SUPPLEMENTARY INFORMATION:

Background

Distance learning is defined as a training/education process transpiring between trainers/teachers at one location and participants/students at other locations via technology. NIC is using the satellite broadcasting and the Internet to economically reach more correctional staff in federal, state and local agencies. Another strong benefit of satellite delivery is its ability to broadcast programs conducted by experts in the correctional field. The entire audience can be reached at the same time with exactly the same information. Everyone will be reading from the same page. In addition, NIC is creating training programs from its edited 32 hour programs that will be disseminated through its Information Center.

Purpose

The purposes of funding this initiative are:

(1) Produce four-three-hour satellite/Internet videoconferences, disseminating current information to the criminal justice community;

(2) Produce one eight-hour training sessions for site coordinators/facilitators. This is designed to train the facilitators from each registered site concerning the outcomes expected and in the knowledge and skills to facilitate the off-air activities;

(3) Produce two 16-hour sessions of distance learning training that responds directly to the needs identified by practitioners working in the criminal justice arena. The satellite training will be delivered four hours each day, Monday through Thursday.

Scope of Work

To address the scope of work for this project, the following will be needed:

1. *Producer Consultation and Creative Services:* The producer will: (a) Consult and collaborate on program design, program coordination, design of field segments and content development with NIC's Distance Learning Manager; (b) work with each individual consultant and develop their modules for delivery using the distance learning format and/or the teleconference format; (c) help

develop scripts, graphic design, production elements and rehearsal for each module of the site coordinators' training and the distance learning training; (d) use their expertise in designing creative ways to deliver satellite teleconferencing. The producer will also be responsible for attending planning meetings and assisting in the video-taping of testimonials at conferences.

2. *Pre-Production: Video:* The producer will supervise the production of vignettes to be used in each of the three-hour videoconferences, as well as the distance learning training. NIC presenters (content experts) will draft outlines of the scripts for each vignette. From the outlines, scripts will be developed by the producer (script writing expert) and approved by NIC's Distance Learning Manager. Professional actors will play the parts designated by the script. Story boards for each production will be written by NIC's Distance Learning Manager.

Producer will supervise camera and audio crews to capture testimonials from leaders in the correctional field at designated correctional conferences. The producers will coordinate all planning of the production and post production for each of the seven teleconferences Video Production: Video production for each teleconference will consist of video taping content related events in the field, editing existing video and video taping experts for testimonial presentations. It will also include voice over, audio and music for each video, if necessary. Blank tapes and narration for field shooting will be purchased for each site. The format for all field shooting will be either Beta Cam, DV Pro Digital and/or Mini DVD.

Post Production (Studio): Innovated and thought provoking opening sequences will be produced for each teleconference. In addition graphics will be utilized to enhance the learning in each module. The producer will coordinate art direction, lighting, and set design and furniture for all teleconference segments. (Set design should change periodically throughout the award period). The producer will organize and supervise the complete production crew for rehearsal and production days. (See schedules below).

3. *Production:* The production group will set up and maintain studio lighting, adjust audio, and have a complete production crew for the following days and hours. A production crew will include Director, Audio Operator, Video Operator, Character Generator Operator, Floor Director, Camera Operators (3 to 4), Teleprompter Operator, On Line

Internet Coordinator, Make-Up Artist (production time only), and Interactive Assistance Personal (fax, email, and telephone.)
