

DEPARTMENT OF EDUCATION**[CFDA No. 84.341A]****Office of Vocational and Adult Education, Community Technology Centers Program; Notice Inviting Applications for New Awards for Fiscal Year (FY) 2002**

Note to Applicants: This notice is a complete application package. Together with the statute authorizing the program and the Education Department General Administrative Regulations (EDGAR), this notice contains all of the information, application forms, and instructions you need to apply for a grant under this competition.

Purpose of Program: The purpose of the Community Technology Centers program is to assist eligible applicants to create or expand community technology centers that will provide disadvantaged residents of economically distressed urban and rural communities with access to information technology and related training.

For FY 2002, the competition for new awards focuses on projects that fulfill the purpose of the program and that address the priorities we describe in the PRIORITIES section of this notice.

Eligible Applicants: Community-based organizations, including faith-based organizations, State and local educational agencies, institutions of higher education, entities such as foundations, libraries, museums and other public and private nonprofit organizations or for-profit businesses. To be eligible, an applicant must also have the capacity to significantly expand access to computers and related services for disadvantaged residents of economically distressed urban and rural communities (who would otherwise be denied such access).

An individual elementary or secondary school is not eligible to apply for a grant unless it is a charter school that is a local educational agency under State law or it is a school funded by the Bureau of Indian Affairs that meets the requirements established by 20 U.S.C. 9101(26)(C). A group of eligible entities is also eligible to receive a grant if the group follows the procedures for group applications in 34 CFR 75.127–129 of EDGAR.

Note: An eligible applicant may submit only one application for this competition, but may propose to carry out projects or activities at multiple sites in a single application.

Deadline for Transmittal of Applications: July 19, 2002.

Deadline for Intergovernmental Review: September 17, 2002.

Notification of Intent to Apply for Funding: We can expedite the review of

applications and the final award of funds if we know beforehand approximately how many entities intend to apply for funding. Therefore, we strongly encourage each potential applicant to send by June 28, 2002 a brief notification of your intent to submit an application to the following address: ctc@ed.gov.

Please put "Notice of Intent" in the subject line. The notification of intent to apply for funding is optional and should not include information regarding the proposed application. Eligible applicants that fail to provide the notification can still submit an application for funding.

You must limit Part III to the equivalent of no more than 40 pages using the following standards:

- A "page" is 8.5" x 11", on one side only, with 1" margins at the top, bottom, and both sides.
- Double space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, references, and captions, as well as all text in charts, tables, figures, and graphs.

We will reject your application if: You apply these standards and exceed the page limit; or

You apply other standards and exceed the equivalent of the page limit.

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 75, 77, 79, 80, 81, 82, 85, 86, 97, 98 and 99.

SUPPLEMENTARY INFORMATION:**Description of Program**

These grants are authorized by Title V, Part D, Subpart 11, section 5511 *et seq.* of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the No Child Left Behind Act of 2001 (20 U.S.C. 7263).

Grant recipients must use funds provided under this program to create or expand community technology centers that expand access to information technology and related training for disadvantaged residents of distressed urban and rural communities. The Community Technology Centers program is fundamentally an education program. The focus of successful projects will be on using technology as a tool to improve learning outcomes, rather than on simply providing individuals with access to technology as an end in itself. Teaching and learning should be at the core of each project's activities.

Program Evaluation

Recipients also must use grant funds to carry out an evaluation of the effectiveness of the project. Effectiveness should be measured on the basis of the actual learning gains achieved by project participants as determined by standardized assessments or other objective measures. The effectiveness of adult education and family literacy instruction provided by each project should be measured on the basis of the literacy skill gains made by the adult learners served by the project, as well as other outcomes, such as the receipt of a high school diploma or its equivalent, placement in employment or enrollment in postsecondary education.

