

convenience and necessity to engage in interstate and foreign scheduled air transportation of persons, property and mail.

DATES: Persons wishing to file objections should do so no later than July 11, 2002.

ADDRESSES: Objections and answers to objections should be filed in Dockets OST-01-11164 and OST-01-11198 and addressed to the Department of Transportation Dockets (SVC-124, Room PL-401), U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590, and should be served upon the parties listed in Attachment A to the order.

FOR FURTHER INFORMATION CONTACT: Mr. Howard Serig, Air Carrier Fitness Division (X-56, Room 6401), U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590, (202) 366-4822.

Dated: June 27, 2002.

Read C. Van de Water,

Assistant Secretary for Aviation and International Affairs.

BILLING CODE 4910-62-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Shasta and Trinity Counties, CA

AGENCY: Federal Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The Federal Highway Administration (FHWA) is issuing this notice to advise the public that an Environmental Impact Statement (EIS) will be prepared for a proposed State Route 299 (SR 299) project in Shasta and Trinity Counties, California.

FOR FURTHER INFORMATION CONTACT: Harry Khani, Transportation Engineer, Federal Highway Administration, 980 Ninth Street, Suite 400, Sacramento, California 95814, telephone: (916) 498-5056, e-mail:

Harry.Khani@fhwa.dot.gov. Chris Cummings, California Department of Transportation Project Manager, 1657 Riverside Drive, Redding, CA 96049, telephone: (530) 225-3495, e-mail: *chris_cummings@dot.ca.gov*.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the California Department of Transportation (Caltrans), will prepare an EIS for a proposed highway improvement project of SR 299 in Shasta and Trinity Counties, California.

SR 299 is the principal arterial between Interstate 5 and Highway 101 and is designated as a high emphasis route in the Interregional Roadway System. SR 299 is of economic importance to the region as it provides access to a vast recreational area and links the upper Sacramento Valley with the deepwater port in Eureka. The project portion of the highway, the Buckhorn Grade, represents the only obstacle preventing interstate trucks and oversize permit loads from utilizing this direct access to the coast.

The proposed project limits extends approximately 7.5 miles from the boundary of the Whiskeytown-Shasta-Trinity National Recreation Area to west of the Shasta-Trinity-County line, the existing SR 299 corridor within these limits consists of a two-lane highway with limited passing lanes at various locations. The road closely follows the extremely rugged terrain forming a steep, twisted alignment with a design speed of 25 mph.

The proposed project would construct a new two-lane alignment, with truck climbing lanes, standard shoulders, 50 mph design speed, and maximum 7% grade. Possible alignment variations includes bridges, viaducts, and a possible tunnel at the Buckhorn Summit. The replaced SR 299 alignment would be relinquished or reclaimed (all or part).

Caltrans has been investigating Buckhorn Grade realignment designs of over 40 years. Since the early 1990's four Project Study Reports have been completed. Since 2000, Caltrans has conducted over 11 meetings with the public, with local governmental officials, and with jurisdictional agencies.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies, and to private organizations and citizens who have previously expressed or are known to have interest in this proposal. In addition, a public workshop will be held, with public notice given of the time and location. The draft EIS will be available for public and agency review and comment prior to the public workshop.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research,

Planning, and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program)

Issued on: May 2, 2002.

David Nicol,

Assistant Division Administrator-California Division, Federal Highway Administration.

BILLING CODE 4910-22-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Noise Exposure Map Notice; Receipt of Noise Compatibility Program and Request for Review, Brownsville/South Padre Island International Airport Brownsville, TX

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its determination that the noise exposure maps submitted by the City of Brownsville for Brownsville/South Padre Island International Airport under the provisions of Title 49 U.S.C., Chapter 475 (hereinafter referred to as "Title 49") and 14 CFR Part 150 are in compliance with applicable requirements. The FAA also announces that it is reviewing a proposed noise compatibility program that was submitted for Brownsville/South Padre Island International Airport under Part 150 in conjunction with the noise exposure maps and that this program will be approved or disapproved on or before December 22, 2002.

DATES: The effective date of the FAA's determination on the noise exposure maps and the start of its review of the associated noise compatibility program is June 25, 2002. The public comment period ends August 24, 2002.

