**DEPARTMENT OF HEALTH AND
HUMAN SERVICES****Agency for Toxic Substances and
Disease Registry**

[ATSDR-165]

**Availability of Chemical Specific
Consultation for Tremolite-Related
Asbestos**

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

ACTION: Notice of availability.

SUMMARY: The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), Section 104(i)(4) [42 U.S.C. 9604(i)(4)], directs the Administrator of ATSDR to provide consultations upon request on health issues relating to exposure to hazardous or toxic substances to the Administrator of EPA, State officials, and local officials. A health consultation provides advice on a specific public health issue related to real or possible human exposure to toxic material and is a method ATSDR uses to respond rapidly to requests for assistance and public health needs.

This notice announces that a chemical-specific public health consultation, Tremolite-related Asbestos, is now available for public comment. This ATSDR consultation reviews the scientific literature describing the relationship between exposure to tremolite-related asbestos and resultant health effects.

DATES: In order to be considered, comments on this draft consultation must be received by March 9, 2001. Comments received after the close of the public comment period will be considered at the discretion of ATSDR based upon what is deemed to be in the best interest of the general public.

ADDRESSES: Requests for copies of the draft consultation should be sent to the ATSDR Information Center, Division of Toxicology, Agency for Toxic Substances and Disease Registry, Mailstop E-57, 1600 Clifton Road, NE., Atlanta, Georgia 30333. Written comments regarding the draft consultation should be sent to the same address. ATSDR reserves the right to provide only one copy of the draft consultation free of charge.

Written comments submitted in response to this notice should bear the docket control number ATSDR-165.

Because all public comments regarding ATSDR-165 health consultations will be available for inspection, no confidential business information or personal medical information should be submitted in response to this notice.

FOR FURTHER INFORMATION CONTACT: Susan L. Kess, MD, MPH, Division of Toxicology, Agency for Toxic Substances and Disease Registry, Mailstop E-29, 1600 Clifton Road, NE, Atlanta, Georgia 30333, telephone (404) 639-6300.

SUPPLEMENTARY INFORMATION: Given the uniqueness of tremolite and related asbestos and the paucity of information about them, ATSDR prepared this substance-specific consultation to support technical decision-making for public health activities at Libby, Montana where the vermiculite ore was mined, and at other sites across the country where the contaminated vermiculite was mined, distributed, and processed.

Workers, household contacts, and the general public who come in contact with contaminated products may be at risk of exposure and potential health effects.

Dated: January 16, 2001.

Georgi Jones,

Director, Office of Policy and External Affairs, Agency for Toxic Substances and Disease Registry.

**Foreign Quarantine Regulations;
Proposed Data Collections Submitted
for Public Comment and
Recommendations**

In compliance with the requirement of Section 3506 (c) (2) (A) of the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) is providing an opportunity for public comment on proposed data collection projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer at 404-639-7090. Comments are invited on: (i) Whether the proposed collection of information is necessary for the proper performance of the functions of the CDC, including whether the information shall have a

practical utility; (ii) the accuracy of the agency's estimate of the burden of the proposed collection of information; (iii) ways to enhance the quality, utility, and clarity of the information to be collected; and (iv) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques for other forms of information technology. Send comments to Anne O'Connor, Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, Georgia 30333. Written comments should be received within 60 days of this notice.

Proposed Project

Survey of User Satisfaction with National Health Care Survey Data—New—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC). This Survey of User Satisfaction with National Health Care Survey Data is needed to provide current information on the use and usefulness of the variety of data products describing health care delivery systems in the United States. The National Health Care Survey comprises several component surveys: National Hospital Discharge Survey, National Nursing Home Survey,

National Home and Hospice Care Survey, National Ambulatory Medical Care Survey, National Hospital Ambulatory Medical Care Survey and occasional other similar surveys when funded, such as the National Health Provider Inventory. Unlike other national surveys conducted by CDC National Center for Health Statistics, the National Health Care surveys address the health care delivery systems rather than the vital statistics, health status, health-related behavior, and access to care experienced by individuals and households who are consumers of the health care delivery systems. Between the years of 1968 and 1984, a number of surveys were conducted to learn more about National Center for Health Statistics (NCHS) data users and to assess the quality of data dissemination activities conducted by NCHS. Studies focusing solely on user satisfaction with National Health Care Survey data products have not been conducted since 1984. We need current specific information on how well our users' needs are being met, how to improve our data products, and how to serve current non-users of our data who are, nonetheless, potential users. Our data products consist mainly of published reports and web-published data sets

including Data Highlights and E-Stats. Our published reports include Advance Data Reports, a newsletter-like summary of more detailed analyses to be published later, and Series Reports, which are in-depth analyses of specific topics addressed by our collected data. As the contractor for this project, CHPS Consulting will conduct a multi-mode survey using a web-based survey for those in the sample for whom an email address is available and a mail survey for those without an email address. Current users will be asked questions about what publications they use, how they use them, and their opinion of the timeliness, accessibility, format, and quality of the data publications. Non-users will be asked why they do not use our publications, their current sources of health care provider data, and how we improve data products to meet their needs. Our target population will include the following groups of persons: researchers, educators, health facility administrators, practitioners, and policymakers. Our goal for this survey is to obtain 600 returned surveys with an approximately equal number of returned surveys from users and non-users. There is no cost to respondents other than their time in responding. The total annualized burden is 75 hours.

Respondents	Number of respondents	Number of responses per respondent	Avg. burden per response (in hrs.)	Total response per burden (in hrs.)
Users	300	1	1 ⁹ / ₆₀	50
Non-Users	300	1	5 ⁶ / ₆₀	25
Total	600			75

Dated: January 16, 2001.
Nancy Cheal,
Acting Associate Director for Policy, Planning, and Evaluation Centers for Disease Control and Prevention (CDC).

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the

Centers for Disease control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports

Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

Foreign Quarantine Regulations—Extension—OMB No.0920-0134 National Center for Infectious Diseases (NCID), Centers for Disease Control and Prevention (CDC) Section 361 of the Public Health Service (PHS) Act (42 USC 264) authorizes the Secretary of Health and Human Services to make and enforce regulations necessary to prevent the introduction, transmission, or spread of communicable diseases from foreign countries into the United States. Legislation and the existing regulations governing quarantine activities (42 CFR part 71) authorize quarantine officers and other personnel to inspect and undertake necessary control measures with respect to conveyances, persons, and shipments of
