OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Procedures for Consideration of New Requests for Exclusion of Particular Products From Actions With Regard to Certain Steel Products Under Section 203 of the Trade Act of 1974, as Established in Presidential Proclamation 7529 of March 5, 2002

AGENCY: Office of the United States
Trade Representative.

ACTION: Notice.

SUMMARY: Presidential Proclamation 7529 of March 5, 2002 established actions under section 203 of the Trade Act of 1974, as amended, (19 U.S.C. 2253) (safeguard measures) with regard to certain steel products, and authorized the United States Trade Representative (USTR) to further consider requests for exclusion of particular products from the safeguard measure that had been submitted in accordance with a **Federal Register** notice published on October 26, 2001 (66 FR 54321). In a notice published on April 18, 2002, USTR established procedures for further consideration of such requests and provided that, to the extent possible, it would consider new exclusion requests submitted after the time period specified in the Notice. This notice sets

out the procedures for submitting new exclusion requests.

EFFECTIVE DATE: May 21, 2002.

FOR FURTHER INFORMATION CONTACT:

Office of Industry, Office of the United States Trade Representative, 600 17th Street, NW, Room 501, Washington DC 20508. Telephone (202) 395-5656.

SUPPLEMENTARY INFORMATION: On October 22, 2001, the U.S. International Trade Commission (ITC) issued affirmative determinations under section 202(b) of the Trade Act (22 U.S.C. 2252(b)) that (1) carbon and alloy steel slabs, plate (including cut-to-length plate and clad plate), hot-rolled sheet and strip (including plate in coils), cold-rolled sheet and strip (other than grain-oriented electrical steel), and corrosion-resistant and other coated sheet and strip; (2) carbon and alloy hot-rolled bar and light shapes; (3) carbon and alloy cold-finished bar; (4) rebar; (5) carbon and alloy welded tubular products (other than oil country tubular goods); (6) carbon and alloy flanges, fittings, and tool joints; (7) stainless steel bar and light shapes; and (8) stainless steel rod are being imported in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industries producing those products. The Commissioners voting were equally divided with respect to the determination under section 202(b) of the Trade Act as to whether increased imports of (9) carbon and alloy tin mill products; (10) tool steel, all forms; (11) stainless steel wire; and (12) stainless steel flanges and fittings are being imported in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industries producing those products.

On October 26, 2001, the Trade Policy Staff Committee (TPSC) published a **Federal Register** notice that requested comments on what action the President should take under section 203 of the Trade Act, including any exclusion requests. The TPSC received more than 200 requests, covering approximately 1000 particular products. Each request was assigned a tracking number, beginning with an X (the X number), and posted on the USTR website, http://www.ustr.gov/sectors/industry/steel201/exclusion_requests.htm.

On March 5, 2002, the President issued Proclamation 7529, which established safeguard measures in the form of increases in duty and a tariff-rate quota pursuant to section 203 of the Trade Act on imports of ten steel products described in paragraph 7 of that proclamation. Effective with respect

to goods entered, or withdrawn from warehouse for consumption, on or after 12:01 a.m., EST, on March 20, 2002, Proclamation 7529 modifies the HTS so as to provide for such increased duties and a tariff-rate quota. Proclamation 7529 also delegated to the USTR the authority to further consider exclusion requests submitted in accordance with the procedures set out in the Notice and, upon publication in the **Federal Register** of a notice of his finding that a particular product should be excluded, to modify the HTS provisions created by the Annex to that proclamation to exclude such particular product from the pertinent safeguard measure. USTR published a notice in 67 FR 16484 (April 5, 2002), excluding certain particular products from the safeguard measure.

On April 18, 2002, USTR published a notice in the **Federal Register** informing interested persons of the need for additional information with regard to both previously submitted exclusion requests and previously submitted oppositions to those requests. It instructed interested persons to provide this information in response to questionnaires available on the websites of USTR and the U.S. Department of Commerce. The notice provided further that, to the extent possible, USTR would consider requests for exclusion of products that have not received an X number. It asked interested persons requesting the exclusion of such a product to respond to the questionnaire before May 20, 2002, and indicated that procedures for submitting such additional requests for exclusion will be announced in a subsequent **Federal Register** notice.

USTR, in conjunction with the U.S. Department of Commerce, has developed a series of questions designed to elicit information for products that have not been excluded from the remedy and currently are not subject to reconsideration requests. The information required clearly identifies the product under consideration and provides detailed information on the requestor's situation. These questions, presented in the form of a new exclusion request questionnaire, are available on the USTR and Commerce Department websites at <http://ia.ita.doc.gov/steel/exclusion/>. Parties applying for an exclusion of their product from the remedy should provide responses to this questionnaire by May 20, 2002.

USTR, in conjunction with the Commerce Department, has developed a series of questions designed to substantiate any objections to these new requests for exclusion. These questions,
