POLICY JUSTIFICATION

Egypt - Upgrade of CH-47C to CH-47D CHINOOK Helicopters

The Government of Egypt has requested a possible upgrade of six CH-47C CHINOOK helicopters to the newer CH-47D configuration, spare and repair parts, support equipment, publications and technical data, communications equipment, maintenance, personnel training and training equipment, U.S. Government Quality Assurance Team, contractor representatives, contractor engineering and technical support services, preparation of aircraft for shipment, and other related elements of logistics support. The estimated cost is \$155 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

The Egyptian Armed Forces will use these helicopters for troop transport and logistics support. They may also be deployed in future joint exercises with the United States such as Operation Bright Star.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be The Boeing Company of Philadelphia, Pennsylvania. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require a U.S. contractor representative for up to two years and four additional U.S. contractor representatives for one week when the aircraft arrives. Up to eight U.S. Government Quality Assurance personnel will be required for one week following delivery of the helicopters in Egypt.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 02-28

**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act**

**Annex
Item No. vii**

(vii) Sensitivity of Technology:

1. The CH-47 CHINOOK Helicopter includes the following classified or sensitive components:

a. Radar Warning Receiver AN/APR-39A(V)3 - provides warning of a radar directed air defense threat to permit appropriate countermeasures. It is programmed with threat data provided by the purchasing country. Hardware is classified Confidential. Technical manuals for the maintenance levels are classified Confidential. Reverse engineering is not a major concern.

b. Laser Detecting Set AN/AVR-2A - is a passive laser warning system which receives, processes and displays threat information results from other aircraft illuminators, laser range finders or laser guided weapons. Hardware is classified Confidential. Reverse engineering is not a major concern.

c. Missile Approach Detector AN/ALQ-156(V)1 - is an airborne radar system, which provides infrared homing protection to the aircraft by detecting the approach of an anti-aircraft missile. Hardware is classified Confidential. Reverse engineering is not a major concern.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that Egypt can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

BILLING CODE 5001-08-C

DEPARTMENT OF DEFENSE**National Imagery and Mapping Agency****Privacy Act of 1974; System of Records**

AGENCY: National Imagery and Mapping Agency, DoD.

ACTION: Notice to delete and alter a system of records.

SUMMARY: The National Imagery and Mapping Agency (NIMA) is deleting one notice and altering another system of

records notice in its existing inventory of record systems subject to the Privacy Act of 1974, (5 U.S.C. 552a), as amended.

The alteration consolidates two existing NIMA systems of records into one system (B0210-07, entitled "Inspector General Investigative and Complaint Files") and proposes to exempt B0210-07 by adding a (k)(2) and (k)(5) exemption. The exemptions will increase the value of the system of records for law enforcement purposes, and will protect the privacy of individuals identified in the system of records.

DATES: This proposed action will be effective without further notice on July

5, 2002 unless comments are received which result in a contrary determination.

ADDRESSES: Comments should be sent to the National Imagery and Mapping Agency, Office of General Counsel, 4600 Sangamore Avenue, Bethesda, MD 20816-5003.

FOR FURTHER INFORMATION CONTACT: Ms. Christine May on (301) 227-4142.

SUPPLEMENTARY INFORMATION: The National Imagery and Mapping Agency systems of records notices subject to the Privacy Act of 1974, (5 U.S.C. 552a), as amended, have been published in the **Federal Register** and are available from the address above.
