## FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 96-45; DA 02-570]

### Commission Seeks Comment on BT North America, Inc.'s Expedited Petition for Clarification of the Contribution Obligations of Video Distribution Service Providers

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice; solicitation of comments.

**SUMMARY:** This document seeks comments on BT North America, Inc. Petition for Clarification of the universal service contribution obligations of non-common carrier video distribution service providers. Specifically, BT North America asks the Commission to clarify that similarly situated entities transmitting video programming on a non-common carrier basis, that do not compete with common carriers, should be exempted from contributing on the basis of revenues derived from these services.

**DATES:** Comments are due on or before April 9, 2002. Reply comments are due on or before April 19, 2002.

**ADDRESSES:** See **SUPPLEMENTARY INFORMATION** section for where and how to file comments.

**FOR FURTHER INFORMATION CONTACT:** Paul Garnett, Attorney, Accounting Policy Division, Common Carrier Bureau, (202) 418-7400, TTY: (202) 418-0484.

**SUPPLEMENTARY INFORMATION:** On February 6, 2002, BT North America, Inc. (BT North America) filed a Petition for Clarification of the universal service contribution obligations of non-common carrier video distribution service providers. Specifically, BT North America asks the Commission to clarify that similarly situated entities transmitting video programming on a non-common carrier basis, that do not compete with common carriers, should be exempted from contributing on the basis of revenues derived from these services. Universal service contributions are based on a contributor's interstate and international revenues derived from domestic end users for telecommunications or telecommunications services. The

Commission has previously stated that, consistent with section 254(d) of the Act, open video systems, cable leased access, and direct broadcast satellite (DBS) providers must contribute to universal service for revenues derived from the provision of interstate telecommunications services, but are not required to contribute for revenues derived from interstate telecommunications. We also note that broadcasters are not required to contribute to universal service.

BT North America asserts that the Commission's rationale for these exemptions should apply equally to its operations as well as other similarly situated entities. BT North America's Broadcast Division provides "occasional use" and "full time" broadcast services, including uplink, downlink, and transport portions of video transmission services. BT North America asserts that it does not compete with common carriers. Rather, BT North America argues that its competitors include other providers of satellite video transmission, broadcasters, DBS operators, and cable operators. We seek comment on this petition.

Pursuant to §§ 1.415 and 1.419 of the Commission's rules, interested parties may file comments are due on or before April 9, 2002 and reply comments are due on or before April 19, 2002.
