### Mine Safety and Health Administration

#### Petitions for Modification

The following parties have filed petitions to modify the application of existing safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

##### 1. Consolidation Coal Company

[Docket No. M-2002-045-C]

Consolidation Coal Company, Consol Plaza, 1800 Washington Road, Pittsburgh, Pennsylvania 15241-1421 has filed a petition to modify the application of 30 CFR 75.364(b)(2) (weekly examination) to its Blacksville No. 2 Mine (I.D. No. 46-01968) located in Monongalia County, West Virginia. The petitioner proposes to establish check point numbers B-CK-1, CK-2 and B-CK-3 to measure air quality and quantity at the inlet to the affected aircourse. The petitioner will also establish check point numbers B-CK-4, B-CK-5 and B-CK6 to measure air quality and quantity at the outlet from the affected aircourse. The petitioner states that due to deteriorating roof conditions, traveling the affected areas of the return aircourse would expose persons to hazardous conditions. The petitioner asserts that the check points and all approaches to the check points will be maintained in a safe condition and a certified person will test the methane and quantity of air at each check point on a weekly basis. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.