Reporting Requirements

Applicants should be aware that, following the award of grants, we anticipate establishing reporting requirements for projects funded under this competition that will collect data on these and other outcomes for adult learners, using similar procedures as those used for the National Reporting System (NRS) for the Adult Education and Family Literacy Act. To determine educational gain for NRS, local adult education programs assess students at

intake to determine their educational functioning level. There are four educational functioning levels for adult basic education, two for adult secondary education, and six levels for English-as-a-second language students. Each level describes a set of skills and competencies that students entering at that level can do in the areas of reading, writing, numeracy, speaking, and listening. Using these descriptors as guidelines, programs determine an initial level in which to place an entering student based on a standardized assessment procedure. After a pre-determined amount of instruction or time period, the program conducts a follow-up assessment of the student and uses the functioning level descriptors to determine whether the student has advanced one or more levels or is progressing within the same level. More information about the NRS procedures is available at: <http://www.air-dc.org/nrs/DraftGuidelines.htm>.

Consistent with the Paperwork Reduction Act, we will provide an opportunity for public review and comment prior to establishing any reporting requirements.

Applicants should anticipate and plan for the costs of student assessments and other associated evaluation activities in preparing the proposed budgets they submit with their applications.

Adult Education and Literacy

As the nation moves from an industrial-based to a service- and knowledge-based economy, there is widespread agreement that adults and youth need a higher level of academic knowledge, greater competency in information analysis and problem-solving, and a different mix of technical and technology skills. Unable to gain a foothold in this emerging new economy are the millions of adults who lack basic skills, proficiency in English, or a high school diploma or its equivalent.

Literacy in the Labor Force (1999), an analysis of data collected as part of the 1992 National Adult Literacy Survey, found that adults with the lowest literacy skills were four to seven times more likely to be unemployed than those with the highest literacy skills. When individuals with the lowest literacy skills did obtain employment, they earned nearly a third less than adults with the highest literacy skills. The Literacy in the Labor Force report is available on the website of the National Center for Education Statistics at: <http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=1999470>.

Community technology centers can provide new opportunities for these

individuals to upgrade their skills so that they can move into postsecondary education and obtain better-paying jobs. Technology-supported instruction can increase access to adult education by providing learning opportunities at convenient times and locations. Instruction can be individualized to suit different learning styles, interests and levels of mastery. Learning time can be used more efficiently, enabling adult learners to move at their own pace. In some cases, technology-facilitated instruction can help students learn technology and technical skills at the same time that it addresses literacy needs.

In addressing the absolute priority this competition establishes for projects that provide adult education and family literacy activities, applicants may provide either or both adult education and family literacy, depending upon their own priorities and resources and the needs of the communities they serve. We also wish to emphasize that adult basic and adult secondary education instruction, and not only instruction designed to prepare individuals for the GED examination, are allowable uses of funds.

Other Authorized Uses of Funds

Grant funds also may be used to carry out other activities authorized by section 5513(b) of the statute, such as career development and job preparation activities, after-school academic enrichment activities for children and youth, and small business assistance activities. Other authorized activities include, among other things, support for personnel, equipment, networking capabilities, and other infrastructure costs. No funds may be used for construction costs.

Definitions: In addition to definitions in the statute and EDGAR, the following definitions apply:

Adult education means services or instruction below the postsecondary level for individuals—

- (a) Who have attained 16 years of age;
- (b) Who are not enrolled or required to be enrolled in secondary school under State law; and
- (c) Who—

(1) Lack sufficient mastery of basic educational skills to enable the individuals to function effectively in society;

(2) Do not have a secondary school diploma or its recognized equivalent, and have not achieved an equivalent level of education; or

(3) Are unable to speak, read, or write the English language.

Economically distressed means a county or equivalent division of local

government of a State (or a portion thereof) in which, according to the most recent available data from the United States Bureau of the Census, a significant percentage of the residents have an annual income that is at or below the poverty level.

Language instruction educational programs means programs of instruction designed to help adults and out-of-school youth of limited English proficiency achieve competence in the English language.

Application Narrative: Applicants must submit an application that includes:

(a) A description of the proposed project, including a description of the magnitude of the need for the services and how the project would expand access to information technology and related services to disadvantaged residents of an economically distressed urban or rural community.

(b) A demonstration of—

(1) The commitment, including the financial commitment, of entities (such as institutions, organizations, business and other groups in the community) that will provide support for the creation, expansion, and continuation of the proposed project; and

(2) The extent to which the proposed project coordinates with other appropriate agencies, efforts, and organizations providing services to disadvantaged residents of an economically distressed urban or rural community.

(c) A description of how the proposed project would be sustained once the Federal funds awarded under the grant end.

