

firm point-to-point transmission service rate (Rate Schedule PD-FT6), the firm point-to-point transmission service rate for Salt Lake City Area Integrated Projects Power (Rate Schedule PD-FCT6) and the nonfirm point-to-point transmission service rate (Rate Schedule PD-NFT6). This existing rate methodology ensures rates are set to collect annual revenues sufficient to recover annual expenses (including interest) and capital requirements, thus ensuring repayment of the project within the cost-recovery criteria set forth in DOE Order RA 6120.2. Under the existing rate methodology, the revenue requirements for generation and transmission are determined annually based on FY projections in the cost apportionment study. The cost apportionment study allocates all P-DP expenses and other revenues between generation and transmission. The revenue requirement for generation determines the amount of funds to collect through firm power service rates for capacity and energy. Similarly, the revenue requirement for transmission determines the amount of funds to collect through firm point-to-point transmission service rates.

During this extension period of the existing rate methodology, Western will initiate a rate adjustment process in accordance with procedures for public participation in power and transmission rate adjustments in 10 CFR part 903. Western anticipates this rate adjustment process to begin when audited financial data for FY 2001 and FY 2002 becomes available. In the meantime, Western will continue to conduct informal customer meetings to ensure involvement of interested parties in the rate process.

All documents made or kept by Western for developing the proposed extension of the P-DP rate methodology for firm power service and firm and nonfirm point-to-point transmission service will be made available for inspection and copying at the Desert Southwest Customer Service Region, located at 615 South 43rd Avenue, Phoenix, Arizona.

Within 90 days after publication of this notice, Rate Order No. WAPA-98 will be submitted to the Deputy Secretary for approval through September 30, 2004.

Dated: April 30, 2002.

Michael S. Hacskeylo,
Administrator.
