

MS4s during the first three years of the program. The data collection effort during this first three-year period was limited to the submittal and review of no exposure certifications and some preliminary Agency work in developing specific program elements. A significant increase in burden for this ICR is the product of that fact.

After general permits for small MS4s and small construction sites are issued in December of 2002, NPDES permitting authorities, including the Water Permits Division of the EPA Office of Wastewater Management, intend to use the data contained in storm water permit applications, construction waiver certifications, storm water pollution prevention plans (SWPPPs), no exposure certifications, and reports to set appropriate permit conditions, track discharges covered by storm water permits, and assess permit compliance. Other organizations, including EPA's Office of Enforcement and Compliance (OECA) and environmental groups, will most likely use the same collected information to assess the regulated community's level of compliance and to measure the overall effectiveness of the NPDES storm water program.

It is expected that respondents will submit information in hard copy form. The information from them will be entered into a computer database and the original document will be filed. The information will be submitted by the respondents directly to each NPDES-authorized State or Territory, or to EPA in areas where EPA is the NPDES permitting authority. Plans are underway to allow electronic submission of much of the required information but these options are not included in the ICR. At the time those options become available, EPA will update this information collection to reflect a revised burden estimate.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: EPA estimates that 327,119 NPDES entities (consisting of 5,102 small MS4s, 119,112 small construction permittees, 21,020 small construction sites eligible for and receiving a waiver, and 181,885 industrial operators eligible for and receiving the no exposure waiver) will perform activities covered by this ICR. These entities are expected to provide 183,291 responses to State and Federal permit authorities annually. Additionally, 45 states/territories will perform information collection activities. Nationally, NPDES permittees will spend 3,661,312 hours per year on information collection activities as a result of the Storm Water Program Phase II rule (289,794 hours for regulated small MS4s, 21,020 hours for waived small construction sites, 3,323,215 hours for permitted small construction sites, and 27,283 hours for industrial no exposure facilities). The 45 states/territories are expected to spend 211,885 hours per year on information collection activities as a result of the Storm Water Program Phase II rule (11,453 hours for regulated small MS4s, 17,847 hours for waived small construction sites, 151,699 hours for permitted small construction sites, and 30,886 hours for industrial no exposure facilities). Capital and start-up costs associated with the Phase II rule are expected to be negligible. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: June 27, 2002.

Jane S. Moore,

Acting Director, Office of Wastewater Management.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7246-1]

Agency Information Collection Activities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following proposed and/or continuing Information Collection Requests (ICRs) to the Office of Management and Budget (OMB). Before submitting the renewal package to OMB for review and approval, EPA is soliciting comments on specific aspects of the collection as described below.

DATES: Comments must be submitted on or before September 16, 2002.

ADDRESSES: U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Mail Code 2225A, OECA/OC/AgD, Washington, DC 20460. A copy of this ICR may be obtained from Stephen Howie tel: (202) 564-4146; e-mail: howie.stephen@epa.gov.

FOR FURTHER INFORMATION CONTACT: Stephen Howie, tel: (202) 564-4146; FAX: (202) 564-0085; e-mail: howie.stephen@epa.gov.

SUPPLEMENTARY INFORMATION:

Affected Entities: This action affects entities which import pesticides or devices into the United States.

Title: Notice of Arrival of Pesticides and Devices (EPA Form 3540-1), OMB Number 2070-0020, EPA ICR Number 0152.07, Expiration Date: December 31, 2002.

Abstract: The U.S. Customs regulations at 19 CFR 12.112 require that an importer desiring to import pesticides into the United States shall, prior to the shipment's arrival, submit a Notice of Arrival of Pesticides and Devices (EPA Form 3540-1) to EPA who will determine the disposition of the shipment. After completing the form, EPA returns the form to the importer, or his agent, who must present the form to Customs upon arrival of the shipment at the port of entry. This is necessary to insure that EPA is notified of the arrival of pesticides and devices as required by

the Federal Insecticide Fungicide and Rodenticide Act (FIFRA) section 17(c) and has the ability to examine such shipments to determine that they are in compliance with FIFRA.

