1. Coverage—statewide, regional, specific to a subpopulation.

2. Source—vital statistics, medical records, Medicaid, insurance databases, area environmental monitoring, facility

monitoring.

3. Reference year—year system began operation.

4. Timeliness—length of time between diagnosis/testing/environmental sampling and reporting to appropriate state/local agency.

5. Types of data elements—general categories such as geographic coordinates, demographics, measurements.

6. Mode of reporting—active vs. passive system; electronic (diskette, web-based, etc) vs. paper, etc).

7. Use of data—Has data been analyzed and reported to appropriate stakeholders? Has it been used in planning public health actions, hazard mitigation, special studies, etc?

B. Future assessment of health surveillance and environmental monitoring information systems: Future assessment of current surveillance information systems should include the following information on personnel, management practices and technical infrastructure.

1. A description of the health department and environmental department information technology (IT) infrastructure and architecture.

a. Describe relevant policies; the organization and decision-making processes; and decision-making responsibility and authority for surveillance and related IT in the health and environmental departments. Describe how they relate to state policies, etc. How does the loci of decision-making for surveillance and IT relate to one another and how are decisions made regarding IT for surveillance. Also, provide a description of how cross-program decisions are made.

b. Describe current technical infrastructure, including comments on: (1) whether the health department and environmental departments have a local area network that supports TCP/IP; (2) whether the health department and environmental department have firewalls; (3) what kind and version of server is used in the health department and environmental department (*e.g.*, NT, Unix, other); (4) are local health departments included in state health departments included in state environmental intranet? If so, through what kind of connection?

2. Comprehensive description of public health surveillance and environmental monitoring information systems.

a. Describe the purpose, scope, and capabilities of each system.

b. Describe the technical characteristics of each system, including information about the number and kind of platforms and technologies, and tools used (specifically, include information about communications and networking technologies).

c. Enumerate and describe functions of personnel dedicated to each system (*e.g.*, epidemiologists, programmers, data base managers, data entry personnel, support staff).

d. Examine the comparability of data element specifications, data sources, and methods of data collection. 3. Describe the administration and operation of the health department's network, including staff and resources currently in place to support it, functions performed, and relationship to the state government's network administration and support.

4. Describe surveillance systems software development capacity, including resources in place to support this capacity, and description of current activities.

5. Identify current sources of support for surveillance and related IT (*e.g.*, Federal funds other than the Environmental Public Health Tracking (surveillance) Network, State funds, etc.).

6. Describe interaction between state public health surveillance and environmental monitoring information systems and local health departments.

C. Additional guidance: Applicants should contact their State NEDSS Coordinator to determine if information obtained through NEDSS assessment and planning activities can contribute to the activities required in this program announcement.

[Docket No. 02N-0302]

Agency Information Collection Activities; Proposed Collection; Comment Request; Guidance for Industry on Formal Meetings With Sponsors and Applicants for PDUFA Products

**AGENCY:** Food and Drug Administration, HHS.

## ACTION: Notice.

**SUMMARY:** The Food and Drug Administration (FDA) is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act of 1995 (the PRA), Federal agencies are required to publish notice in the Federal Register concerning each proposed collection of information, including each proposed extension of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on the information collection contained in the guidance for industry on formal meetings with sponsors and applicants for Prescription Drug User Fee Act of 1992 (PDUFA) products.

**DATES:** Submit written or electronic comments on the collection of information by September 16, 2002.

ADDRESSES: Submit electronic comments on the collection of information to http:// www.accessdata.fda.gov/scripts/oc/ dockets/edockethome.cfm. Submit written comments on the collection of information to the Dockets Management Branch (HFA–305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. All comments should be identified with the docket number found in brackets in the heading of this document.

### FOR FURTHER INFORMATION CONTACT:

Karen Nelson, Office of Information Resources Management (HFA–250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–1482.

**SUPPLEMENTARY INFORMATION:** Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal agencies to provide a 60-day notice in the Federal Register concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.