(d) A plan for the evaluation of the program, which shall include benchmarks to monitor progress toward specific project objectives.

Priorities

Absolute Priority: This competition focuses on projects designed to meet a priority that we have chosen from allowable activities specified in the program statute (see 34 CFR 75.105(b)(2)(v) and section 5513(b)(3)(B)(i) of the ESEA (20 U.S.C. 7263b(b)(3)(B)(i)).

Specifically, this competition establishes an absolute priority for projects that, at a minimum, provide adult education and family literacy activities through technology and the Internet, including General Education Development (GED), Language Instruction Educational Programs, and adult basic education classes or programs. Under 34 CFR 75.105(c)(3), we consider only applications that meet this absolute priority.

This absolute priority does not preclude projects from offering additional services authorized by the statute. However, they must, at a minimum, provide adult education and family literacy activities through technology and the Internet.

Competitive Priority: Within this absolute priority for this competition for FY 2002, we award, under section 34 CFR 75.105(c)(2)(i) and 34 CFR 75.255, an additional 5 points to an application from an otherwise eligible applicant that is a novice applicant. We award these points in addition to points that we award the applicant under the selection criteria. Thus, a novice applicant could earn a maximum of 110 points.

Note: A novice applicant is an applicant that, either individually or as a member of a consortium, has never received a grant under the Community Technology Centers program and has not received a discretionary grant from the Federal Government during the preceding five years (see 34 CFR 75.225(a)).

Waiver of Proposed Rulemaking

Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed priorities and other program requirements. However, section 437(d)(1) of the General Education Provisions Act exempts from formal rulemaking requirements, regulations governing the first grant competition under a new or substantially revised program authority (20 U.S.C. 1232(d)(1)). The program authority for the Community Technology Centers program was substantially revised on January 8, 2002 by section 5511 of Pub. Law 107-110. In order to make awards on a timely basis, the Secretary has decided to issue this notice without first publishing proposed priorities and requirements for public comment. These priorities and requirements will apply to the FY 2002 grant competition only.

Selection Criteria: We use the following selection criteria to evaluate applications for grants under this competition.

The maximum score for all of these criteria is 105 points.

The maximum score for each criterion and factor is indicated in parentheses.

Note: In all instances where the word "project" appears in the selection criteria, the reference to a community technology center should be made.

Intergovernmental Review of Federal Programs

This program is subject to Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.

- You will not receive any additional point value or penalty because you submit a grant application in electronic or paper format.
- You can submit all documents electronically, including the Application for Federal Assistance (ED 424), Budget Information—Non-Construction Programs (ED 524), and all necessary assurances and certifications.

- Within three working days of submitting your electronic application fax a signed copy of the Application for Federal Assistance (ED 424) to the Application Control Center after following these steps:

1. Print ED 424 from the e-APPLICATION system.
2. Make sure that the institution's Authorizing Representative signs this form.

3. Before faxing this form, submit your electronic application via the e-APPLICATION system. You will receive an automatic acknowledgement, which will include a PR/Award number (an

identifying number unique to your application).

4. Place the PR/Award number in the upper right hand corner of ED 424.

5. Fax ED 424 to the Application Control Center at (202) 260-1349.

2004)) the CFDA number—and suffix letter, if any—of the competition under which you are submitting your application.

(5) If you submit your application through the Internet via the e-Grants Web site, you will receive an automatic acknowledgment when we receive your application.

Parity Guidelines Between Paper and Electronic Applications

In FY 2002, the U.S. Department of Education is continuing to expand the pilot project, which began in FY 2000, which allows applicants to use an Internet-based electronic system for submitting applications. This competition is among those that have an electronic submission option available to all applicants. The system, called e-APPLICATION, formerly e-GAPS (Electronic Grant Application System), allows an applicant to submit a grant application to us electronically, using a current version of the applicant's Internet browser. To see e-APPLICATION visit the following address: <http://e-grants.ed.gov>.

Users of e-APPLICATION, a data driven system, will be entering data on-line while completing their applications. This will be more interactive than just e-mailing a soft copy of a grant application to us. If you participate in this voluntary pilot project by submitting an application electronically, the data you enter on-line will go into a database and ultimately will be accessible in electronic form to our reviewers.

