### Administration for Children and Families

[Program Announcement No. ACF/ACYF/HS 02-04]

#### Fiscal Year 2002 Discretionary Announcement for Nationwide Competition of Early Head Start; Availability of Funds and Request for Applications

**AGENCY:** Administration on Children, Youth and Families (ACYF), Administration for Children and Families (ACF), DHHS.

**ACTION:** Notice of Fiscal Year 2002 Early Head Start availability of financial assistance for nationwide competition and request for applications.

**SUMMARY:** Early Head Start programs provide early, continuous, intensive and comprehensive child development and family support services on a year-round basis to low-income families. The purpose of the Early Head Start program is to enhance children's physical, social, emotional, and intellectual development; to support parents' efforts to fulfill their parental roles; and to help parents move toward self-sufficiency. The Administration on Children, Youth and Families announces approximately \$72 million in financial assistance to be competitively awarded to local public and private non-profit and for-profit entities—including Early Head Start and Head Start grantees—to provide child and family development services for low-income families with children under age three and pregnant women. Faith-based organizations are eligible to apply for these funds to become Early Head Start grantees.

Applicants may apply for one or more of the following categories of expansion:

1. Current Early Head Start grantees, proposing to expand in their currently approved EHS service area (\$20 million). (See Priority 1 Evaluation Criteria.)

2. Applicants, including current Early Head Start grantees and, proposing to establish an Early Head Start program in areas currently unserved by Early Head Start (see Attachment A for a listing of currently served areas; any area not listed is eligible for funding in this category) (\$42 million). (See Priority 1 Evaluation Criteria.)

3. Applicants proposing to serve children in an Early Head Start program whose families are receiving support from the Child Welfare Services (CWS) system (\$10 million). (See Priority 2 Evaluation Criteria.)

Applicants eligible for funding under this category are as follows:

a. Current grantees may include a request for serving CWS children as a second part of their application under either 1 or 2 above or may submit an application only to serve CWS children.

While each applicant should decide on the appropriate mix between CWS children and other children, we would not expect applicants to propose that a large portion of their children be CWS children unless there are compelling reasons for doing so which must be documented in the application.

b. Applicants who are not current EHS providers may apply to serve CWS children only if they are also submitting an expansion proposal under 2 above.

While each applicant should decide on the appropriate mix between CWS children and other children, we would not expect applicants to propose that a large portion of their children be CWS children unless there are compelling reasons for doing so which must be documented in the application.

**DATES:** The closing date and time for receipt of applications is 4:30 p.m. EDT on May 13, 2002.

**Note:** Applications should be submitted to: Early Head Start Nationwide Competition, 1901 N. Fort Myer Drive, Suite 301, Arlington, VA 22209. However, prior to preparing and submitting an application, in order to satisfactorily compete under this announcement, it will be necessary for potential applicants to read the full announcement which is available through the addresses listed below.

**ADDRESSES:** A copy of the program announcement, necessary application forms, and appendices can be obtained by contacting: Early Head Start Nationwide Competition, 1901 North Fort Myer Drive, Suite 301, Arlington, Virginia 22209. The telephone number

is 1-800-458-7699; or e-mail to: [ehsn@pal-tech.com](mailto:ehsn@pal-tech.com).

#### FOR FURTHER INFORMATION CONTACT:

Early Head Start Nationwide Competition, 1901 N. Fort Myer Drive, Suite 301, Arlington, VA 22209 or telephone: 1-800-458-7699 or e-mail to: [ehsn@pal-tech.com](mailto:ehsn@pal-tech.com).

#### SUPPLEMENTARY INFORMATION:

##### Eligible Applicants

Applicants eligible to apply to become an Early Head Start program are local public and private non-profit and for-profit entities. Early Head Start and Head Start grantees are eligible to apply. Faith-based organizations are eligible to apply for funds. Applicants are reminded that eligibility to apply for a grant under this Notice is limited to local agencies, as defined in section 641 (a) and (b) of the Head Start Act.

