EPA Science Advisory Board; Request for Comments and Notification of Public Advisory Committee Teleconference Meeting

SUMMARY: The Office of the EPA Science Advisory Board (SAB, the Board) is requesting public comment both on a draft document related to SAB Policies and Procedures for obtaining public input to be used in panel formation and on the need for additional documents on policies and procedures.

Also, pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Policies and Procedures Subcommittee (PPS or the Subcommittee) of the SAB, a chartered Federal advisory committee, is announcing that it will meet in a public teleconference on July 8, 2002 from 10 a.m. to 12 p.m. Eastern Time. The meeting will be hosted out of Conference Room 6013, US EPA, Ariel Rios Federal Building, 1200 Pennsylvania Avenue, NW., Washington, DC 20004. The meeting is open to the public, however, due to limited space, seating will be on a first-come basis. For further information concerning the meeting or how to obtain the phone number, please contact the individual listed below.

Request for Comment—The Office of the EPA Science Advisory Board Staff is requesting comment on a short booklet, entitled *Overview of the SAB Panel Formation Process* (this is Appendix A to the report found at: <http://www.epa.gov/sab/ecm02003.pdf>)

The booklet describes a new four-stage process that developed so that the SAB may benefit from public input on panel formation and so the process of recruiting and selecting panel members is clearer to the public. The intended audience includes SAB Members and Consultants, the public, and EPA staff. The SAB Staff invites public comment on: (1) Whether the document describes the new processes clearly so that the public can understand and participate in the process; and (2) other ways to strengthen the Board's operations, including panel formation.

The SAB Staff may develop booklets describing its policies and procedures for project selection panel deliberations; report writing; the roles of the Executive Committee, SAB Standing Committees, and panels; the role of the SAB Staff; and communication. The SAB Staff invites public comment on whether booklets describing policies and procedures for these areas, or other

areas, are of interest to members of the public.

Please send any public comments to Dr. Angela Nugent of the EPA Science Advisory Board staff by June 21, 2002. Comments are preferred via email. Please see contact information below.