This pilot project continues the Department's transition to an electronic grant award process. In addition to e-APPLICATION, the Department plans to expand the number of discretionary programs using the electronic peer review (e-READER) system and to increase the participation of discretionary programs offering grantees the use of the electronic annual performance reporting (e-REPORTS) system.

To help ensure parity and a similar look between electronic and paper copies of grant applications, we are asking each applicant that submits a paper application to adhere to the following guidelines:

- Submit your application on 8½" by 11" paper.
- Leave a 1-inch margin on all sides.
- Use consistent font throughout your document. You may also use boldface type, underlining, and italics. However, please do not use colored text.
- Please use black and white, also, for illustrations, including charts, tables, graphs and pictures.
- For the narrative component, your application should consist of the

number and text of each selection criterion followed by the narrative. The text of the selection criterion, if included, does not count against any page limitation.

- Place a page number at the bottom right of each page beginning with 1; and number your pages consecutively throughout your document.

Program Authority: 20 U.S.C. 7263.

Dated: May 30, 2002.

Carol D'Amico,

Assistant Secretary for Vocational and Adult Education.

Appendix—Estimated Public Reporting Burden

Instructions for the Application Narrative

The narrative is the section of the application where the selection criteria used by reviewers in evaluating the application are addressed. The narrative must encompass each function or activity for which funds are being requested. Before preparing the Application Narrative, an applicant should read carefully the description of the program, the required contents of the application, and the selection criteria we use to evaluate applications.

1. Begin with a one-page abstract summarizing the proposed community technology center project, including a short description of the population to be

served by the project, project objectives, and planned project activities;

2. Include a table of contents listing the parts of the narrative in the order of first, the required elements of the application, and second, the selection criteria. Indicate the page numbers on which the different parts of the narrative are found. Be sure to number the pages.

3. Address the four required elements of the application.

4. Describe fully the proposed project in light of the selection criteria in the order in which the criteria are listed in the application package. Do not simply paraphrase the criteria.

5. In the application budget, include a description of the non-federal contributions that the applicant will contribute to the project in amounts not less than the non-federal contribution as required in this notice. Budget line items must support the goals and objectives of the proposed project.

6. Provide the following in response to the attached "Notice to all Applicants": (1) A reference to the portion of the application in which information appears as to how the applicant is addressing steps to promote equitable access and participation, or (2) a separate statement that contains that information.

7. When applying for funds as a consortium, individual eligible applicants must enter into an agreement signed by all members. The consortium's agreement must detail the activities each member of the consortium plans to perform, and must bind each member to every statement and assurance made in the consortium's application. The designated applicant must submit the consortium's agreement with its application.

8. Attach copies of all required assurances and forms.

Budget Information and Instructions

1. *Personnel:* Show salaries to be paid to personnel.

2. *Fringe Benefits:* Indicate the rate and amount of fringe benefits.

3. *Travel:* Indicate the amount requested for both local and out of State travel of Program Staff. Include funds for two people to attend the Program Director's Workshop in Washington, DC.

4. *Equipment:* Indicate the cost of non-expendable personal property that has a cost of \$5,000 or more per unit.

5. *Supplies:* Include the cost of consumable supplies and materials to be used during the project period.

6. *Contractual:* Show the amount to be used for: (1) Procurement contracts (except those which belong on other lines such as supplies and equipment); and (2) sub-contracts.

7. *Construction:* Not applicable.

8. *Other:* Indicate all direct costs not clearly covered by lines 1 through 6 above, including consultants and capital expenditures.

9. *Total Direct Cost:* Show the total for Lines 1 through 8.

10. *Limitation on Indirect Costs:* The success of the Community Technology Centers program will depend upon how well grantees improve the literacy and other skills of those they serve. If the program is to achieve its purposes, we need to ensure that the \$15 million available for new grants is used as effectively as possible. To do so, it is necessary to place a reasonable limitation on the amount of program funds that grant recipients may use to reimburse themselves for the "indirect costs" of program activities. Therefore, the Secretary has decided to establish a reasonable limit of eight percent (8%) on the indirect cost rate that all program recipients may charge to funds provided under this program. Indicate the rate and amount of indirect costs for each budget year. Indirect cost reimbursement is limited to your actual indirect costs, as determined by your negotiated indirect cost rate agreement, or eight percent (8%) of your modified direct cost base, whichever is less. If you do not have a negotiated indirect cost rate agreement, we may assign you a temporary rate until a rate agreement has been negotiated.

