

regulation. EPA also may not issue a regulation that has federalism implications and that preempts State law unless the Agency consults with State and local officials early in the process of developing the proposed regulation.

This rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, because it merely approves a state rule implementing a federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. Thus, the requirements of section 6 of the Executive Order do not apply to this rule.

D. Executive Order 13175

This final rule does not have tribal implications. It will not have substantial direct effects on tribal governments, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes, as specified in Executive Order 13175. Thus, Executive Order 13175 does not apply to this rule.

E. Executive Order 13211

This rule is not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866.

F. Regulatory Flexibility

The Regulatory Flexibility Act (RFA) generally requires an agency to conduct a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and small governmental jurisdictions.

This rule will not have a significant impact on a substantial number of small entities because consistency updates under section 328(a) of the Act do not create any new requirements but simply approve requirements that the State is already imposing. Therefore, because the consistency update approval does not create any new requirements, I certify that this action will not have a significant economic impact on a

substantial number of small entities. Moreover, due to the nature of the Federal-State relationship under the Clean Air Act, preparation of flexibility analysis would constitute Federal inquiry into the economic reasonableness of state action.

G. Unfunded Mandates

Under sections 202 of the Unfunded Mandates Reform Act of 1995 ("Unfunded Mandates Act"), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated costs to State, local, or tribal governments in the aggregate; or to the private sector, of \$100 million or more. Under section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the approval action promulgated does not include a Federal mandate that may result in estimated costs of \$100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This Federal action approves pre-existing requirements under State or local law, and imposes no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

H. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2). This rule will be effective May 28, 2002.

I. National Technology Transfer and Advancement Act

Section 12 of the National Technology Transfer and Advancement Act (NTTAA) of 1995 requires Federal agencies to evaluate existing technical standards when developing a new regulation. To comply with NTTAA, EPA must consider and use "voluntary consensus standards" (VCS) if available and applicable when developing programs and policies unless doing so would be inconsistent with applicable law or otherwise impractical.

The EPA believes that VCS are inapplicable to this action. Today's action does not require the public to perform activities conducive to the use of VCS.

J. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 25, 2002. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Delegation of New Source Performance Standards and National Emission Standards for Hazardous Air Pollutants for Guam and the States of Arizona, California, Hawaii, and Nevada

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is finalizing updates for delegation of certain federal standards to state and local agencies in Region IX. This document is addressing general authorities mentioned in the regulations for New Source Performance Standards

and National Emission Standards for Hazardous Air Pollutants, updating the delegations tables and clarifying those authorities that are retained by EPA. These revisions were proposed in the **Federal Register** on January 14, 2002.

EFFECTIVE DATE: This rule is effective on May 28, 2002.

ADDRESSES: You can inspect copies of the administrative record for this action at EPA's Region IX office during normal business hours at the following location: U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

Please contact Cynthia G. Allen at (415) 947-4120 to arrange a time if inspection of the supporting information is desired.

FOR FURTHER INFORMATION CONTACT: Cynthia G. Allen at (415) 947-4120 or Mae Wang at (415) 947-4124, U.S. Environmental Protection Agency, Region IX, Rulemaking Office (AIR-4), 75 Hawthorne Street, San Francisco, California 94105.

SUPPLEMENTARY INFORMATION: The supplementary information is organized in the following order:

What Is the Purpose of This Document?

Through this document, EPA is accomplishing the following objectives:

(1) update the delegations tables in the Code of Federal Regulations, Title 40 (40 CFR), parts 60 and 61, to provide an accurate listing of the delegated standards; and

(2) clarify those authorities that are retained by EPA and not granted to state or local agencies as part of delegation. These actions were proposed on January 14, 2002, (67 FR 1676) and are described below.

Update of Tables in the CFR

Today's action will update the delegation tables in 40 CFR parts 60 and 61, to allow easier access by the public to the status of delegations in various state or local jurisdictions. The updated delegation tables will include the delegations approved in response to recent requests, as well as those previously granted. The tables are shown at the end of this document. EPA is also updating the addresses for state and local agencies within the jurisdiction of EPA Region IX.

Recent requests for delegation that will be incorporated into the updated CFR tables are identified below. Each individual submittal identifies the specific NSPS and NESHAPs for which delegation was requested. Some of these requests have already been approved and simply need to be included in the CFR. For requests listed below that have not yet been approved, EPA will consider these delegation requests as approved on the effective date of this final rule.

Agency	Date of request
Arizona Department of Environmental Quality.	May 29, 1998, and October 6, 1999.
Kern County Air Pollution Control District.	February 8, 1995, January 20, 2000, and May 18, 2001.
Lake County Air Quality Management District.	February 24, 1997.
Mendocino County Air Quality Management District.	May 21, 1999.
Sacramento Metropolitan Air Quality Management District.	August 7, 1995, April 24, 1997, and July 7, 1998.
San Diego Air Pollution Control District.	June 23 and December 24, 1999.
San Joaquin Valley Unified Air Pollution Control District.	May 27, 1999, and June 26, 2000.
Santa Barbara County Air Pollution Control District.	August 6, 1996.
South Coast Air Quality Management District.	February 20, 2002.
Ventura County Air Pollution Control District.	February 9, 1995.
Yolo-Solano Air Quality Management District.	October 20, 1998.

