II. Background

A. Purpose of the FIFRA Scientific Advisory Panel

Amendments to FIFRA enacted November 28, 1975 (7 U.S.C. 136w(d)), include a requirement under section 25(d) that notices of intent to cancel or reclassify pesticide regulations pursuant to section 6(b)(2), as well as proposed and final forms of rulemaking pursuant to section 25(a), be submitted to a Scientific Advisory Panel (SAP) prior to being made public or issued to a registrant. In accordance with FIFRA section 25(d), the SAP is to have an opportunity to comment on the health and environmental impact of such actions. The Panel also shall make comments, evaluations, and recommendations for operating

guidelines to improve the effectiveness and quality of analyses made by Agency scientists. Members are scientists who have sufficient professional qualifications, including training and experience, to be capable of providing expert comments as to the impact on health and the environment of regulatory actions under sections 6(b) and 25(a) of FIFRA. The Deputy Administrator appoints seven individuals to serve on the Panel for staggered terms of 4 years, based on recommendations from the National Institute of Health and the National Science Foundation.

Section 104 of the Food Quality Protection Act of 1996 (FQPA) (Public Law 104-170 established the FQPA Science Review Board (SRB). These scientists shall be available to the SAP on an ad hoc basis to assist in reviews conducted by the Panel.

B. Purpose of the Meeting

The FIFRA SAP will meet to consider and review corn rootworm plant-incorporated protectant insect resistance management and non-target insect issues. Monsanto Company has requested a registration for the plant-incorporated protectant *Bacillus thuringiensis* Cry3Bb1 protein and the genetic material (ZMIR13L) necessary for its production in corn. The Cry3Bb1 protein is intended to control corn rootworms (CRW, *Diabrotica* spp.), a coleopteran pest of corn. This registration application is limited to event MON 863 corn and descendant lines and varieties. Studies were submitted to support registration of the transformation event MON 863. CRW, a primary pest of corn in the United States, feeds on corn roots as larvae leading to a reduction in the plant's ability to absorb water and nutrients from soil and lodging. In areas where CRW is a pest (e.g., Corn Belt), significant financial losses are realized from a decrease in production and the cost of chemical insecticides used to control this insect pest. Significant acres of corn are treated annually to control CRW with organophosphate, carbamate and pyrethroid insecticides.

Monsanto has conducted experiments using Cry3Bb1 corn for the last 3 years (2000-2002) under Experimental Use Permits. This has allowed for data to be developed to support the company's application for a commercial registration under FIFRA. EPA has conducted a risk assessment based on the data submitted. The Agency is seeking the FIFRA SAP's review on their assessment of the non-target arthropod studies and the Bt degradation in soil studies.

In addition, Monsanto has submitted an insect resistance management plan (IRM) intended to be used for a 3-year interim period while further scientific studies are conducted to refine the plan based on actual commercial field experience. EPA has cooperated with researchers working with corn rootworm in its evaluation of the Monsanto proposed IRM plan. The Agency will also be seeking the advice of the FIFRA SAP regarding their assessment of the IRM plan. The guidance provided by the FIFRA SAP along with comments provided by the public will be considered by the Agency in making its decision on the application for registration for products containing Cry3Bb1.

C. Request for Nominations to Serve as Ad-Hoc Members of the FIFRA Scientific Advisory Panel for This Meeting

The FIFRA SAP staff routinely solicit the stakeholder community for nominations to serve as ad-hoc members of the FIFRA SAP for each meeting. Any interested person or organization may nominate qualified individuals to serve on the FIFRA SAP for a specific meeting. No interested person shall be ineligible to serve by reason of their membership on any other advisory committee to a Federal department or agency or their employment by a Federal department or agency (except the EPA). Individuals nominated should have expertise in one or more of the following areas: Insect biology, insect resistance management, and non-target effects. Nominees should be scientists who have sufficient professional qualifications, including training and experience, to be capable of providing expert comments on the issues for this meeting. Nominees should be identified by name, occupation, position, address, and telephone number. Nominations should be provided to the DFO listed under **FOR FURTHER INFORMATION CONTACT** by August 5, 2002.

The criteria for selecting scientists to serve on the Panel are that these persons be recognized scientists--experts in their fields; that they be as impartial and objective as possible; that they represent an array of backgrounds and perspectives (within their disciplines); have no financial conflict of interest; have not previously been involved with the scientific peer review of the issue(s) presented; and that they be available to participate fully in the review, which will be conducted over a relatively short time frame. Nominees will be asked to attend the public meetings and to participate in the discussion of key issues and assumptions at these

meetings. Finally, they will be asked to review and to help finalize the meeting minutes.

If a Panel nominee is considered to assist in a review by the SAP for a particular session, the nominee is subject to the provisions of 5 CFR part 2634, Executive Branch Financial Disclosure, as supplemented by the EPA in 5 CFR part 6401. As such, the Panel nominee is required to submit a Confidential Financial Disclosure Report which shall fully disclose, among other financial interests, the nominee's employment, stocks, and bonds, and where applicable, sources of research support. The EPA will evaluate the nominee's financial disclosure form to assess that there are no formal conflicts of interest before the nominee is considered to serve on the Panel. Selected Panel members will be hired as a Special Government Employee. The Agency will review all nominations; a decision on Panel members for the meeting will be posted on the FIFRA SAP web site or may be obtained by contacting the Public Information and Records Integrity Branch at the address or telephone number listed in Unit I. of the **SUPPLEMENTARY INFORMATION**.

D. FIFRA SAP Meeting Minutes

The FIFRA SAP will prepare meeting minutes summarizing its recommendations to the Agency in approximately 60 days. The minutes will be posted on the FIFRA SAP web site or may be obtained by contacting the Public Information and Records Integrity Branch at the address or telephone number listed in Unit I. of the **SUPPLEMENTARY INFORMATION**.