The form requires identification and address information of the importer or his agent and information on the identity and location of the imported pesticide or device shipment.

When the form is submitted to EPA regional personnel for review it is examined to determine whether the shipment should be released for entry upon arrival or alternatively whether it should be detained for examination. The responsible EPA official returns the form to the respondent with EPA instructions to the U.S. Customs Service as to the disposition of the shipment.

Upon the arrival of the shipment, the importer presents the completed NOA to the District Director of U.S. Customs at the port of entry. U.S. Customs compares entry documents for the shipment with the Notice of Arrival and notifies the EPA Regional Office of any discrepancies which the EPA will resolve with the importer or broker. At this point the shipment may be retained for examination. If there are no discrepancies Customs follows instructions regarding release or detention. If EPA inspects the shipment and it appears from examination of a sample that it is adulterated, or misbranded or otherwise violates the provisions of FIFRA, or is otherwise injurious to health or the environment, the pesticide or device may be refused admission into the United States.

This reporting requirement is needed to inform the Agency of pesticides arriving in the customs territory of the United States and to ensure compliance with FIFRA by the responsible party importing pesticides. This reporting requirement is needed to meet direct statutory requirements of FIFRA regarding notification of the Agency of such arrivals.

The information collected is used by EPA Regional pesticide enforcement and compliance staff and the Headquarters Office of Enforcement and Compliance Assurance and Office of Pesticide Programs. The U.S. Treasury Department (Customs), the Department of Agriculture, the Food and Drug Administration, and other Federal agencies may also make use of this information.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including

whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Burden Statement: The average annual burden to the industry over the next three years is estimated to be 0.3 person hours per response.

Respondents/affected entities: 7,000.
Estimated number of respondents: 7,000.

Frequency of responses: 1.

Estimated total annual hour burden: 2,100.

There are no capital/startup costs or operating and maintenance (O&M) costs associated with this ICR since all equipment associated with this ICR is present as part of ordinary business practices.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: July 3, 2002.

Richard Colbert,

Director, Agriculture Division.

Agency Information Collection Activities: Proposed Collection; Comment Request; 2003 Drinking Water Infrastructure Needs Survey

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Environmental Protection Agency (EPA) is planning to submit the following proposed Information Collection Request (ICR) to the Office of Management and Budget (OMB): 2003 Drinking Water Infrastructure Needs Survey, EPA ICR #2085.01. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before September 16, 2002.

ADDRESSES: A copy of the proposed ICR may be requested from and comments may be mailed to David Travers, Drinking Water Protection Division (Mailcode 4606), Office of Ground Water and Drinking Water, U.S. EPA, 1200 Pennsylvania Avenue NW., Washington, DC 20460. Copies of the proposed ICR also may be obtained from the Safe Drinking Water Hotline, toll-free at (800) 426-4791. Hours of operation are 9 a.m. to 5:30 p.m. (ET), Monday-Friday, excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: David Travers, (202) 564-4638, fax (202) 564-3757, e-mail: travers.david@epa.gov.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are those which own, operate or regulate community water systems including, but not limited to, owners/operators of community water systems, State Environmental Water Quality Agencies, and State Departments of Health.

Title: 2003 Drinking Water Infrastructure Needs Survey, EPA ICR #2085.01.

Abstract: The purpose of this information collection is to identify the infrastructure needs of community public water systems for the 20-year period from January 2003 through December 2022. EPA's Office of Ground Water and Drinking Water (OGWDW) will collect these data to comply with Sections 1452(h) and 1452(i)(4) of the Safe Drinking Water Act (42 U.S.C. 300h).

EPA will use a questionnaire to collect capital investment information from large (serving more than 50,000 people) and medium (serving more than 3,300 people) community water systems. Participation in the survey is voluntary. Information submitted to EPA as part of the survey will be made
