

Beginning at the north end of Silverton, thence westerly along Cement Creek and Colorado State Highway #110, to Gladstone, thence southeasterly along the Middle Fork of Cement Creek to the divide between the Middle Fork Cement Creek and the South Fork of the Animas River, thence south along the eastern slope of the Boulder Gulch drainage to Colorado State Highway #110, thence southwest to the north end of Silverton and the point of beginning.

The area described contains approximately 3660 acres of federal land and is exclusive of the private land adjacent to and contained within the perimeter of the project.

A determination to analyze the proposed projects separately or jointly will be made subsequent to a review of the proponents' applications which will be accepted after the publication of the NORA.

If found suitable for the proposed uses, such uses would be authorized through a competitive or non-competitive process, by permit, lease, or easement, as appropriate, at fair market rental, paid annually in advance. A permit or permits, lease or leases, or easement or easements, singly or in combination, could authorize use of the land for extreme skiing/snow-boarding and winter related learning courses offered during the winter months, and biking, hiking and all season sightseeing. A holder of a permit, easement, or lease would be required, in advance of authorization, to agree to the terms and conditions of 43 CFR 2920.7 and such additional terms and conditions as are deemed necessary for the particular use authorization.

Permitting/leasing or issuance of easements under Section 302 of FLPMA within the above-described area would be consistent with the Bureau of Land Management's current San Juan Resource Area Management Plan.

An authorized permittee, lessee, or easement holder, would be required, in advance, to reimburse the United States for reasonable administrative fees and monitoring of construction, operation, maintenance, and rehabilitation of the land authorized. The reimbursement of costs would be in accordance with 43 CFR 2920.6.
