

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71****[Airspace Docket No. 01-AWP-30]****Modification of Class E Airspace;
Twentynine Palms, CA****AGENCY:** Federal Aviation
Administration (FAA), DOT.**ACTION:** Final Rule.

SUMMARY: This action modifies the Class E airspace area at Twentynine Palms, CA. The establishment of an Area Navigation (RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedure (SIAP) RNAV (GPS) Runway (RWY) 26 SIAP to Twentynine Palms Airport, Twentynine Palms, CA has made action necessary. Additional controlled airspace extending upward from 700 feet or more above the surface of the earth is needed to contain aircraft executing the RNAV (GPS) RWY 26 SIAP to Twentynine Palms Airport. The intended effect of this action is to provide adequate controlled airspace for Instrument Flight Rules operations at Twentynine Palms Airport, Twentynine Palms, CA.

EFFECTIVE DATE: 0901 UTC April 18, 2002.

FOR FURTHER INFORMATION CONTACT: Jeri Carson, Airspace Specialist, Airspace Branch, AWP-520, Air Traffic Division, Western-Pacific Region, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261, telephone (310) 725-6611.

SUPPLEMENTARY INFORMATION:**History**

On January 22, 2002, the FAA proposed to amend 14 CFR part 71 by modifying the Class E airspace area at Twentynine Palms, CA (67 FR 2836). Additional controlled airspace extending upward from 700 feet or more above the surface is needed to contain aircraft executing the RNAV (GPS) RWY 26 SIAP to Twentynine Palms Airport. This action will provide adequate controlled airspace for aircraft executing the RNAV (GPS) RWY 26 SIAP to Twentynine Palms Airport, Twentynine Palms, CA.

Interested parties were invited to participate in this rulemaking, proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. Class E airspace designations for airspace extending from 700 feet or more above the surface of the earth are

published in paragraph 6005 of FAA Order 7400.9J, dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 modifies the Class E airspace area at Twentynine Palms, CA. The establishment of a RNAV (GPS) RWY 26 SIAP to Twentynine Palms Airport has made this action necessary. The effect of this action will provide adequate airspace for aircraft executing the RNAV (GPS) RWY 26 SIAP to Twentynine Palms Airport, Twentynine Palms, CA.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

DEPARTMENT OF DEFENSE**Department of the Army, Corps of
Engineers****33 CFR Part 334****United States Navy Restricted Area,
Hampton Roads and Willoughby Bay,
Virginia****AGENCY:** United States Army Corps of
Engineers, DoD.**ACTION:** Final rule.

SUMMARY: The U.S. Army Corps of Engineers is amending its regulations which establish a restricted area in waters adjacent to the Norfolk Naval Base at Norfolk, Virginia. This amendment will close off an open area on the south side of the base and changes the enforcement responsibility from the base commander to the Commander, Navy Region, Mid-Atlantic. The regulations are necessary to safeguard Navy vessels and United States Government facilities from sabotage and other subversive acts, accidents, or incidents of similar nature. These regulations are also necessary to protect the public from potentially hazardous conditions which may exist as a result of Navy use of the area.

EFFECTIVE DATE: April 10, 2002.

ADDRESSES: U.S. Army Corps of
Engineers, ATTN: CECW-OR, 441 G
Street, NW., Washington, DC 20314-
1000.

FOR FURTHER INFORMATION CONTACT: Mr. Frank Torbett, Headquarters Regulatory Branch, Washington, DC at (202) 761-4618, or Mr. Rick Henderson, Corps of Engineers, Norfolk District, Regulatory Branch, at (757) 441-7653.

SUPPLEMENTARY INFORMATION: Pursuant to its authorities in section 7 of the Rivers and Harbors Act of 1917 (40 Stat. 266; 33 U.S.C. 1) and Chapter XIX, of the Army Appropriations Act of 1919 (40 Stat. 892; 33 U.S.C. 3) the Corps is amending the restricted area regulations in 33 CFR part 334 by amending section 334.300 which establishes a restricted area in waters adjacent to the Norfolk Naval Base at Norfolk, Virginia.

Procedural Requirements

a. Review Under Executive Order 12866

This rule is issued with respect to a military function of the Defense Department and the provisions of Executive Order 12866 do not apply.

b. Review Under the Regulatory Flexibility Act

This rule has been reviewed under the Regulatory Flexibility Act (Public Law 96-354) which requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities (i.e., small businesses and small governments). The Corps expects that the economic impact of this restricted area would have practically no impact on the public, no anticipated navigational hazard or interference with existing waterway traffic and accordingly, certifies that this proposal will have no significant economic impact on small entities.

c. Review Under the National Environmental Policy Act

The Norfolk District has prepared an Environmental Assessment (EA) for this action. We have concluded, based on the minor nature of the proposed additional restricted area regulations, that this action will not have a significant impact to the quality of the human environment, and preparation of an Environmental Impact Statement (EIS) is not required. The EA may be reviewed at the Norfolk District office listed at the end of **FOR FURTHER INFORMATION CONTACT**, above.

d. Unfunded Mandates Act

This rule does not impose an enforceable duty among the private sector and, therefore, is not a Federal private sector mandate and is not subject to the requirements of Section 202 or 205 of the Unfunded Mandates

Act. We have also found under section 203 of the Act, that small Governments will not be significantly and uniquely affected by this rulemaking.

e. Submission to Congress and the General Accounting Office

Pursuant to Section 801(a)(1)(A) of the Administrative Procedure Act, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996, the Army has submitted a report containing this Rule to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the General Accounting Office. This Rule is not a major Rule within the meaning of Section 804(2) of the Administrative Procedure Act, as amended.
