary results. This review involves a number of complicated issues including high inflation in Turkey during the period of review. Because we need additional time for our analysis, we have extended the deadline until April 30, 2002.

This extension is in accordance with section 751(a)(3)(A) of the Act (19 U.S.C. 1675(a)(3)(A)) and 19 CFR 351.213(h)(2).

Dated: November 29, 2001.

Richard W. Moreland,

Deputy Assistant Secretary for Import Administration.

University of Connecticut, et al.; Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

This is a decision consolidated pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Suite

4100W, Franklin Court Building, U.S. Department of Commerce, 1099 14th Street NW., Washington, DC.

Docket Number: 01-017. **Applicant:** University of Connecticut, Storrs, CT 06269-3136. **Instrument:** Electron Microscope, Model JEM-2010. **Manufacturer:** JEOL Ltd., Japan. **Intended Use:** See notice at 66 FR 55913, November 5, 2001. **Order Date:** December 8, 2001.

Docket Number: 01-019. **Applicant:** University of California, Berkeley, CA 94720. **Instrument:** Electron Microscope, Model CM200 FEG. **Manufacturer:** FEI Company, The Netherlands. **Intended Use:** See notice at 66 FR 55913, November 5, 2001. **Order Date:** May 23, 2001.

Docket Number: 01-021. **Applicant:** Baylor College of Medicine, Houston, TX 77030. **Instrument:** Electron Microscope, Model JEM-2010F and Accessories. **Manufacturer:** JEOL Ltd., Japan. **Intended Use:** See notice at 66 FR 55914, November 5, 2001. **Order Date:** September 20, 2001.

Comments: None received. **Decision:** Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as these instruments are intended to be used, was being manufactured in the United States at the time the instruments were ordered. **Reasons:** Each foreign instrument is a conventional transmission electron microscope (CTEM) and is intended for research or scientific educational uses requiring a CTEM. We know of no CTEM, or any other instrument suited to these purposes, which was being manufactured in the United States at the time of order of each instrument.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

National Oceanic and Atmospheric Administration

Deep Seabed Mining: Proposed Extension and Revision of Exploration License

AGENCY: National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of Receipt of Application to Extend Deep Seabed Mining Exploration License USA-1 and Revise Exploration Plan.

SUMMARY: On September 20, 2001, Ocean Minerals Company (OMCO) submitted to the National Oceanic and Atmospheric Administration (NOAA) an application for a five-year extension of Deep Seabed Mining Exploration License USA-1, pursuant to sections 105(c)(2) and 107(a) of the Deep Seabed Hard Mineral Resources (DSHMRA, 30 U.S.C. 1401 *et seq.*) and 15 CFR 970.515. OMCO has also proposed related exploration plan revisions.

NOAA has determined that this proposal constitutes an application for a major but not a significant revision to the exploration plan and to the terms, conditions, and restrictions (TCRs) of the license under 15 CFR 970.513, and is commencing public review procedures as prescribed in 15 CFR 970.514(b). Pursuant to the DSHMRA and 15 CFR part 970, on August 29, 1984, NOAA issued a license to OMCO to engage in deep seabed mining exploration in the Clarion-Clipperton Fracture Zone area of the Northeastern Equatorial Pacific Ocean. Since that time, the licensee, subject to the TCRs of the license and the regulatory requirements, has diligently pursued the activities approved in the exploration plan of the license, directed toward application for a commercial permit.

In 1991, NOAA approved a revision to the exploration plan for USA-I and extended the original license for an additional five years. This exploration plan is a two-phased plan. During Phase I, OMCO's activities are designed to monitor legal, technical and political developments pertaining to deep seabed mining; analyze environmental and nodule resource data; and, reevaluate the potential for commercial mining. During Phase II OMCO's activities are directed toward survey operations, upgrading the exploration ship and equipment, and delineation of the ore body.

OMCO is applying for a five-year extension of the license based on significantly changed market conditions, pursuant to 15 CFR 970.515. Section 107(a) of the DSHMRA provides that the Administration shall extend a license, on terms consistent with the Act and NOAA's regulations, if the licensee has complied with the license and associated exploration plan. Section 105(c)(2) of the DSHMRA authorizes NOAA to approve a license revision upon a finding that the revision will comply with the requirements of the Act and implementing regulations. A revision to the exploration plan is being requested to reflect accomplishment of objectives in Phase I of OMCO's current plan. For example, the substantial amounts of data received as a result of

the exchange of exploration data between consortia during settlement of overlapping sites is sufficient to determine if and at which locations attractive mine sites occur in USA-I. This allows survey operations and upgrading of the mine ship and equipment to be delayed until Phase II when detailed ore body delineation occurs in conjunctions with the initiation of scale-up pilot plant operations.

This revision requests an extension of the term of the license until 2005 and proposes to extend Phase I for five years and to delay the initiation of the survey operations, ore body delineation and upgrade ship and equipment activities of Phase II. During the five-year extension, OMCO will monitor domestic and international activities in the scientific, engineering, and financial fields that are important to the future development of ocean mining. This will help to maintain industry viability and provide information necessary to assess the timeliness for inauguration of Phase II. OMCO will also continue to monitor new environmental studies and data collection.

Subject to 15 CFR 971.802, interested persons will be permitted to examine the application for extension at the below listed address.

DATES: Individuals or organizations wishing to submit comments on the application should do so by February 4, 2002.

ADDRESSES: Comments should be made to John King, Acting Chief, Coastal Programs Division (N/ORM3), Office of Ocean and Coastal Resource Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland, tel. 301-713-3155 extension 195, e-mail john.king@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Joseph Flanagan, Coastal Programs Division (NORM/3), Office of Ocean and Coastal Resource Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland 20910, tel. (301) 713-3155, x201, e-mail joseph.flanagan@noaa.gov.

BILLING CODE 3510-08-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcement of Import Restraint Limits for Certain Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textiles and Textile Products Produced or Manufactured in Hong Kong

November 29, 2001.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing limits.

EFFECTIVE DATE: January 1, 2002.

FOR FURTHER INFORMATION CONTACT: Naomi Freeman, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port, call (202) 927-5850, or refer to the U.S. Customs website at <http://www.customs.gov>. For information on embargoes and quota re-openings, refer to the Office of Textiles and Apparel website at <http://otexa.ita.doc.gov>.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The import restraint limits for textile products, produced or manufactured in Hong Kong and exported during the period January 1, 2002 through December 31, 2002 are based on limits notified to the Textiles Monitoring Body pursuant to the Uruguay Round Agreement on Textiles and Clothing (ATC).

Pursuant to the provisions of the ATC, the third stage of the integration of textile and apparel products into the General Agreement on Tariffs and Trade 1994 will take place on January 1, 2002 (see 60 FR 21075, published on May 1, 1995). Accordingly, certain previously restrained categories have been modified or eliminated and certain limits have been revised. Integrated products will no longer be subject to quota.

In the letter published below, the Chairman of CITA directs the Commissioner of Customs to establish the 2002 limits. These limits have been increased, variously, for adjustments permitted under the flexibility provisions of the ATC.

A description of the textile and apparel categories in terms of HTS