Today's action is also updating the names and addresses of local air pollution control districts (APCDs) as listed in the CFR. The addresses and delegation tables will reflect the following changes:

- The San Joaquin Valley Unified APCD assumed the authority and duties of Fresno County APCD, Kings County APCD, the San Joaquin Valley Air Basin portion of Kern County APCD, Madera County APCD, Merced County APCD, San Joaquin County APCD, Stanislaus County APCD, and Tulare County APCD. The Kern County Air Pollution Control District still exists, but only has authority over the Southeast Desert Air Basin portion of Kern County.

- The North Coast Unified APCD assumed the authorities and duties of Del Norte County APCD, Humboldt

County APCD, and Trinity County APCD.

- The Mojave Desert Air Quality Management District assumed the authorities and duties of the San Bernadino County APCD, and includes all of the County of San Bernadino that is not included within the boundaries of the South Coast Air Quality Management District.

- The Antelope Valley APCD was created and has responsibility over the Los Angeles County portion of the Mojave Desert Air Basin.

In the future, EPA Region IX may establish a new procedural option for state and local agencies to receive delegation of 40 CFR parts 60 and 61 standards. If an agency has delegation of a standard, then the new procedure may allow that agency to receive delegation of any amendments to that standard as they are adopted by reference. The details of any new procedure will be described in a future rulemaking action before it is implemented. It is being mentioned here for informational purposes only.

Clarification of Non-Delegable Authorities

In February 1999, EPA released a guidance document entitled, "How to Review and Issue Clean Air Act Applicability Determinations and Alternative Monitoring—NSPS & NESHAPS, (EPA 305-B-99-004)." In accordance with this guidance, today's action clarifies the NSPS and NESHAP authorities that are not delegated to state and local agencies under Clean Air Act Sections 111 and 112. These clarifications will be codified at 40 CFR 60.4(d) and 61.04(c)(9). Today's action also requests that state and local agencies exclude the non-delegable subsections from future delegation requests, and informs the public of our intention to appropriately revise future delegation letter approvals and **Federal Register** announcements.

Who Is Authorized To Delegate These Authorities?

Sections 111(c)(1) and 112(l) of the Clean Air Act, as amended in 1990, authorize the Administrator to delegate his or her authority for implementing and enforcing standards in 40 CFR parts 60 and 61.

What Does Delegation Accomplish?

Delegation grants a state or local agency the primary authority to implement and enforce federal standards. All required notifications and reports should be sent to the delegated state or local agency, as appropriate, with a copy to EPA Region IX.

Acceptance of delegation constitutes agreement by the state or local agency to follow 40 CFR parts 60 and 61, and EPA's test methods and continuous monitoring procedures.

What Authorities Are Not Delegated By EPA?

In general, EPA does not delegate to state or local agencies the authority to make decisions that are likely to be nationally significant, or alter the stringency of the underlying standards. For a more detailed description of the authorities in 40 CFR parts 60 and 61 that are retained by EPA, please see the proposed rule published on January 14, 2002 (67 FR 1676).

As additional assurance of national consistency, state and local agencies must send to EPA Region IX Air Division's Enforcement Office Chief a copy of any written decisions made pursuant to the following delegated authorities:

- Applicability determinations that state a source is not subject to a rule or requirement;
- Approvals or determination of construction, reconstruction or modification;
- Minor or intermediate site-specific changes to test methods or monitoring requirements; or
- Site-specific changes or waivers of performance testing requirements.

For decisions that require EPA review and approval (for example, major changes to monitoring requirements), EPA intends to make determinations in a timely manner.

In some cases, the standards themselves specify that specific provisions cannot be delegated. State and local agencies should review each individual standard for this information.

Does EPA Keep Some Authority?

EPA retains independent authority to enforce the standards and regulations of 40 CFR parts 60 and 61.

Public Comments

EPA received one comment in response to the proposed rulemaking published on January 14, 2002, (67 FR 1676). This comment points out discrepancies in the delegations tables, but does not affect the overall action of this rule. The comment was sent from the South Coast Air Quality Management District (SCAQMD), and notes that the delegation of 40 CFR part 60, subpart RRR, was omitted from the tables. This has been corrected in today's action. The SCAQMD also requested delegation for 40 CFR part 60, subparts Eb, Ec, and WWW. A request for delegation for these standards was

received on February 20, 2002, and is being approved in today's rule.

Changes From Proposal

EPA has made changes to the delegations tables that were proposed on January 14, 2002 (67 FR 1676). These changes are a result of the public comments received, as well as corrections to the headings and delegation status for various local agencies. The NESHAP delegations table for Nevada was omitted in the proposed rulemaking and has been added to this final rule. None of the changes affect the overall action that was proposed.

Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4).

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action also does not have Federalism implications because it does not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal standard, and does not alter the

relationship or the distribution of power and responsibilities established in the Clean Air Act. This rule also is not subject to Executive Order 13045, "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing delegation requests, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a delegation request for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a request for delegation, to use VCS in place of a submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

The Congressional Review Act, 5 U.S.C. section 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. section 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 25, 2002. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2)).

PART 61—[AMENDED]

1. The authority citation for part 61 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart A—General Provisions

2. Section 61.04 is amended:

a. In paragraph (a) by revising the address for “Region IX”.

b. By revising paragraph (b)(D).

c. By revising paragraph (b)(F).

d. By revising paragraph (b)(M).

e. By revising paragraph (b)(DD).

f. By adding paragraph (b)(AAA).

g. By adding paragraph (b)(DDD).

h. By adding paragraph (b)(EEE).

i. By adding paragraph (c)(9).

The revisions read as follows:

§ 61.04 Address.