FOR FURTHER INFORMATION CONTACT: Ms. Nan L. Terry, Department of Transportation, Federal Aviation Administration, Fort Worth, Texas 76193-0650, (817) 222-5607. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA finds that the noise exposure maps submitted for Brownsville/South Padre Island International Airport are in compliance with applicable requirements of part 150, effective June 25, 2002. Further, the FAA is reviewing a proposed noise compatibility program for that airport

which will be approved or disapproved on or before December 22, 2002. This notice also announces the availability of this program for public review and comment.

Under Title 49, an airport operator may submit to the FAA noise exposure maps which meet applicable regulations and which depict noncompatible land uses as of the date of submission of such maps, a description of projected aircraft operations, and the ways in which such operations will affect such maps. Title 49 requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport.

An airport operator who has submitted noise exposure maps that are found by the FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) part 150, promulgated pursuant to Title 49, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes for the reduction of existing noncompatible uses and for the prevention of the introduction of additional noncompatible uses.

The City of Brownsville submitted to the FAA on June 17, 2002, noise exposure maps, descriptions and other documentation which were produced during the Federal Aviation Regulations (FAR) Part 150 Airport Noise Compatibility Planning Study for Brownsville/South Padre Island International Airport beginning on September 25, 1998. It was requested that the FAA review this material as the noise exposure maps, as described in Title 49, and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under Title 49.

The FAA has completed its review of the noise exposure maps and related descriptions submitted by the City of Brownsville. The specific maps under consideration are: 1999 Noise Exposure Map Existing Condition Noise Exposure Map, Exhibit 4.6 and 2004 Future Condition Noise Exposure Map with Existing Runway Configuration, Exhibit 5.2a in the submission.

The FAA has determined that these maps for Brownsville/South Padre Island International Airport are in compliance with applicable requirements. This determination is effective on June 25, 2002. The FAA's determination on an airport operator's noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in Appendix A of FAR Part

150. such determination does not constitute approval of the applicant's data, information, or plans, or a commitment to approve a noise compatibility program or to fund the implementation of that program.

If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise exposure map submitted under section 103 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of Title 49. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under Part 150 or through the FAA's review of noise exposure maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator which submitted those maps, or with those public agencies and planning agencies with which consultation is required under Title 49. The FAA has relied on the certification by the airport operator, under section 150.21 of FAR part 150, that the statutorily required consultation has been accomplished.

The FAA has formally received the noise compatibility program for the Brownsville/South Padre Island International Airport, also effective on June 25, 2002. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before December 22, 2002.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR part 150, section 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing noncompatible land uses and preventing the introduction of additional noncompatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps, the FAA's evaluation of the maps, and the proposed noise compatibility program are available for examination at the following locations:

Federal Aviation Administration,
Airports Division, 2601 Meacham
Boulevard, Fort Worth, Texas 76137.

Department of Aviation, City of
Brownsville, 700 S. Minnesota
Avenue, Brownsville, Texas 75821.

Questions may be directed to the individual named above under the heading, for further information contact.

Issued in Fort Worth, Texas, June 25, 2002.

Naomi L. Saunders,
Manager, Airports Division.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Approval of Noise Compatibility Program; Seattle-Tacoma International Airport, Seattle, WA

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its findings on the noise compatibility program, submitted by the manager of the airfield line of business for Seattle-Tacoma International Airport, under the provisions of 49 U.S.C., Sec. 47504(b), and 14 CFR part 150. These findings are made in recognition of the description of federal and non-federal responsibilities in Senate Report No. 96-52 (1980).

On December 3, 2001, the FAA determined that the noise exposure maps submitted, under part 150, by the manager of the airfield line of business for Seattle-Tacoma International Airport, were in compliance with applicable requirements. On June 3, 2002, the Associate Administrator for Airports approved the Seattle-Tacoma International Airport noise compatibility program. Program measures 1, 9, 12, 13, 14, 15, 16, 17, 18, and 19 received outright approval. Measures 5 and 6 were approved as voluntary. Measures 3, 4 and 10 were disapproved, pending submission of additional information. Measures 7 and