##### Project Duration

For new Early Head Start grantees, the competitive awards made through this announcement will be for one-year budget periods and an indefinite project period. Subsequent year budget awards will be made non-competitively, subject to availability of funds and the continued satisfactory performance of the applicant. Successful applicants which are current Early Head Start grantees will be funded in one of two ways. Those Early Head Start grantees that currently have indefinite project periods will continue to be funded as indefinite project period grants. However, those Early Head Start grantees that have finite project periods will be given supplements to their current, time limited grant. A grantee, for example, currently funded for \$200,000 with a project period ending September 30, 2003 that is awarded another \$100,000 through this announcement would then be funded as a \$300,000 Early Head Start grantee with a project period that still ends on September 30, 2003. This would be true regardless of whether the new funds are to expand services within the grantee's current service area or to expand into another currently unserved area. Prior to the end of an Early Head Start grantee's current project period (*i.e.*, September 30, 2003 in the above example), ACF will announce a competition for those areas served by each EHS grantee whose project period is nearing an end. In such a competition, current EHS grantees in good standing, who submit acceptable

applications, will be given priority in funding decisions.

### **Early Head Start Child Welfare Services Initiative (See Priority 2 Evaluation Criteria)**

The Head Start Bureau is establishing a new initiative to promote and expand partnerships between local EHS programs and local child welfare services (CWS) agencies. This initiative will enhance and expand services for children and their families who are part of the child welfare service system and provide additional and more intensive services in local communities for this population. The Head Start Bureau is setting aside \$10 million to fund this initiative and plans to serve approximately 1,000 children. Both new applicants and existing EHS grantees may apply for these funds. See below for the Priority 2 Evaluation Criteria for the EHSCWS Initiative. For additional information about the Initiative, see the full Program Announcement for this competition which is available from the address listed above.

### **Federal Share of Project Costs**

The Federal share will not be more than 80 percent of the total approved costs of the project except if a waiver is granted under the authority cited in section 640(b) of the Head Start Act.

### **Matching Requirements**

Grantees that operate Early Head Start programs must, in most instances, provide a non-Federal contribution of at least 20 percent of the total approved costs of the project.

### **Available Funds**

See the Program Announcement for the list of the approximate amount of funds available for States. (The Program Announcement is available from the address listed above.)

### **Anticipated Number of Projects to be Funded**

It is estimated that there will be 100–125 awards.

### **Statutory Authority**

The Head Start Act, as amended, 42 U.S.C. 9831 et seq.

### **Priority 1 Evaluation Criteria**

All new applicants and current grantees proposing to expand services in their current service area or provide services in a new service area should address the criteria for Priority 1 below. Competing applications for financial assistance will be reviewed and evaluated on the six criteria which are summarized below. The point values

following each criterion indicate the numerical weight each criterion will be accorded in the review process.

#### *Criterion 1: Objectives and Need for Assistance (15 Points)*

The extent to which, based on community assessment information, the applicant identifies any relevant physical, economic (e.g., poverty in the community), social, financial, institutional, or other issues which demonstrate a need for the Early Head Start program.

The extent to which the applicant lists relevant program objectives that adequately address the strengths and needs of the community.

The extent to which the applicant describes the population to be served by the project and explains why this population is most in need of the services to be provided by the program.

The extent to which the applicant gives a precise location and rationale for the project site(s) and area(s) to be served by the proposed project. If the applicant is a current grantee planning to expand its program it needs to demonstrate that the geographic area is currently underserved or, where applicable, unserved by Early Head Start Programs. If the applicant is new, it needs to demonstrate that the proposed service area is currently unserved by Early Head Start programs.

#### *Criterion 2: Results or Benefits Expected (10 Points)*

The extent to which the applicant identifies the results and benefits to be derived from the project and links these to the stated objectives.

The extent to which the applicant describes the kind of data to be collected and how they will be utilized to measure progress towards the stated results or benefits.

#### *Criterion 3: Approach (25 Points)*

The extent to which the applicant demonstrates a thorough knowledge and understanding of the Head Start Program Performance Standards.

The extent to which the applicant explains why the approach chosen is effective in light of the needs, objectives, results and benefits described above.

The extent to which the approach is grounded in recognized standards and/or guidelines for high quality service provision or is defensible from a current research or best practices standpoint.

#### *Criterion 4: Staff and Position Data and Organization Profiles (15 Points)*

The extent to which the proposed program director, proposed key project

staff, the organization's experience, including experience in providing early, continuous, and comprehensive child and family development services, and the organization's history with the community demonstrate the ability to effectively and efficiently administer a project of this size, complexity and scope.

The extent to which the applicant's management plan demonstrates sufficient management capacity to implement a high quality Early Head Start program.

The extent to which the organization demonstrates an ability to carry out continuous improvement activities.

#### *Criterion 5: Third Party Agreements/ Collaboration (15 Points)*

The extent to which the applicant presents documentation of efforts (letters of commitment, interagency agreements, etc.) to establish and maintain ongoing collaborative relationships with community partners.

