

U.S.C. 1361 *et seq.*), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 1007-1629-00 authorizes the take of 1,400 individual Hawaiian spinner dolphins (*Stenella longirostris*) annually by behavioral observation and photo-identification, 400 individuals annually through genetic swabbing, and an unlimited number of individuals by close approach incidental to research activities. The purpose of the research is to compare population structure, genetic flow and social behavior between groups of Hawaiian spinner dolphins in Kure Atoll, Midway Atoll and Pearl & Hermes Reef.

The current request is to amend Permit No. 1007-1629-00 to: (1) expand the geographic area of study to include both the Hawaiian northwestern and main islands; (2) increase the take numbers, based on this expanded geographic area, to 5,000 individuals annually through behavioral observation and photo-identification and 600 individuals annually through the collection of genetic samples; and (3) authorize the use of biopsy sampling through pole-spearing in addition to swabbing.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: June 21, 2002.

Trevor R. Spradlin,

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 062402B]

Marine Mammals; File No. 638-1519

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit amendment.

SUMMARY: Notice is hereby given that Thomas R. Kieckhefer, 1055 Lewis Road, Royal Oaks, California 95076, has been issued a minor amendment to scientific research Permit No. 638-1519-00.

ADDRESSES: The amendment and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)713-0376; and Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213; phone (562)980-4001; fax (562)980-4018.

FOR FURTHER INFORMATION CONTACT: Jill Lewandowski or Trevor Spradlin, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 638-1519-00, originally issued on November 23, 1999 (64 FR 66903) has been granted under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

The permit holder requested authorization to extend Permit No. 638-1519-00 for an additional 12 months. The new expiration date for the permit is November 30, 2005 and the permit number has been changed to No. 638-1519-01 to reflect that the permit has been amended.

Dated: June 24, 2002.

Trevor R. Spradlin,

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

Department of the Army

Availability for Non-Exclusive, Exclusive, or Partially Exclusive Licensing of U.S. Patent Application Concerning Chemical Information Systems

AGENCY: Department of the Army, DOD.

ACTION: Notice.

SUMMARY: In accordance with 37 CFR 404.6 and 404.7, announcement is made

of the availability for licensing of U.S. Patent Application No. 09/436,226 entitled "Chemical Information Systems," filed November 9, 1999. The United States Government, as represented by the Secretary of the Army has rights in this invention.

ADDRESSES: Commander, U.S. Army Medical Research and Materiel Command, ATTN: Command Judge Advocate, MCMR-JA, 504 Scott Street, Fort Detrick, Frederick, MD 21702-5012.

FOR FURTHER INFORMATION CONTACT: For patent issues, Ms. Elizabeth Arwine, Patent Attorney, (301) 619-7808. For licensing issues, Dr. Paul Mele, Office of Research & Technology Assessment, (301) 619-6664, both at telefax (301) 619-5034.

SUPPLEMENTARY INFORMATION: A chemical information system having a graphical user interface that allows manipulation of multiple databases having related material and information. The system includes a server and multiple workstations communicating with the server. The databases reside on the server, which may include multiple servers.

Luz D. Ortiz,

Army Federal Register Liaison Officer.

Availability for Non-Exclusive, Exclusive, or Partially Exclusive Licensing of U.S. Patent Application Concerning Automated Method of Identifying and Archiving Nucleic Acid Sequences

AGENCY: Department of the Army, DOD.

ACTION: Notice.

SUMMARY: In accordance with 37 CFR 404.6 and 404.7, announced is made of the available for licensing of U.S. Patent Application No. 09/961,058 entitled "Automated Method of Identifying and Archiving Nucleic Acid Sequences," filed September 24, 2001. Foreign rights are also available (PCT/US01/29761). The United States Government, as represented by the Secretary of the Army has rights in this invention.

ADDRESSES: Commander, U.S. Army Medical Research and Materiel Command, ATTN: Command Judge Advocate, MCMR-JA, 504 Scott Street, Fort Detrick, Frederick, MD 21702-5012.

FOR FURTHER INFORMATION CONTACT: For patent issues, Ms. Elizabeth Arwine, Patent Attorney, (301) 619-7807. For licensing issues, Dr. Paul Mele, Office of Research & Technology Assessment, (301) 619-6664, both at telefax (301) 619-5034.

SUPPLEMENTARY INFORMATION: A method of identifying and archiving a nucleic acid sequence.

Luz D. Ortiz,

Army Federal Register Liaison Officer.

BILLING CODE 3710-08-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Availability of the Draft Supplement to the Final Environmental Statement for the Reallocation of Water Supply Storage Project, John Redmond Lake, KS

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Availability.

