This table is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this table could also be affected. The North American Industrial Classification System (NAICS) codes are provided to assist you and others in determining whether or not this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

II. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

A. Electronically

You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. On the Home Page select "Laws and Regulations," "Regulations and Proposed Rules," and then look up the entry for this document under the "Federal Register—Environmental Documents." You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>.

B. Fax-on-Demand

Using a faxphone call (202) 564-3119 and select item 4088 for a copy of the ICR.

C. In Person

The Agency has established an official record for this action under docket ID number OPPT-2002-0002 and administrative record number AR-239. The official record consists of the documents specifically referenced in this action, any public comments received during an applicable comment period, and other information related to this action, including any information claimed as Confidential Business Information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period, is available for inspection in the TSCA Nonconfidential Information Center, North East Mall Rm. B-607, Waterside Mall, 401 M St., SW., Washington, DC. The Center is open from noon to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Center is (202) 260-7099.

III. What Action is EPA taking?

EPA is extending the comment period for the proposed renewal of the following ICR: TSCA Section 8(c) Health and Safety Data Reporting Rule (EPA ICR No. 1031.07, OMB No. 2070-0017). EPA announced a 30-day comment period for this proposed ICR renewal in the **Federal Register** on April 16, 2002 (67 FR 18604). In that document, you will find a complete description of the ICR, as well as detailed instructions for submitting comments. This document announces a 30-day extension of the comment period in order to provide the public with 60 days to comment, pursuant to the PRA. Comments must be received on or before June 17, 2002.

As described in Unit III. of the document announcing the proposed ICR renewal that published in the **Federal Register** on April 16, 2002 (67 FR 18604), you may submit your comments through the mail, in person, or electronically. Please follow the instructions that are provided in the document which published on April 16, 2002. Do not submit any information electronically that you consider to be CBI. To ensure proper receipt by EPA, be sure to identify docket ID number

OPPT-2002-0002 and administrative record number AR-239 in the subject line on the first page of your response.

IV. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Clean Air Act Operating Permit Program; Petitions for Objection to State Operating Permit for the Orange Recycling and Ethanol Production Facility of Pencor-Masada Oxynol, LLC

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petitions to object to a State operating permit.

SUMMARY: This document announces that the EPA Administrator has responded to several citizen petitions asking EPA to object to an operating permit issued by the New York State Department of Environmental Conservation (NYSDEC). Specifically, the Administrator has denied 14 petitions asking EPA to object to the State operating permit issued to the Orange Recycling and Ethanol Production Facility, proposed by Pencor-Masada Oxynol, LLC (Masada), for construction and operation in Middletown, NY.

Pursuant to section 505(b)(2) of the Clean Air Act (Act), petitioners may seek judicial review of this petition

response in the United States Court of Appeals for the second circuit. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307 of the Act.

ADDRESSES: You may review copies of the final order, the petitions, and other supporting information at the EPA, Region 2, 290 Broadway, New York, New York 10007-1866. If you wish to examine these documents, you should make an appointment at least 24 hours before visiting day. The final order is also available electronically at: <http://www.epa.gov/region07/programs/artd/air/title5/petitiondb/petitiondb2001.htm>.

FOR FURTHER INFORMATION CONTACT: Steven Riva, Chief, Permitting Section, Air Programs Branch, Division of Environmental Planning and Protection, EPA, Region 2, 290 Broadway, 25th Floor, New York, New York 10007-1866, telephone (212) 637-4074.

SUPPLEMENTARY INFORMATION: The Act affords EPA a 45-day period to review, and object to as appropriate, operating permits proposed by State permitting authorities. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to State operating permits if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the State, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period.

In October and November 2001, the EPA received four petitions from 14 different petitioners, requesting that EPA object to the issuance of the modified title V permit to Masada's facility. Specifically, we received separate petitions from Jeanette Nebus, Robert C. LaFleur, president of Spectra Environmental Group, Inc. (Spectra), and Deborah Glover. We also received a fourth petition with 11 signatories: Talkini Alves, Vidal Milland, Kristin Hannon, Bridgette Coppola, Nicole Young, Kathleen House, Campbell House, Susan Cohen, Debbie Carlisle, Roberta Constantino, and Elizabeth Collard.

These petitions challenged a revised permit issued on October 1, 2001, by NYSDEC for the Masada facility. NYSDEC revised the permit pursuant to a May 2, 2001 EPA order denying in part and granting in part prior title V petitions involving this facility. See 66

FR 30904, June 8, 2001. See also http://www.epa.gov/region07/programs/artd/air/title5/petitiondb/petitions/masada_decision2000.pdf. In the new petitions challenging the adequacy of the permit revisions, the petitioners allege that (1) the permit fails to include the physical or operational limits necessary to properly limit the source's PTE; (2) the permit limits actual emissions instead of potential emissions; (3) the annual emissions limits are set too close to major thresholds; (4) the hourly emissions limits have too long an averaging period; (5) the consequences of deviations from or exceedances of permit limits are not severe enough; and (6) the inspection & maintenance measures for data from continuous emissions monitors (CEM) should be clarified. Additionally, the petitioners raise issues with respect to the applicable requirements of the Standards of Performance for Industrial-Commercial-Institutional Steam Generating Units (NSPS) Subpart Db and Executive Order 12898 on Environmental Justice. Some of the petitioners also repeat issues previously addressed in the May 2001 Order.

On April 8, 2002, the Administrator issued an order denying the petitions. The order explains the reasons behind EPA's conclusion that petitioners have failed to demonstrate that Masada's permit does not assure compliance with the Act on the grounds raised.

Dated: May 8, 2002.