The extent and thoroughness of approaches to combining Early Head Start resources and capabilities with those of other local child care agencies and providers to provide high quality child care services to infants and toddlers which meet the Head Start Program Performance Standards.

#### *Criterion 6: Budget and Budget Justification (20 Points)*

The extent to which the program's costs are reasonable in view of the planning and activities to be carried out and the anticipated outcomes.

The extent to which the program has succeeded in garnering cash or in-kind resources, in excess of the required Federal match, from local, State, other Federal or private funding sources. The extent to which costs for facilities are reasonable and cost effective.

The extent to which the salaries and fringe benefits reflect the level of compensation appropriate for the responsibilities of staff.

The extent to which assurances are provided that the applicant can and will contribute the non-Federal share of the total project cost.

### **Priority 2 Evaluation Criteria**

All applicants (current grantees and new applicants) applying to serve children under the EHS Child Welfare Services Initiative discussed in detail in the full program announcement should address the following six evaluation criteria separately in their application. Competing applications for financial assistance will be reviewed and evaluated on the six criteria. The point values following each criterion indicate

the numerical weight each criterion will be accorded in the review process.

**Criterion 1: Objectives and Need for Assistance (15 Points)**

The extent to which the applicant identifies the need and objectives for services to children and their families who are in the child welfare system, how many children and families will be served, and provide a description of the children and families to be served through the EHSCWS Initiative. This could include children in the child welfare system who are living with their parents or other family members, those in foster care settings, children whose parents are incarcerated or in substance abuse recovery programs, and/or other children birth to three who are within the child welfare system. The children the applicant proposes to serve must also meet EHS eligibility requirements, and can receive EHS services until the child is three years of age, even if the CWS services end.

**Criterion 2: Results or Benefits Expected (10 Points)**

The extent to which the applicant identifies and describes the results and benefits to be derived from the EHSCWS Initiative and link these to the stated objectives.

The extent to which the applicant describes the kind of data to be collected and how they will be utilized to measure progress towards the stated results or benefits.

**Criterion 3: Approach (25 Points)**

The extent to which the applicant describes the Early Head Start Child Welfare Services (EHSCWS) collaboration design and the approach to providing services to EHSCWS children through this Initiative, and outlines a plan of action for implementing those services, including the scope and detail of how the proposed work will be accomplished. This will include information about recruitment, what each partner will be responsible for in the delivery of services, how both the Head Start and the applicable Child Welfare Services regulations will be met, and what kind of shared communication system will be in place between the partners that will ensure quality and timely delivery of services

**Criterion 4: Staff and Position Data and Organization Profiles (15 Points)**

The extent to which the applicant describes the staffing plan for the EHSCWS Initiative, including how the partners will share staff, supervise staff, and provide training. They will indicate other areas of resource sharing, such as space and the possible co-location of staff.

**Criterion 5: Third Party Agreements/ Collaboration (15 Points)**

The extent to which the applicant includes a written collaboration agreement between the EHS and local CWS agency that specifically outlines the roles and responsibilities of each partner and how the EHSCWS Initiative will be carried out.

**Criterion 6: Budget and Budget Justification (20 Points)**

The extent to which the applicant submits a reasonable budget and justification that supports the activities proposed for the partnership, and that is appropriate in the carrying out of the EHSCWS Initiative. Grantees must budget for two meetings in Washington, DC, during the first year of funding. Project directors and evaluators will meet approximately three months after funding for approximately two days. In years two and three, grantees will be expected to send both their project directors and evaluators to one meeting in Washington, DC each year.

**Required Notification of the State Single Point of Contact**

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

All States and territories except Alabama, Alaska, Colorado, Connecticut, Hawaii, Idaho, Kansas, Louisiana, Massachusetts, Minnesota, Montana, Nebraska, New Jersey, New York, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Tennessee, Vermont, Virginia, Washington, American Samoa, and Palau have

elected to participate in the Executive Order process and have established Single Points of Contact (SPOCs). Applicants from these jurisdictions need not take action regarding Executive Order 12372.

Applications for projects to be administered by Federally recognized Indian Tribes are also exempt from the requirements of Executive Order 12372. Otherwise, applicants should contact their SPOC as soon as possible to alert them to the prospective application and to receive any necessary instructions. Applicants must submit any required material to the SPOC as early as possible so that the program office can obtain and review SPOC comments as part of the award process. It is imperative that the applicant submit all required materials, if any, to the SPOC and indicate the date of this submittal (or date of contact if no submittal is required) on the Standard Form 424, item 16a.

