

AS355E, AS355F, AS355F1, AS355F2, AS355N, AS-365N2, AS-365N3, SA-365N, and SA-365N1 helicopters, with a SIREN load release unit (cargo hook), part number (P/N) AS21-5-1 through -7, and a cargo hook serial number less than 415, installed, certificated in any category.

Note 1: This AD applies to each helicopter identified in the preceding applicability provision, regardless of whether it has been otherwise modified, altered, or repaired in the area subject to the requirements of this AD. For helicopters that have been modified, altered, or repaired so that the performance

of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (b) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required before the next flight utilizing the cargo hook, unless accomplished previously.

To prevent failure of a cargo hook, inability to release a load creating an additional hazard in an emergency situation, and subsequent loss of control of a helicopter, accomplish the following:

(a) With the cargo hook in the no-load position, measure the clearance "J" in accordance with Figure 1 of this AD. Remove any cargo hook if clearance "J" (see Figure 1) is equal to or greater than 14 millimeters (0.55 inches).

Operators shall submit their requests through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Regulations Group.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Regulations Group.

(c) Special flight permits will not be issued allowing use of the affected cargo hook.

Reporting Requirements for Disability-Related Complaints

AGENCY: Office of the Secretary, Department of Transportation (DOT).

FOR FURTHER INFORMATION CONTACT: Jonathan Dols, Office of the General Counsel, Department of Transportation, 400 7th Street, SW., Room 4116, Washington, DC 20590, 202-366-6828 (voice), (202) 366-0511 (TTY), 202-366-7152 (fax), or jonathan.dols@ost.dot.gov (email). Arrangements to receive this document in an alternative format may be made by contacting the above named individual.

SUPPLEMENTARY INFORMATION: On March 8, 2002, the Air Transport Association of America (ATA) and the Regional Airline Association (RAA) filed a request to extend to June 1, 2002, the comment period on the Department's proposed rule requiring certain foreign and domestic air carriers to report disability-related complaints (see 67 FR 6892, February 14, 2002). In their request, ATA and RAA stated that they and their members need additional time to analyze the proposed rule, to assess its impact, to devise an appropriate survey, and to develop substantive recommendations. They maintain that additional time will yield more insightful comments that will, in turn, improve the final rule. The Department concurs that an extension of the comment period is necessary to allow members of industry sufficient time to analyze the impact of the proposed rule and determines that this extension

would not unduly affect the public's or the government's interest. Moreover, the Department has not received any objection to the extension of time requested by ATA and RAA.

Accordingly, the Department finds that this constitutes good cause to extend the comment period on the proposed rule from April 15, 2002, to June 1, 2002.

Issued in Washington, DC this 3rd day of April, 2002, under authority delegated to me by 14 CFR 385.17(c).

Robert C. Ashby,

Deputy Assistant General Counsel for Regulation and Enforcement, U.S. Department of Transportation.

SUPPLEMENTARY INFORMATION:

Background

Section 150 of the Internal Revenue Code (Code) provides certain definitions and special rules for purposes of applying the tax-exempt bond limitations contained in sections 103 and 141 through 150. On June 18, 1993, final regulations (TD 8476) under section 150 were published in the **Federal Register** (58 FR 33510). On May 9, 1997, additional final regulations (TD 8718) under section 150 were published in the **Federal Register** (62 FR 25502). This document proposes to modify the definition of refunding issue under § 1.150-1(d).

Explanation of Provisions

Section 1.150-1(d) of the current regulations provides a definition of *refunding issue*. In general, a refunding issue is an issue of obligations the proceeds of which are used to pay principal, interest, or redemption price on another issue. The current regulations contain certain exceptions to this general rule. One exception (the *change in obligor exception*) provides that an issue is not a refunding issue to the extent that the obligor of one issue is neither the obligor of the other issue nor a related party with respect to the obligor of the other issue. Another exception (the *six-month exception*) provides that if a person assumes (including taking subject to) obligations of an unrelated party in connection with an asset acquisition (other than a transaction to which section 381(a) applies if the person assuming the obligation is the acquiring corporation within the meaning of section 381(a)), and the assumed issue is refinanced within six months before or after the date of the debt assumption, the refinancing issue is not treated as a refunding issue.

Section 1.150-1(b) of the current regulations provides that the term *related party* means, in reference to a governmental unit or a 501(c)(3) organization, any member of the same controlled group. Section 1.150-1(e) of the current regulations provides that the term *controlled group* means a group of entities controlled directly or indirectly by the same entity or group of entities. The determination of control is made on the basis of all the relevant facts and circumstances. One entity or group of entities (the *controlling entity*) generally controls another entity or group of
