BILLING CODE 7515-01-U

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR part 31, General Domestic Licenses for Byproduct Material.

2. *Current OMB approval number:* 3150-0016.

3. *How often the collection is required:* Reports are submitted as events occur. Registration certificates may be submitted at any time. Changes to the information on the registration certificate are submitted as they occur.

4. *Who is required or asked to report:* Persons receiving, possessing, using, or transferring byproduct material in certain items.

5. *The number of annual respondents:* Approximately 7,600 NRC general licensees and 22,800 Agreement State general licensees.

6. *The number of hours needed annually to complete the requirement or request:* 45,825 (10,393 hours for NRC licensees [1902 recordkeeping and 8491 reporting or an average of 0.6 hours per response] and 35,432 hours for Agreement State licensees [5705 recordkeeping and 29,727 reporting or an average of 0.5 hours per response]).

7. *Abstract:* 10 CFR part 31 establishes general licenses for the possession and use of byproduct material in certain items and a general license for ownership of byproduct material. General licensees are required to keep records and submit reports identified in Part 31 in order for NRC to determine with reasonable assurance that devices are operated safely and without

radiological hazard to users or the public.

Submit, by June 17, 2002, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room located at One White Flint North, 11555 Rockville Pike, Rockville, MD. OMB clearance requests are available at the NRC World Wide Web Site (<http://www.nrc.gov/public-involve/doc-comment/omb/index.html>). The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 E-6, Washington, DC, 20555-0001, or by telephone at 301-415-7233, or by Internet electronic mail at INFOCOLLECTS@NRC.GOV.

Dated at Rockville, Maryland, this 10th day of April, 2002.

For the Nuclear Regulatory Commission.

Beth C. St. Mary,

Acting NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-285]

Omaha Public Power District (OPPD), Fort Calhoun Station, Unit 1; Notice of Receipt of Application for Renewal of Facility Operating License No. DPR-40 for an Additional 20-Year Period

The U.S. Nuclear Regulatory Commission (NRC or Commission) is considering an application for the renewal of Operating License No. DPR-40, which authorizes the Omaha Public Power District to operate Fort Calhoun Station, Unit 1 (FCS), at 1500 megawatts thermal. The renewed license would authorize the applicant to operate FCS for an additional 20 years beyond the

period specified in the current license or forty years from the date of issuance of the new license, whichever occurs first. The current operating license for FCS expires on August 9, 2013.

The Omaha Public Power District submitted an application to renew the operating license for FCS, on January 11, 2002. A Notice of Receipt of Application, "Omaha Public Power District (OPPD), Fort Calhoun Station, Unit 1; Notice of Receipt of Application for Renewal of Facility Operating License Nos. DPR-40 for an Additional 20-Year Period," was published in the **Federal Register** on February 12, 2002 (67 FR 6551).

The NRC staff has determined that the Omaha Public Power District has submitted information in accordance with 10 CFR 54.19, 54.21, 54.22, 54.23, and 51.53(c) that is complete and acceptable for docketing. The current Docket No. 50-285 for Operating License No. DPR-40, will be retained. The docketing of the renewal application does not preclude requesting additional information as the review proceeds, nor does it predict whether the Commission will grant or deny the application.

Before issuance of each requested renewed license, the NRC will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the NRC's rules and regulations. In accordance with 10 CFR 54.29, the NRC will issue a renewed license on the basis of its review if it finds that actions have been identified and have been or will be taken with respect to (1) managing the effects of aging during the period of extended operation on the functionality of structures and components that have been identified as requiring aging management review, and (2) time-limited aging analyses that have been identified as requiring review, such that there is reasonable assurance that the activities authorized by the renewed license will continue to be conducted in accordance with the current licensing basis (CLB) and that any changes made to the plant's CLB comply with the Act and the Commission's regulations.

Additionally, in accordance with 10 CFR 51.95(c), the NRC will prepare an environmental impact statement that is a supplement to the Commission's NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Power Plants" (May 1996). Pursuant to 10 CFR 51.26, and as part of the environmental scoping process, the staff intends to hold a public scoping meeting. Detailed information regarding this meeting will be included in a future **Federal Register** notice. The

Commission also intends to hold public meetings to discuss the license renewal process and the schedule for conducting the review. The Commission will provide prior notice of these meetings. As discussed further herein, in the event that a hearing is held, issues that may be litigated will be confined to those pertinent to the foregoing.

By May 15, 2002, the applicant may file a request for a hearing, and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene with respect to the renewal of the licenses in accordance with the provisions of 10 CFR 2.714. Interested persons should consult a current copy of 10 CFR 2.714, which is available at the Commission's Public Document Room, 11555 Rockville Pike (first floor) Rockville, Maryland, and on the NRC Web site at <http://www.nrc.gov> (the Electronic Reading Room). If a request for a hearing or a petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request(s) and/or petition(s), and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order. In the event that no request for a hearing or petition for leave to intervene is filed by the above date, the NRC may, upon completion of its evaluations and upon making the findings required under 10 CFR parts 51 and 54, renew the licenses without further notice.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding, taking into consideration the limited scope of matters that may be considered pursuant to 10 CFR parts 51 and 54. The petition must specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order that may be entered in the proceeding on the petitioner's interest. The petition must also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave

to intervene or who has been admitted as a party may amend the petition without requesting leave of the board up to 15 days before the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days before the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene that must include a list of the contentions that the petitioner seeks to have litigated in the hearing. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of each contention and a concise statement of the alleged facts or the expert opinion that supports the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. The petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the action under consideration. The contention must be one that, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement that satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

Requests for a hearing and petitions for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, 11555 Rockville Pike (first floor), Rockville, Maryland, 20852-2738, by the above date. A copy of the request for a hearing and the petition to intervene should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to Mr. Ross T. Ridenoure, Division Manager—Nuclear Operations,

Omaha Public Power District, Fort Calhoun Station FC-2-4 Adm, Post Office Box 550, Fort Calhoun, Nebraska, 68023-0550.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions, and/or requests for a hearing will not be entertained absent a determination by the Commission, the presiding officer, or the Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

Detailed information about the license renewal process can be found under the nuclear reactors' icon of the NRC's Web page at <http://www.nrc.gov>.

A copy of the application is available for public inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, or on the NRC Web site from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The staff has verified that a copy of the license renewal application for Fort Calhoun Station, Unit 1 has been provided to the Blair Public Library located in Blair, Nebraska, and the W. Dale Clark Library in Omaha, Nebraska.

Dated at Rockville, Maryland, the 11th day of February 2002.

For the Nuclear Regulatory Commission.

Pao-Tsin Kuo,

Program Director, License Renewal and Environmental Impacts, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Sunshine Act Meeting

DATE: Weeks of April 15, 22, 29, May 6, 13, 20, 2002.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of April 15, 2002

There are no meetings scheduled for the Week of April 15, 2002.

Week of April 22, 2002—Tentative

There are no meetings scheduled for the Week of April 22, 2002.