11. *Training/Stipend Cost:* Not applicable.

12. *Total Costs:* Show total for lines 9 through 11.

Instructions for the Budget Narrative

The budget narrative should explain, justify, and, if needed, clarify your budget summary. For each line item (personnel, fringe benefits, travel, etc.) in your budget, explain why it is there and how you computed the costs. Please limit this section to no more than five pages. Be sure that each page of your application is numbered consecutively.

BILLING CODE 4000-01-P

OMB Control No. 1890-0007 (Exp. 09/30/2004)

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct

description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

If Not Human Subjects Research. Check "No" if research activities involving human subjects are not planned at any time during the proposed project period. The remaining parts of Item 12 are then not applicable.

If Human Subjects Research. Check "Yes" if research activities involving human subjects are planned at any time during the proposed project period, either at the applicant organization or at any other performance site or collaborating institution. If the application is recommended/selected for funding, the designated ED official will request that the applicant obtain the assurance within 30 days after the specific formal request.

Note about Institutional Review Board Approval. ED does not require certification of Institutional Review Board approval with the application. However, if an application that involves non-exempt human subjects research is recommended/selected for funding, the designated ED official will request that the applicant obtain and send the certification to ED within 30 days after the formal request.
13. **Project Title.** Enter a brief descriptive title of the project. If more than one program is involved, you should append an explanation on a separate sheet. If appropriate (e.g., construction or real property projects), attach a map showing project location. For preapplications, use a separate sheet to provide a summary description of this project.

Definitions for Form ED 424

Novice Applicant (See 34 CFR 75.225). For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

Has never received a grant or subgrant under the program from which it seeks funding;

Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and

Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant's project or funding period, including any extensions of those periods that extend the grantee's authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

Type of Submission. "Construction" includes construction of new buildings and acquisition, expansion, remodeling, and alteration of existing buildings, and initial equipment of any such buildings, or any combination of such activities (including architects' fees and the cost of acquisition of land). "Construction" also includes remodeling to meet standards, remodeling designed to conserve energy, renovation or remodeling to accommodate new technologies, and the purchase of existing historic buildings for conversion to public libraries. For the purposes of this paragraph, the term "equipment" includes machinery, utilities, and built-in equipment and any necessary enclosures or structures to house them; and such term includes all other items necessary for the functioning of a particular facility as a facility for the provision of library services.

Executive Order 12372. The purpose of Executive Order 12372 is to foster an intergovernmental partnership and strengthen federalism by relying on State and local processes for the coordination and review of proposed Federal financial assistance and direct Federal development. The application notice, as published in the Federal Register, informs the applicant as to whether the program is subject to the requirements of E.O. 12372. In addition, the application package contains information on the State Single Point of Contact. An applicant is still eligible to apply for a grant or grants even if its respective State, Territory, Commonwealth, etc. does not have a State Single Point of Contact. For additional information on E.O. 12372 go to <http://www.cfda.gov/public/eo12372.htm>.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, it is research. Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information." (1) If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met. [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of exemptions are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the

activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked "Yes" for Item 12 on the ED 424, the applicant must provide a human subjects "exempt research" or "nonexempt research" narrative and insert it immediately following the ED 424 face page.

A. Exempt Research Narrative.

If you marked "Yes" for item 12a. and designated exemption numbers(s), provide the "exempt research" narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked "No" for item 12a. you must provide the "nonexempt research" narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) Human Subjects Involvement and Characteristics: Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

(2) Sources of Materials: Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Recruitment and Informed Consent: Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Potential Risks: Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Protection Against Risk: Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Importance of the Knowledge to be Gained: Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) Collaborating Site(s): If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff, Office of the Chief Financial Officer, U.S. Department of Education, Washington, D.C. 20202-4248, telephone: (202) 708-8263, and on the U.S. Department of Education's Protection of Human Subjects in Research Web Site at <http://www.ed.gov/offices/OCFO/humansub.html>
