ENVIRONMENTAL PROTECTION AGENCY

[FRL -7225-1]

EPA Science Advisory Board, Metals Assessment Panel; Request for Nominations

ACTION: Notice; request for nominations to serve on the Metals Assessment Panel of the Environmental Protection Agency's Science Advisory Board.

SUMMARY: The U.S. Environmental Protection Agency's (Agency, EPA) Science Advisory Board (SAB) is re-announcing the formation of a Metals Assessment Panel and its solicitation of nominations of qualified individuals to serve on this Panel. An earlier solicitation of nominations for qualified individuals was published April 3, 2002 in the **Federal Register** (67 FR 15802).

The SAB provides independent scientific and technical advice to the EPA Administrator on Agency positions; in this case, the SAB will advise on a Metals Action Plan that the Agency will use to guide the development of a Framework and Guidance for assessing hazards and risks posed by metals and metal compounds. Those selected to serve on the SAB's Metals Assessment Panel will review the Action Plan this summer. The same Panel is also likely to review the Framework and Guidance Documents in 2003.

The approved policy under which the EPA Science Advisory Board selects review panels is described in a recent SAB Commentary [*EPA Science Advisory Board (SAB) Panel Formation*].
