Priorities

Competitive Preference Priority—Employing and Advancing in Employment Qualified Individuals With Disabilities

We give preference to applications that meet the competitive preference priority in the notice of final competitive preference for this program, published in the **Federal Register** on November 22, 2000 (65 FR 70408). Under 34 CFR 75.105(c)(2)(i) we award up to an additional 10 points to an application that is otherwise eligible for funding under this program. The maximum score under the selection criteria for this program is 100 points; however, we will also use the following

competitive preference so that up to an additional 10 points may be earned by an applicant for a total possible score of 110 points.

Up to 10 points may be earned based on the extent to which an application includes effective strategies for employing and advancing in employment qualified individuals with disabilities as project employees in projects awarded under this program. In determining the effectiveness of those strategies, we will consider the applicant's prior success, as described in the application, in employing and advancing in employment qualified individuals with disabilities.

Selection Criteria: In evaluating an application for a new grant under this competition, we use selection criteria chosen from the general selection criteria in 34 CFR 75.210 of EDGAR. With the New Freedom Initiative, the Administration has committed to support community-based services in order to promote maximum independence and integration of individuals with disabilities in community life. One component of this initiative is the President's commitment to swiftly implement the Supreme Court's decision in *Olmstead v. L.C.*, which found that the Americans with Disabilities Act requires the placement of persons with disabilities in a community-integrated setting whenever possible.

The Department is promoting community-based services for persons with disabilities through its *Olmstead* project in an effort to help States plan, implement, and evaluate consumer-directed and community-based services. The Rehabilitation Continuing Education Program (RCEP) received funding to develop and implement training programs for State vocational

rehabilitation agencies, rehabilitation professionals, and community organizations on issues related to community-based services. In the following invitational priorities, we encourage applicants for this program to build on the work of the *Olmstead* project and the RCEP.

Priorities

Invitational Priorities

We are particularly interested in applications that meet one or all of the following priorities.

Invitational Priority 1

Applications should demonstrate how the project would encourage community-based alternatives to institutionalization. Applications should address how the project will help CILs meet the housing, transportation, assistive technology, and independent living skills training needs of individuals with disabilities moving from an institutional setting to community-based living.

Invitational Priority 2

Applications should demonstrate how the project would improve the provision of effective independent living peer mentoring programs.

Invitational Priority 3

Applications should demonstrate how the project would assist CILs to increase consumer participation in systems change advocacy.

Invitational Priority 4

Applications should provide an annual and comprehensive analysis of centers' operations, consumer services, process measures, access measures, and services and training needs as measured by the annual 704 performance reports, on-site compliance reports, and standards and indicators.

Invitational Priority 5

Applications should demonstrate how the project would help CILs provide outreach and services to consumers from diverse multicultural communities and from underserved disability communities, including those with sensory and psychiatric disabilities.

Under 34 CFR 75.105(c)(1) we do not give an application that meets one or more of the invitational priorities a competitive or absolute preference over other applications.

Competitive Preference Priority

We give preference to applications that meet the competitive preference priority in the notice of final competitive preference for this program,

published in the **Federal Register** on November 22, 2000 (65 FR 70408). Under 34 CFR 75.105(c)(2)(i), up to 10 points may be earned based on the extent to which an application includes effective strategies for employing and advancing in employment qualified individuals with disabilities as project employees in projects awarded in this competition. In determining the effectiveness of those strategies, we will consider the applicant's prior success, as described in the application, in employing and advancing in employment qualified individuals with disabilities. Therefore, within this competitive preference, applicants can be awarded up to a total of 10 points in addition to those awarded under the selection criteria in 34 CFR 366.15, for a total possible score of 110 points.

For Applications Contact: Education Publications Center (ED Pubs), P.O. Box 1398, Jessup, MD 20794–1398. Telephone (toll free): 1–877–433–7827. FAX (301) 470–1244. If you use a telecommunications device for the deaf (TDD), you may call (toll free): 1–877–576–7734.

You may also contact ED Pubs at its Web site: <http://www.ed.gov/pubs/edpubs.html>, or you may contact ED Pubs at its e-mail address: edpubs@inet.ed.gov.

Canyon Creek Compression Company; Notice of Proposed Changes in FERC Gas Tariff

June 6, 2002.

Take notice that on May 31, 2002, Canyon Creek Compression Company (Canyon) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, certain tariff sheets to be effective July 1, 2002. Assuming the ordinary suspension period, these sheets will become effective December 1, 2002.

Canyon states that the purpose of this filing is to implement a general rate increase. Canyon is submitting two alternative cases. The primary case includes a cost-of-service tracking mechanism. The alternate case, a more traditional rate derivation, results in higher rates than the initial rates under the primary case. While both cases represent a rate increase, both also incorporate a decrease in cost of service from that underlying Canyon's currently effective rates. Canyon has also proposed other tariff changes, including elimination of provisions for crediting interruptible revenue.