SUMMARY: The Tulsa District of the U.S. Army Corps of Engineers (USACE) has prepared a Draft Supplement to the Final Environmental Statement (DSFES) for the Reallocation of Water Supply Storage Project, John Redmond Lake, KS. The purpose of the project is to assess potential significant environmental impacts associated with water storage reallocation and a higher conservation pool elevation at John Redmond Lake.

DATES: The DSFEIS will be available for public review when this announcement is published. The review period of the document will be until September 11, 2002. To request a copy of the supplement, please call (918) 669-4396.

FOR FURTHER INFORMATION CONTACT: For further information regarding the DSFEIS, please contact Stephen L. Nolen, Chief, Environmental Analysis and Compliance Branch, U.S. Army Corps of Engineers, ATTN: CESWT-PE-E, 1645 South 101st East Avenue, Tulsa OK, 74128-4629.

SUPPLEMENTARY INFORMATION: John Redmond Dam was initially authorized as the Strawn Dam and Reservoir under the Flood Control Act of May 17, 1950, for flood control, water conservation, recreation, and water supply for communities along the Neosho River in southeastern Kansas. Congress subsequently changed the name in 1958 to John Redmond Dam and Reservoir.

To perform its authorized purposes, the lake contains three types of water storage pools. The upper pool provides 574,918 acre-feet of flood control storage and is reserved for flood control operations. The conservation pool provides 50,501 acre-feet of storage for water supply, water quality, and sediment. The inactive pool has filled with sediment. Water supply storage was projected to occur within the conservation pool when maintained at the surface elevation of 1039.0 feet National Geodetic Vertical Datum (NGVD). Studies have determined that sediment is accumulating in the conservation pool and is reducing the amount of water stored there. The amount of water storage reduction predicted by calendar year (CY) 2014 is approximately 25% or 8,725 acre-feet of water supply.

The USACE has been directed by Congress to conduct a study to reallocate water supply storage, an action that would fulfill the water supply agreement with the State of Kansas. This supplement addresses the proposed water supply storage reallocation project.

A Final Environmental Statement for operation and maintenance of John Redmond, Marion, and Council Grove Lakes, KS, was filed on December 17, 1976. This supplement addresses the environmental impacts of making an equitable redistribution of the storage remaining between the flood control pool and the conservation pool due to uneven sediment distribution.

Sediment in John Redmond Lake has been collecting mainly in the conservation pool, thereby reducing the conservation pool storage faster than was designed, while the flood control pool has not received as much sediment and has retained more storage than it was designed to retain. The reallocation does not guarantee the water storage volume contracted to the State of Kansas per an agreement in 1975, but makes an equitable redistribution of the remaining storage.

A total of four alternatives were identified and addressed in the DSFES. These include: no action, raise the conservation pool elevation by two feet, raise the conservation pool by two feet incrementally, and dredge the sediment from the conservation pool. The preferred alternative is to reallocate water storage in the conservation pool by two feet in a single pool raise. This would achieve the water storage obligation.

Environmental consequences of the proposed action identified in the DSFES include: (1) The loss of approximately 270 acres of wetland habitat, 40 acres of

grassland, 51 acres of cropland, and 195 acres of woodland, and (2) impacts to 31 potentially significant prehistoric and historic archeology sites.

Mitigation for impacts to biological resources is proposed and is based upon recommendations of the U.S. Fish and Wildlife Service. A Memorandum of Agreement between the USACE, the Advisory Council on Historic Preservation, and the Kansas and Nebraska State Historic Preservation Offices is being drafted to determine appropriate actions and mitigation measures for cultural resources that may be discovered and/or affected during the course of the project. Appropriate mitigation measures may include preservation in place for future study, recovery or partial recovery of site data through excavation, a public interpretive display, or a combination of these measures.

The DSFES has been coordinated and approved by offices and directorates affected by or interested in the subject matter, including the Office of Counsel and Executive Offices.

Stephen R. Zeltner,

Lieutenant Colonel, U.S. Army Acting District Engineer.

Availability of the Draft Supplement to the Final Environmental Impact Statement for the Operation and Maintenance Program at Wister Lake and Poteau River, OK

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: Notice is made of the availability of a Draft Supplement to the Final Environmental Statement (DSFES) for the Operation and Maintenance Program at Wister Lake and Poteau River, OK, prepared by the Tulsa District of the U.S. Army Corps of Engineers (USACE). The supplement describes and considers the potential environmental consequences resulting from operating the Wister Lake project with a conservation pool at 478.0 feet National Geodetic Vertical Datum (NGVD) and from raising the conservation pool from 471.6 to 478.0 feet (NGVD).

DATES: The DSFES will be available for public review when this announcement is published. The review period of the
