

TABLE 1.—WASTE EXCLUDED FROM NON-SPECIFIC SOURCES—Continued

Facility	Address	Waste description
		<p>(6) <i>Reopener</i>: (A) If, anytime after disposal of the delisted waste, Tokusen possesses or is otherwise made aware of any environmental data (including but not limited to leachate data or groundwater monitoring data) or any other data relevant to the delisted waste indicating that any constituent identified for the delisting verification testing is at level higher than the delisting level allowed by the Regional Administrator or his delegate in granting the petition, then the facility must report the data, in writing, to the Regional Administrator or his delegate within 10 days of first possessing or being made aware of that data.</p> <p>(B) If the annual testing of the waste does not meet the delisting requirements in Paragraph 1, Tokusen must report the data, in writing, to the Regional Administrator or his delegate within 10 days of first possessing or being made aware of that data.</p> <p>(C) If Tokusen fails to submit the information described in paragraphs (5), (6)(A) or (6)(B) or if any other information is received from any source, the Regional Administrator or his delegate will make a preliminary determination as to whether the reported information requires Agency action to protect human health or the environment. Further action may include suspending, or revoking the exclusion, or other appropriate response necessary to protect human health and the environment.</p> <p>(D) If the Regional Administrator or his delegate determines that the reported information does require Agency action, the Regional Administrator or his delegate will notify the facility in writing of the actions the Regional Administrator or his delegate believes are necessary to protect human health and the environment. The notice shall include a statement of the proposed action and a statement providing the facility with an opportunity to present information as to why the proposed Agency action is not necessary. The facility shall have 10 days from the date of the Regional Administrator or his delegate's notice to present such information.</p> <p>(E) Following the receipt of information from the facility described in paragraph (6)(D) or (if no information is presented under paragraph (6)(D)) the initial receipt of information described in paragraphs (5), (6)(A) or (6)(B), the Regional Administrator or his delegate will issue a final written determination describing the Agency actions that are necessary to protect human health or the environment. Any required action described in the Regional Administrator or his delegate's determination shall become effective immediately, unless the Regional Administrator or his delegate provides otherwise.</p> <p>(7) <i>Notification Requirements</i>: Tokusen must do the following before transporting the delisted waste: Failure to provide this notification will result in a violation of the delisting petition and a possible revocation of the decision.</p> <p>(A) Provide a one-time written notification to any State Regulatory Agency to which or through which they will transport the delisted waste described above for disposal, 60 days before beginning such activities.</p> <p>(B) Update the one-time written notification if they ship the delisted waste into a different disposal facility.</p>

49 CFR Part 571

[Docket No. NHTSA-2002-12538]

RIN 2127-A184

Federal Motor Vehicle Safety Standards; Low Speed Vehicles; Notice of Proposed Rulemaking

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking.

SUMMARY: This document responds to a petition for rulemaking from General Motors Corporation concerning low-speed vehicles. A low-speed vehicle is defined as a four-wheeled vehicle, other than a truck, whose maximum speed is between 20 and 25 miles per hour. The petitioner requested that the agency initiate rulemaking to amend the Federal motor vehicle safety standard for low-speed vehicles to require those vehicles to bear a label identifying safety hazards associated with the operation of low-speed vehicles in mixed traffic, *i.e.*, on roads used by regular vehicles, and to be equipped with additional conspicuity features to make low-speed vehicles more visible to other vehicles.

The agency is granting both requests. In this document, the agency is proposing to amend the standard to require low-speed vehicles to bear a warning label to ensure that drivers of those vehicles are alerted to the hazards associated with the operation of low-speed vehicles in mixed traffic. The agency is also proposing that low-speed vehicles be equipped with reflex reflectors or retroreflective conspicuity sheeting, a slow-moving vehicle emblem, and headlamps, taillamps, and side marker lamps that are illuminated while the low-speed vehicle is being operated to enhance their conspicuity.

I. Background

In the late 1990s, there was a growing public interest in using golf cars¹ to

¹ These vehicles, referred to variously as "golf cars," "golf carts," or "neighborhood electric vehicles" (NEVs), offer a variety of advantages. They are low-cost and energy efficient. Also, since many of these vehicles are electric-powered, they provide quieter transportation that does not pollute the air of the communities in which they are operated.