Under 45 CFR 100.8(a)(2), a SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards.

SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations.

Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to the ACF, they should be addressed to: William Wilson, Head Start Bureau, Grants Officer, 330 C Street SW., Room 2220, Washington, DC 20447.

### Food and Drug Administration

[Docket No. 02N-0070]

#### Agency Information Collection Activities; Proposed Collection; Comment Request; Regulations for In Vivo Radiopharmaceuticals Used for Diagnosis and Monitoring

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act of 1995 (the PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on regulations for in vivo radiopharmaceuticals used for diagnosis and monitoring.

**DATES:** Submit written or electronic comments on the collection of information by May 13, 2002.

**ADDRESSES:** Submit electronic comments on the collection of information to <http://accessdata.fda.gov/scripts/oc/dockets/edockethome.cfm>. Submit written comments on the collection of information to the Dockets Management Branch (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. All comments should be identified with the docket number found in brackets in the heading of this document.

**FOR FURTHER INFORMATION CONTACT:**

Karen L. Nelson, Office of Information Resources Management (HFA-250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-1482.

**SUPPLEMENTARY INFORMATION:** Under the PRA (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests

or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on: (1) Whether the collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

#### Regulations for In Vivo Radiopharmaceuticals Used for Diagnosis and Monitoring (OMB Control No. 0910-0409)—Extension

FDA is requesting OMB approval of the information collection requirements contained in 21 CFR 315.4, 315.5, and 315.6. These regulations require manufacturers of diagnostic radiopharmaceuticals to submit information that demonstrates the safety and effectiveness of a new diagnostic radiopharmaceutical or of a new indication for use of an approved diagnostic radiopharmaceutical.

In response to the requirements of section 122 of the Food and Drug Administration Modernization Act of 1997 (FDAMA) (Public Law 105-115), FDA published a final rule (64 FR 26657, May 17, 1999) amending its regulations by adding provisions that clarify FDA's evaluation and approval of in vivo radiopharmaceuticals used in the diagnosis or monitoring of diseases. The regulation describes the kinds of indications of diagnostic radiopharmaceuticals and some of the criteria that the agency would use to evaluate the safety and effectiveness of a diagnostic radiopharmaceutical under section 505 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 355) and section 351 of the Public

Health Service Act (42 U.S.C. 262) (the PHS Act). Information about the safety or effectiveness of a diagnostic radiopharmaceutical enables FDA to properly evaluate the safety and effectiveness profiles of a new diagnostic radiopharmaceutical or a new indication for use of an approved diagnostic radiopharmaceutical.

The rule clarifies existing FDA requirements for approval and evaluation of drug and biological products<sup>1</sup> already in place under the authorities of the act and the PHS act. The information, which is usually submitted as part of a new drug application (NDA) or biologics license application (BLA) or as a supplement to an approved application, typically includes, but is not limited to, nonclinical and clinical data on the pharmacology, toxicology, adverse events, radiation safety assessments, and chemistry, manufacturing, and controls. The content and format of an application for approval of a new drug are set forth in § 314.50 (21 CFR 314.50). Under 21 CFR part 315, information required under the act and needed by FDA to evaluate the safety and effectiveness of in vivo radiopharmaceuticals still needs to be reported.

Based on the number of submissions (that is, human drug applications and/or new indication supplements for diagnostic radiopharmaceuticals) that FDA received during fiscal years 2000 and 2001, FDA estimates that it will receive approximately two submissions annually from two applicants. The hours per response refers to the estimated number of hours that an applicant would spend preparing the information required by the regulations. Based on FDA's experience, the agency estimates the time needed to prepare a complete application for a diagnostic radiopharmaceutical to be approximately 10,000 hours, roughly one-fifth of which, or 2,000 hours, is estimated to be spent preparing the portions of the application that would be affected by these regulations. The regulation does not impose any additional reporting burden for safety and effectiveness information on diagnostic radiopharmaceuticals beyond the estimated burden of 2,000 hours because safety and effectiveness information is already required by § 314.50 (collection of information approved by OMB until February 28, 2002, under OMB Control No. 0910-

<sup>1</sup> The information collection requirements for biological products are no longer submitted for approval to OMB in this package, but are included under OMB Control No. 0910-0124.
