2. *The Census Bureau Survey of Income and Program Participation (SIPP) on Behalf of the Social Security Administration (SSA)—0960-NEW*. SSA has requested the Census Bureau to include in its SIPP interviews scheduled for January 2003 a sample of social security disabled insurance beneficiaries and supplemental security income recipients. SSA will use these data to conduct statistical research of recipients of SSA-administered programs. The *SIPP for SSA Beneficiaries* is a household-based survey molded around a central "core" of labor force and income questions. The core is supplemented with questions designed to address specific needs, such as obtaining information about assets and liabilities, as well as expenses related to work, health care, child support and real estate/dependent care. These supplemental questions are included with the core and are referred to as "topical modules."

The survey is currently scheduled for one month and will include approximately 1,000 households. We estimate that each household will average 2.1 people, yielding 2,100 interviews. Interviews take 30 minutes on average. The total burden for the *SIPP for SSA Beneficiaries* would be 1,050 hours.

The topical modules for the *SIPP for SSA Beneficiaries* collect information about:

- Medical Expenses and Utilization of Health Care (Adults and Children)

- Work Related Expenses, Child Support Paid and Child Care Poverty
- Assets, Liabilities, and Eligibility
