

submitting the request or return it without prejudice to resubmission.

(B) *Public notice of a request for correction.* In selected cases, DOE may publish notice of the receipt of a request for correction and may invite public comment.

(C) *Participation by other interested persons.* By letter, DOE may invite or allow other interested persons to comment on a request for correction.

(D) *Initial decisions.* If the request for correction concerns information that does not involve a document subject to public comment, then the originating office of the DOE Element responsible for dissemination of the information should provide at least an initial response within 60 days (with a copy to the CIO). The response should contain a statement of reasons for the disposition.

(E) *Administrative appeals.* In the event DOE initially denies a request for correction of information not subject to public comment and the person who submitted the request would like additional review, then that person must submit a request for review, including a statement of reasons for modifying or reversing the initial decision, no later than 30 days from the date of that decision. A request for review under this paragraph must be submitted by e-mail to cio.webmaster@hq.doe.gov, or by regular mail to Office of the Chief Information Officer, Attention: DOE Quality Guidelines, U.S. Department of Energy, Forrestal Building—Room 8H-089, 1000 Independence Avenue NW., Washington, DC 20585, or via Fax to (202) 586-7996. The CIO will direct the request for review to the DOE Element which supervises the originating DOE program office, and the DOE Element, with the concurrence of the Office of General Counsel, should issue a final decision for DOE (with a copy to the CIO) within 60 days from the date that the request for review is received.

(F) Any corrective action will be determined by the nature and timeliness of the information, the magnitude of the error, and the cost of undertaking a correction. DOE Elements are not required to change, or in any way alter, the content or status of information simply based on the receipt of a request for correction. DOE Elements need not respond substantively to frivolous or repetitive requests for correction. Nor do DOE Elements have to respond substantively to requests that concern information not covered by the OMB or DOE Guidelines or from a person whom the information does not affect.

(G) If DOE determines that a request for correction of information not subject

to public comment has merit, DOE may respond by correcting the information in question and without issuing a decision explaining the reasons for accepting the request.

(H) If DOE receives multiple requests for correction of information not subject to public comment, DOE may consolidate the requests and respond on a DOE web site, or by notice in the **Federal Register**, or by issuing a correction in similar form and manner as the original information was issued.

V. DOE Reporting Requirements

On an annual fiscal-year basis, the CIO will report to the Director of OMB concerning requests for correction received under these Guidelines. DOE Elements must designate a reporting official, except as agreed otherwise between the DOE Element and the CIO, for example, where the CIO might compile the data for the DOE Element. Where a DOE Element reporting official has been designated, that official must report to the CIO no later than November 1 every year concerning requests received during the previous fiscal year and their resolutions, including requests with regard to information subject to public comment. The first reports are due November 1, 2003. The CIO will compile the DOE consolidated report and submit it annually to OMB beginning January 1, 2004. DOE Element reports should contain the number of complaints received, nature of complaints (e.g., request for deletion or correction) and how they were resolved (e.g., number corrected, denied, or pending review). The report must also include a compilation of the number of staff-hours devoted to handling and resolving such complaints and preparing reports.
